## Part 7 Local Plans

## 7.1 Preliminary

- (1) Local plans organise the planning scheme area at the local level and provide more detailed planning for the zones.
- (2) Local plan areas are mapped and included in **Schedule 2 (Mapping)**.
- (3) A precinct may be identified for part of a local plan.
- (4) The levels of categories of development and categories of assessment for development in a local plan are in Part 5 (Tables of Assessment).
- (5) Assessment criteria-benchmarks for local plans are contained in a local plan code.
- (6) Each local plan code includes the following:-
  - (a) the application of the local plan code;
  - (b) the purpose of the local plan code;
  - (c) the overall outcomes that achieve the purpose of the local plan code;
  - (d) the performance outcomes that achieve the overall outcomes of the local plan code; and
  - (e) the acceptable outcomes that achieve the performance outcomes of the local plan code.
- (7) The following are the local plan codes for the planning scheme:-
  - (a) Beerburrum local plan code;
  - (b) Beerwah local plan code;
  - (c) Blackall Range local plan code;
  - (d) Bli Bli local plan code;
  - (e) Buderim local plan code, including:-
    - (i) Precinct BUD LPP-1 (Gloucester Road South);
  - (f) Caloundra local plan code, including:-
    - (i) Precinct CAL LPP-1 (Bulcock Street);
    - (ii) Precinct CAL LPP-2 (Ormuz Avenue);
    - (iii) Precinct CAL LPP-3 (Bowman Road/Oval Avenue);
    - (iv) Precinct CAL LPP-4 (Moffat Beach/Shelly Beach);
    - (v) Precinct CAL LPP-5 (Events Centre Hospitality Area);
    - (vi) Precinct CAL LPP-6 (Bulcock Street Hospitality Area);
    - (vii) Precinct CAL LPP-7 (Bulcock Beach Hospitality Area); (viii) Precinct CAL LPP-8 (Kings Beach Hospitality Area);
    - (ix) Precinct CAL LPP-9 (Omrah Avenue);
    - (x) Precinct CAL LPP-10 (Caloundra Aerodrome);
  - (g) Caloundra West local plan code, including:-
    - (i) Precinct CAW LPP-1 (Homestead Drive);
  - (h) Coolum local plan code, including:-
    - (i) Precinct COL LPP-1 (Palmer Coolum Resort and The Coolum Residences);
  - (i) Eudlo local plan code;

- (j) Eumundi local plan code, including:-
  - (i) Precinct EUM LPP-1 (Eumundi Butter Factory);
- (k) Forest Glen/Kunda Park/Tanawha local plan code;
- (I) Glass House Mountains local plan code;
- (m) Golden Beach/Pelican Waters local plan code;
- (n) Kawana Waters local plan code, including:-
  - (i) Precinct KAW LPP-1 (South of Point Cartwright Drive);
  - (ii) Precinct KAW LPP-2 (North of Point Cartwright Drive);
  - (iii) Precinct KAW LPP-3 (Nicklin Way North Minyama);
  - (iv) Precinct KAW LPP-4 (Buddina Urban Village), including;
    - (A) Sub-precinct KAW LPSP-4a (Urban Village Residential);
    - (B) Sub-precinct KAW LPSP-4b (Bermagui Crescent/Iluka Avenue);
    - (C) Sub-precinct KAW LPSP-4c (Pacific Boulevard);

# 7.2 Local plan codes

#### 7.2.1 Beerburrum local plan code

#### 7.2.1.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Beerburrum local plan area as shown on Map ZM54 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Beerburrum local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.1.3 (Purpose and overall outcomes);
  - (b) Table 7.2.1.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.1A (Beerburrum local plan elements).

#### 7.2.1.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Beerburrum local plan code.

The Beerburrum local plan area is located on the North Coast Rail Line in the far southern part of the Sunshine Coast.

The local plan area comprises the small rural village of Beerburrum and residential areas immediately to the south of the village, and has a land area of approximately 69 hectares.

