

Project news

Project number: K1771

7 August 2025

To the Resident

Paynters Creek and Petrie Creek Road upgrade - Rosemount

Project summary

Sunshine Coast Council has received funding from the South-East Queensland Community Stimulus Program (SEQCSP) to extend the dedicated cycle lane on Petrie Creek Road between Paynters Creek Rd and Sugar View Lane.

We will start early works at the Petrie Creek Road and Paynters Creek Road intersection to allow for service relocations. Please see Figure 1 for location of works.

Start date

Works are scheduled to start the week beginning Monday 11 August and are expected to finish by October 2025, subject to weather and site conditions.

Work will take place from 7am to 5pm, Monday to Saturday. We appreciate your patience during the delivery of this work and look forward to improving this asset for our community.

Property access and parking

We will make every effort to minimise construction impacts. If there are any interruptions to property access, a project representative will contact you to make arrangements.

Traffic management

The safety of all road users and construction workers is Council's top priority. Traffic management measures will be in place throughout construction. Thank you in advance for your patience and cooperation.

Further information

For further information about this project please contact Council's project officer, Stephen Dukes on the details below stating project number K1771 Paynters Creek and Petrie Creek Road upgrade.

A note from your local councillor

I look forward to the service relocations being completed. The widening of Petrie Creek Road to improve pedestrian and cycle paths is the final link for Diddilah David Low Way through to Nambour.

Thank you for your patience and understanding during these works.

Cr Ted Hungerford
