

Construction notification

Project number: K1771

18 March 2026

To the Resident,

Petrie Creek Road Shoulder Widening - Petrie Creek Road, Rosemount

-  Stage 1 construction information
-  March to April 2026 works
-  Petrie Creek Road and Paynters Creek Road, Rosemount
-  Traffic conditions - single lane closures
-  Water services disruptions

About the project

Sunshine Coast Council has received funding from the South-East Queensland Community Stimulus Program (SEQCSP) to extend the dedicated cycle lane on Petrie Creek Road.

The upgrade includes approximately 1.2 kilometres of roadworks, delivered in stages. The works will start from the Petrie Creek Road and Paynters Creek Road intersection and progress east towards Sugar View Lane.

Please refer to the map overpage for location of works.

Construction Update

Construction started in January 2026 and will continue through to 2027, weather and site conditions permitting.

Completed works

- Earthworks and drainage structures at the Petrie Creek Road and Paynters Creek Road intersection in the Stage 1 area have been completed.

In progress works

- Earthworks and drainage structures in the Stage 2 area are now progressing whilst service relocations are undertaken in the Stage 1 area.
- Relocation of the water utility main in Stage 1 is scheduled to start this month (March) and continue through April 2026. Residents will be notified in advance, by Unitywater, of any water supply disruptions.

Upcoming works

- Following completion of the service relocation, Council construction crews will return to complete Stage 1 road works.

Program and timing

Wet weather and service conflicts have affected the original construction schedule.

As a result, the previously planned Stage 2 road closure commencing in April is now expected to start in July 2026 and continue through to October 2026.

Stage 3 road closures will commence immediately after the completion of Stage 2 and will remain in place from

October 2026 until February 2027, excluding the Christmas and New Year holiday period.

Council will provide monthly updates on project progress and any impacts to road closure periods. Please subscribe to receive these project updates using the QR code below.

Changes to traffic conditions

Council is committed to ensuring the safety of all road users, residents and construction workers during these works. Traffic management measures will be in place throughout the project.

- **Stage 1 works** (Petrie Creek Road / Paynters Creek Road intersection) will continue under lane closures during work hours.
- **Stages 2 and 3** will require a **full road closure**, with access restricted to residents living and customers attending businesses within the active work zone. This approach enables works to be completed as safely and efficiently as possible.
- All other road users will be directed via a detour along Paynters Creek Road. Detour signage and message boards will be installed in advance.
- A Traffic Management Consultant has been engaged to assess and minimise impacts to residents and road users along the detour route.

Council appreciates the community's patience and apologises for any inconvenience caused during these essential works.

Please refer to the map of staging works over page.

Property access

Property access will be affected at various stages throughout construction. Residents living within active work zones will be guided by construction staff when entering or exiting their properties to ensure safety and minimise disruption.

Driveway access will only be restricted during specific driveway works.

If access to a property is expected to be temporarily impacted, a Council representative will contact affected residents directly.

Residents, business employees, and customers located from Sugar View Lane through to the eastern intersection with Paynters Creek Road, will need to access their properties via the eastern end of Petrie Creek Road during the stage 2 and 3 road closures.

Register for project updates

The best way to keep informed about the project is to subscribe for emailed updates. You can subscribe via this QR code or via the project [webpage](#) on the Sunshine Coast Council website, type Petrie Creek Road Upgrade in the search bar.

Please share this information with family, friends, staff and suppliers.
