

Environment Levy Program

Initiative	Comments	Budget 2025 \$'000
ENVIRONMENTAL ACQUISITION THEME		
Land Acquisition Program	Identify and purchase priority lands throughout the LGA to support the delivery of strategic natural environment outcomes	3,27
Establishment of Environment Levy Acquired Properties	Undertake planning and on-ground actions to establish Environment Levy acquired properties	59
Planning and Legal	Undertake the planning and legal requirements and works to protect acquired lands in perpetuity	
Environmental Acquisition Projects Total		3,87
Conserving our biodiversity		
Koala Conservation and Management	Implement the Sunshine Coast Koala Conservation Plan through on-ground actions, education and research	6
Macropod Conservation and Management	Implement the Sunshine Coast Macropod Conservation Plan	3
Planning for Improved Fauna Movement	Better understand the impact of road infrastructure on fauna movement, and to plan and implement the recommendations—improving fauna movement between priority habitat areas across the Sunshine Coast Council local government area.	3
Marine Turtle Conservation Plan	Implement the Marine Turtle Conservation Plan	4
Keeping our waterways and wetlands healthy		
Regional Erosion and Sediment Education and Training (RESET) site	The Project is to provide an area to support internal and external training of erosion and sediment control (ESC) practices on the Sunshine Coast.	1
Upper Mary River Catchment Health Report	Assess the ecological health of the upper Mary River and its Sunshine Coast catchment area to track progress against our ELS target and guide local management actions	6
Healthy Coast		
Coastal Dunal Rehabilitation Program	On ground dunal rehabilitation works across the Coastal Reserve network supported through research and monitoring	90
Shoreline Erosion Management Plan Dune Building Program	Support the implementation of environmental based responses as outlined in councils' Shoreline Erosion Management Plan	12
Coastal Health Report 2	Undertake follow-up coastal monitoring to understand current health, track changes from the baseline and report on progress towards our ELS target.	26
Expanding our green space		
Blue Heart Sunshine Coast	Provide a foundation for wide-scale operationalisation of the Blue Heart Sunshine Coast project through background studies, targeted blue carbon and restoration actions on council lands and community education initiatives.	15
Sunshine Coast Ecological park	To create an ecological park, located within the Mountain View Green Space, that protects, celebrates, and restores the site's environmental values and recreation, education, research and cultural heritage.	25