The Beerburrum local plan area is set within a picturesque rural and natural landscape at the base of Mount Beerburrum, which forms part of the National heritage listed Glass House Mountains. Beerburrum State Forest and Beerburrum Creek are other key features of this picturesque landscape setting.

A general store, agricultural supplies store and motor vehicle repair premises located along Beerburrum Road provide convenience goods and a basic level of services to local residents and visitors.

The Beerburrum State School and Parrot Park, located across the road from the general store provide a focus for community activity within the local plan area. The Beerburrum School of Arts in Anzac Avenue is another significant community meeting place.

A number of items and places of cultural heritage significance are found in the Beerburrum local plan area, including the former Beerburrum Bakery, Soldier Settlement House, Beerburrum School of Arts and the Anzac Avenue Memorial Trees, which reflect Beerburrum's involvement in the soldier settlement scheme for Diggers who served in World War I.

The Beerburrum community enjoys a quiet, relaxed lifestyle where surrounding open space, rural vistas and privacy are key features. A focus on community activities in the village area, outdoor recreation and heritage are also important elements of this lifestyle.

Residential areas are generally characterised by low density development comprising dwelling houses on relatively large lot sizes. This large lot size adds to the open streetscape character of the local plan area and is necessary for the effective on-site treatment and disposal of waste water.

Beerburrum Road and Beerburrum-Woodford Road are major roads in the local plan area. The Beerburrum railway station has recently undergone a significant upgrade.

The Beerburrum local plan area has only limited urban services. Although reticulated water is available to the local plan area, reticulated sewerage is not available and is not planned to be made available in the life of the planning scheme.

#### 7.2.1.3 Purpose and overall outcomes

- (1) The purpose of the Beerburrum local plan code is to provide locally relevant planning provisions for the assessment of development within the Beerburrum local plan area.
- (2) The purpose of the Beerburrum local plan code will be achieved through the following overall outcomes:-
  - (a) Beerburrum remains a small village with an intimate rural character and identity.
  - (b) Urban development in the Beerburrum local plan area is limited to land within the urban growth management boundary so as to protect and reinforce Beerburrum's discrete rural village character and identity, provide for the efficient provision of *infrastructure* and services, protect significant environmental areas and avoid land substantially constrained to development.
  - (c) Development retains the key built form, streetscape, landscape character and natural environment elements that contribute to the setting, character and identity of the Beerburrum local plan area as a rural village with a strong sense of place and associations with the past.
  - (d) The form and scale of development is low key with buildings that are low rise and cover a comparatively small area of the *site* thereby leaving significant areas for landscaping and *private open space*.
  - (e) Development in the Local centre zone supports the role and function of the Beerburrum local centre as a small local (not full service) activity centre serving the basic convenience needs of residents and visitors. Whilst development in the Local centre zone provides for the expansion and enhancement of business uses, residents continue to rely upon Glass House Mountains Township, Beerwah or other centres in the Moreton Bay Regional Council area to fulfil most of their business and industry needs.
  - (f) The traditional built form character of Beerburrum, and particularly the village centre, is retained and new development is designed to complement the traditional built form and streetscape character of the local plan area.
  - (g) Development in the Low density residential zone maintains large urban size lots to preserve the rural village character and provide for the effective treatment and disposal of effluent on-site.
  - (h) Development in the Low impact industry zone respects the amenity of surrounding residential areas and is designed to protect the *streetscape* character of Anzac Avenue.
  - (i) Development in the local plan area is supported by a network of open space that meets the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.

# 7.2.1.4 Assessment criteria Performance outcomes and acceptable outcomes

Performance Outcomes		Acceptable	e Outcomes
Develop	ment in the Beerburrum Local Plan Are	ea Generally	(All Zones)
PO1	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional rural village architectural character of Beerburrum in terms of scale, siting, form, composition and	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage significance.  Editor's Note—Section 8.2.9 (Heritage and character areas overlay code) sets out

PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views	AO2.1	Development provides for the retention of historical landmarks, memorials and monuments.
	and vistas, existing character trees and areas of significant <i>vegetation</i> contributing to the setting, character and sense of place of Beerburrum.	AO2.2	Development protects and emphasises, and does not intrude upon, the important sight lines to Mount Beerburrum identified on Figure 7.2.1A (Beerburrum local plan elements).
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation that contributes to the streetscape character and vegetated backdrop to the village including:-  (a) the memorial trees along Anzac Avenue;  (b) riparian vegetation along Beerburrum Creek; and  (c) other character vegetation identified on Figure 7.2.1A (Beerburrum local plan elements).
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO3	Development contributes to the establishment of attractive and coherent <i>streetscapes</i> and gateways that reflect and enhance the sense of entry to and the rural village character of Beerburrum.	AO3.1	Development adjacent to a primary streetscape treatment area or gateway/entry point identified on Figure 7.2.1A (Beerburrum local plan elements) incorporates architectural and landscape treatments and other design elements which enhance the sense of arrival to and the rural village character of Beerburrum.
		AO3.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of <i>streetscapes</i> and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.

Develop	ment in the Low Impact Industry Zone		
PO9	Development in the Low impact industry zone is sympathetic to the predominantly residential character of the surrounding area and the heritage <i>streetscape</i> values of Anzac Avenue.	AO9	The layout and design of development in the Low impact industry zone:-  (a) provides vehicle access from Acacia Avenue or Anzac Avenue, located at one side of the site;  (b) has a shopfront presence to Anzac Avenue which respects the character and heritage significance of the area;  (c) is of a scale which respects the surrounding residential setting; and  (d) provides for any larger access doors (e.g. roller doors) to be located side-on to adjacent streets.

#### Figure 7.2.1A Beerburrum local plan elements

<Figure to be inserted>

#### 7.2.2 Beerwah local plan code

#### 7.2.2.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Beerwah local plan area as shown on Map ZM49 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Beerwah local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are the assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.2.3 (Purpose and overall outcomes);
  - (b) Table 7.2.2.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.2A (Beerwah local plan elements).

#### 7.2.2.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Beerwah local plan code.

The Beerwah local plan area is located in the southern central part of the Sunshine Coast on the North Coast Rail Line between the towns of Landsborough and Glass House Mountains. The local plan area comprises the rural town of Beerwah and adjacent urban and rural residential areas as well as the Beerwah golf course and industrial estate and has a land area of approximately 775 hectares.

The local plan area is traversed by Coochin Creek and is set within a picturesque rural and natural landscape with the prominent Mount Coochin (Glass House Mountains National Park) a key feature within the otherwise gently undulating coastal plain landscape. The local plan area is surrounded by large areas of productive agricultural land, including many of the Sunshine Coast's distinctive pineapple plantations.

Beerwah's town centre, focussed on the traditional main street of Simpson Street is the major business centre for nearby towns and surrounding rural and rural residential communities, providing a range of community facilities and services and offering large retail outlets as well as a variety of shops, cafes and other local businesses. Beerwah is intended to continue to serve a significant business, retail, community and administrative role as the major regional activity centre for the southern Sunshine Coast hinterland; however, is expected to remain smaller in scale relative to other major regional activity centres on the Sunshine Coast.

The town centre is currently divided into two parts by the North Coast Rail Line with the western side of the rail line focussed on Simpson Street and Peachester Road predominantly supporting retail functions, and the eastern side (north of Mawhinney Street) currently supporting service industry functions. New development is intended to provide for retail and commercial functions to be consolidated on the western side of the rail line, with the eastern side providing for high density residential accommodation and local convenience shopping only as well as the preservation of the existing heritage listed Beerwah Hotel.

A developing industrial estate centred on Moroney Place is located on the eastern side of Steve Irwin Way. An Identified Growth Area (Employment) lies outside the local plan area to the east of Steve Irwin Way and to the South of Coochin Creek. This area is to be protected from fragmentation and inappropriate land use until decisions about long term land use are made.

The Beerwah local plan area includes a range of community facilities and sport and recreational areas including primary and high schools, a community hall, public library, emergency services, district sports grounds, swimming pool and golf course.

