

Mooloolaba Transport Corridor Upgrade Project Stage 1B – Walan Street, Mooloolaba

Project number: H9272

20 Walan Street. Driveway crossover reconstruction, Naroo Court entry REVISED DATES Saturday 27 March 6am to Wednesday 31 March 8am (inclusive) (weather and site conditions permitting)

Driveway crossover reconstruction works

As per our recent construction notification of 16 March, recent Unitywater works and new kerb levels in Naroo Court require reconstruction of the driveway crossover of 20 Walan Street.

During these works, vehicle access to the building's driveway and private car park will not be possible. Alternative parking will be provided for staff and clients of the building. The construction contractor will liaise directly with tenants about these arrangements.

In order to accommodate access for a removalist truck on Friday 26 March, the driveway crossover works have been rescheduled as follows.

Saturday 27 March 6am – 6pm

- Driveway crossover concrete surface excavated
- Concrete works area prepared

Sunday 28 March 6am – 6pm

- No construction activity

Monday 29 March 6am – 6pm

- Concrete poured

Tuesday 30 March 6am – 6pm

- Concrete curing

Wednesday 31 March 8am

- Driveway re-opened to standard vehicles – cars, mini-van, ute etc.
- Due to the need for the concrete to cure sufficiently, heavy vehicle/truck access will be available one week later, from Wednesday 7 April 8am.

These works have been planned to minimise impacts to businesses operating from 20 Walan Street.

Pedestrian access will remain available at all times.
