## Memorial Drive Streetscape Upgrade, Eumundi

September 2025 construction update

Night works – Sunday 7 to Wednesday 10 September 2025 inclusive - resurfacing

Memorial Drive and Caplick Way

Day works – various works continuing throughout September.

*Weekends and nightworks as required between 6pm and 6am.*

*All works are subject to weather, site conditions and construction material/equipment availability.*

### Construction overview

The finishing touches to Stages 1 and 2 of major construction works for the streetscape upgrade will take place in September.

This includes asphalt (bitumen) resurfacing of Memorial Drive, line marking, street furniture installation, ongoing planting and geotechnical investigations for Stage 3 works. Geotechnical works are underground tests of soil, rock, groundwater and other elements.

While the construction team is in the area, parts of Caplick Way will also be resurfaced.

To minimise inconvenience to our community, including local businesses and markets, asphalt works have been planned for Memorial Drive and Caplick Way over four nights from Sunday 7 to Wednesday 10 September inclusive (subject to weather). Unavoidable, intermittent noise can be expected with large machinery in operation.

Line marking will follow soon after and be undertaken during the day.

During all construction activity (including night works), pedestrian and vehicle access will remain available to businesses.

At times pedestrian access will sometimes be via temporary ramps or alternative footpaths and vehicle access will be as directed by traffic controllers.

Surveyors will be on site on intermittent days to conduct the geotechnical investigations.

We thank local businesses for your ongoing cooperation during the streetscape works, including forward communication to staff, customers and suppliers.

### Temporary changes to traffic and parking conditions

Two-way traffic will continue along Memorial Drive during all works with traffic control and temporary signage in place as required.

All information contained in this communication is accurate at the time of distribution however works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control.

## Construction notification

Some on-street parking areas will be temporarily unavailable during asphalt and line marking works.