Older residential areas of the local plan area are characterised by relatively large lots typical of a traditional rural town setting. Substantial new urban subdivisions are located off Roberts Road and Pine Camp Road.

Greenfield expansion of Beerwah is limited to the west by the poultry industry which provides an important economic driver for the area, to the east by State forest and to the north and south by the important agricultural land which surrounds the local plan area and the desire to preserve the separate identity of Beerwah by providing for non-urban breaks between the towns of Landsborough and Glass House Mountains. However, significant urban consolidation opportunities are provided in the local plan area, particularly within walking distance to the town centre and railway station.

Steve Irwin Way is Beerwah's principal road link. Other major roads in the local plan area include Kilcoy - Beerwah Road, Pine Camp Road, Old Landsborough Road and the western end of Roys Road.

The North Coast Rail Line extends through the central part of the local plan area on a north – south alignment. The railway station and associated park and ride facilities are currently located off Simpson Street and Beerwah Parade. The Dedicated Public Transport Corridor to Caloundra South (CAMCOS) is intended to link to central Beerwah, providing excellent connectivity and accessibility to the coastal urban area.

Urban zoned land within the local plan area is connected, or has the ability to be connected to reticulated water and sewerage.

#### 7.2.2.3 Purpose and overall outcomes

- (1) The purpose of the Beerwah local plan code is to provide locally relevant planning provisions for the assessment of development within the Beerwah local plan area.
- (2) The purpose of the Beerwah local plan code will be achieved through the following overall outcomes:-
  - (a) Beerwah is progressively developed as the major regional activity centre for the southern Sunshine Coast hinterland providing a broad range of higher order uses and activities capable of servicing the local community as well as surrounding towns, villages, rural residential and rural areas. Significant urban consolidation opportunities are provided for within Beerwah, with a focus on transit oriented development in locations close to the town centre and railway station.
  - (b) Urban and rural residential development within the Beerwah local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect and reinforce the separate identity of Beerwah, provide a compact urban form, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the rural productivity and character of surrounding rural land.
  - (c) Development is sited and designed to protect significant environmental areas and retain and enhance the key landscape, and built form elements that contribute to the setting, character and identity of Beerwah as a modern country town with a strong sense of place.
  - (d) A broad range of higher order retail, commercial, community, cultural, health, entertainment and employment generating uses that support the role and function of Beerwah as a small major regional activity centre are provided to service the needs of Beerwah and surrounding areas including Beerburrum, Glass House Mountains, Landsborough, Peachester and Mooloolah.
  - (e) Development provides for centre activities to be consolidated in the Major centre zone on the western side of the rail line, with the Local centre zone on the eastern side of the rail line providing local convenience goods and services for nearby residents. Development in the Local centre zone respects the character of, and provides for the continued operation of, the Beerwah Hotel.
  - (f) Development in the Major centre zone enhances the built form and streetscape character of the Beerwah Town Centre so that Simpson Street is maintained and enhanced as a wide, attractive and pedestrian friendly main street. Development provides for the retention, extension and connection of existing laneways to improve connectivity and allow rear access to premises.
  - (g) Development provides for increased accessibility and permeability for pedestrians and cyclists to and from key destinations within the local plan area, and in particular for the provision of an improved connection between the eastern and western sides of the local plan area currently separated by the rail line in the vicinity of Mawhinney Street and Peachester Road. An open space corridor is provided along both sides of the rail line, parallel to the *primary active street*

