

Construction notification

Project number: ITT256

11 June 2026

First Avenue Upgrade, Maroochydore

-  Construction information
-  Timeframe: June 2026 to April 2027. Day and night works
-  First Avenue to The Esplanade, Maroochydore
-  Temporary and permanent changes to traffic conditions and parking. Construction contractors and equipment on site.

As part of the First Avenue Upgrade Project underground services including power, telecommunications, stormwater and mains water are being upgraded.

Water main upgrade works are currently taking place at the intersection of The Esplanade, First Avenue and Duporth Avenue, near the bridge (Zone A pictured below).

These works involve the digging of large trenches, many metres below the road surface, in order to install the new water main.

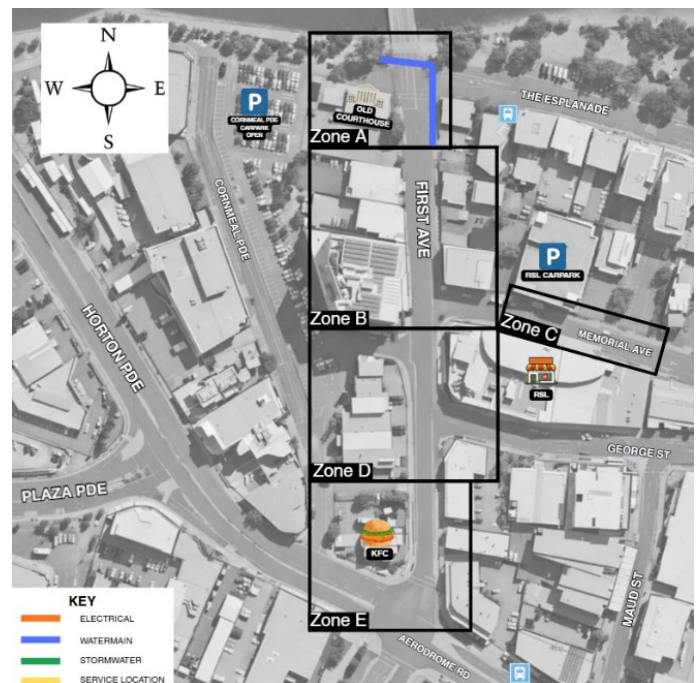

To safely undertake these works and manage groundwater levels, a dewatering system is required. This system involves specialist equipment, including a generator powered pump to remove water from the deep, underground trenches.

Nearby residents and businesses may experience low-level, intermittent noise impacts during the day and night as a result of the dewatering system.

Dewatering is expected to be in operation in Zone A until late June, then will continue in other areas as the water main works progress (subject to weather and site conditions).

The onsite contractor, GRC Civil, will continue to minimise construction impacts wherever practical and possible to do so.

We thank our community for your ongoing patience and understanding as we work to upgrade First Avenue.