- frontage of Simpson Street, providing an attractive pedestrian, cycle and visual link between the town centre and residential areas and the railway station.
- (h) Development in the High density residential zone, Medium density residential zone and Low density residential zone occurs in an integrated manner with higher residential densities provided within walking distance of the town centre and railway station to support transit oriented development. Development provides for walkable neighbourhoods with good pedestrian and cycle connectivity to employment, community and recreation areas as well as a diverse range of lot sizes and housing choices contributing to the creation of a well serviced, connected and affordable place to live.
- (i) Development within the Low density residential zone, particularly along Pine Camp Road and Peachester Road, provides for appropriate *buffers* to the nearby poultry industries.
- (j) Development in the Rural residential zone provides for lot sizes and a road and lot layout which preserves the character and amenity of the rural residential area, and provides for appropriate *buffers* to Coochin Creek and the Glass House Mountains National Park (Mount Coochin section).
- (k) Development within the Specialised centre zone to the south of the Kilcoy-Beerwah Road overpass provides for an integrated development which appropriately addresses the constraints of the site. Development provides for high quality design and landscaping which softens the visual impact of new premises, especially as viewed from the Kilcoy-Beerwah Road overpass and Steve Irwin Way. Development does not detract from the role of the Beerwah Town Centre as the primary focus for centre activities.
- (I) The industrial area to the east of Steve Irwin Way is consolidated and expanded to include additional allocated land south of Roys Road and west of Burys Road. Development provides for a range of lot sizes to cater for a range of medium and low impact industrial uses set within an integrated, modern and visually appealing industry park with a high level of environmental performance.
- (m) Development provides appropriate landscape buffering to Steve Irwin Way in order to effectively screen and soften built form elements and maintain the visual amenity of this road as a scenic route.
- (n) Development provides for the retention of important viewlines from public places to the Glass House Mountains.
- (o) Development does not compromise or adversely impact upon the future provision or operation of the North Coast Rail Line or the Dedicated Public Transport Corridor (CAMCOS) between Beerwah and Caloundra South.

#### 7.2.3 Blackall Range local plan code

#### 7.2.3.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Blackall Range local plan area as shown on Map ZM16 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Blackall Range local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.3.3 (Purpose and overall outcomes);
  - (b) Table 7.2.3.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.3A (Blackall Range local plan elements).

#### 7.2.3.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Blackall Range local plan code.

The Blackall Range local plan area is located on the Maleny plateau in the central hinterland of the Sunshine Coast and has a land area of approximately 2,505 hectares.

The local plan area includes the small rural villages of Montville and Mapleton, the rural residential community of Flaxton, as well as a number of smaller rural residential estates. The local plan area also includes the rural and natural areas that surround and weave in between these rural villages and rural residential areas.

The local plan area falls within the headwaters of a number of short creeks which flow to the coast and those which generally flow in a westerly direction to their confluence with the Mary River.

The local plan area is characterised by a patchwork of rural and semi-rural landscapes interspersed with pockets of ancient rainforest adjacent to creek lines in strongly dissected local catchments. The elevated setting provides a temperate local climate and provides many areas with panoramic views to the coast and hinterland.

The local plan area takes in or is bounded by a number of environmental reserves including the Mapleton Falls National Park, Kondalilla National Park, Linda Garrett Environmental Park, Mapleton Forest Reserve and the Lake Baroon Catchment Reserve.

The combination of magnificent mountain and rural scenery and the village atmosphere of its urban communities have made the Blackall Range a popular hinterland short stay tourist destination and a popular location for day trippers from other parts of South East Queensland. As a consequenc₁e the area hosts a range of small scale tourist accommodation and function facilities.

Montville, located in the southern part of the local plan area is the key tourist node on the Blackall Range. It includes a mix of European style buildings intermingled with historic and traditional Australia style heritage buildings that climb the Main Street and offer shops, cafés, galleries and other predominantly tourist related services. Montville also includes a number of significant historical buildings and places including the Montville Village Hall, Saint Mary's Church and the Montville Village Green which together provide the community heart of Montville. Hoopers Engineering works located on Balmoral Road has operated on the site for over 50 years and is a well known local landmark.

Mapleton, located in the northern part of the local plan area is the main residential area on the Blackall Range. The Mapleton Village Centre on the corner of Obi Obi Road and Mapleton-Montville Road offers local convenience shopping and employment opportunities and is more oriented to servicing the needs of the local community rather than tourists visiting the area.

The Mapleton Tavern is a major landmark that anchors the village centre with its historic architectural features. The Mapleton Lilyponds behind the village centre provide a focal point for public recreation. The Mapleton Community Hall, sports fields, bowls club and tennis courts are other important community and recreational facilities.

The rural residential community of Flaxton is located in the central part of the local plan area, between the villages of Montville and Mapleton and includes some fine examples of early Queensland timber houses and a small group of restaurants, tourist accommodation and galleries.

The communities of the Blackall Range enjoy a quiet, relaxed lifestyle where the surrounding rural and natural landscape, vistas and privacy are key features. The focus on community activities within the villages and rural heritage are also important elements of this lifestyle.

Whilst urban and rural-residential areas are both represented in the local plan area, there is little difference in the lifestyle sought or the attributes appreciated by the residents of these different areas. Both settings accommodate comparatively large lot sizes that add to the low density character of the area.

Maleny-Montville Road connects to Montville-Mapleton Road to form the major road link within the local plan area, connecting the communities of the Blackall Range local plan area along a north-south alignment. This road link also forms part of a major tourist and scenic route.

The Blackall Range local plan area has only limited urban services with neither a reticulated water supply nor sewerage available or planned to be made available to urban or rural residential areas in the life of the planning scheme.

The Blackall Range local plan area includes the Iconic Queensland Place of Blackall Range. The Blackall Range local plan code seeks to protect the iconic values declared under the repealed Iconic Queensland Places Act 2008.

#### 7.2.3.3 Purpose and overall outcomes

- (1) The purpose of the Blackall Range local plan code is to provide locally relevant planning provisions for the assessment of development within the Blackall Range local plan area.
- (2) The purpose of the Blackall Range local plan code will be achieved through the following overall outcomes:-
  - (a) The Blackall Range local plan area remains an attractive and diverse rural area with two small rural villages and a series of discrete rural residential areas set against a mosaic of faming land, natural *vegetation* and environmental reserves.
  - (b) Urban and rural residential development within the Blackall Range local plan area is limited to land within the urban and rural residential growth management boundaries respectively, so as to protect and reinforce the discrete character of the area's villages and retain the integrity of the rural and natural landscape of the Blackall Range escarpment.
  - (c) Development retains the key built form, *streetscape*, landscape character and natural environment elements that contribute to the character and identity of the Blackall Range as an attractive and visually sensitive rural and natural area with discrete rural villages, a strong sense of place and close associations with the past.
  - (d) The form and scale of development is low key with buildings that are low rise and cover a comparatively small area of a site, thereby leaving significant areas for landscaping and private open space.
  - (e) Tourist activities within the Blackall Range local plan area retain a primary focus on small scale/low key nature and hinterland based tourism experiences which complement the character and amenity of the area and enhance the role of the local plan area as a tourism focus area.
  - (f) The Montville Village Centre maintains its primary function as a tourism focus area accommodating a range of tourist oriented activities and services together with small scale convenience functions that meet the needs of visitors and local residents.

- (g) The Mapleton Village Centre functions as a local (not full service) activity centre oriented to providing for the basic convenience needs of residents of the village and nearby rural residential areas.
- (h) Whilst opportunities exist for the expansion and improvement of business functions within the Local centre zone at Montville and Mapleton, residents of the Blackall Range local plan area continue to rely upon Maleny, Palmwoods or Nambour to fulfil most of their business and industry needs.
- (i) Tourism development in the local plan area retains a primary focus on nature and/or hinterland based tourism experiences and small scale visitor accommodation and services and is of a scale and intensity that is compatible with and subservient to the rural village character and rural and natural values of the local plan area. Existing tourist service nodes in the Rural zone, such as the existing node at Kondallilla Falls Road, Flaxton, are retained. Any additional development proposals in these areas are small scale and are compatible with and enhance the existing function of the tourist node whilst not detracting from the role and function of Montville and Mapleton as the local centres for the area.
- (j) Although not consistently represented throughout the whole of the local plan area, the traditional built form, heritage and streetscape character reflected in many buildings and places (i.e. Montville Village Hall, Saint Mary's Church, the Mapleton Tavern and the streetscape of Main Street/Maleny-Montville Road at Montville) is retained and reinforced through the design and construction of new development.
- (k) Development in Montville village centre improves pedestrian and visual linkages from Main Street to Russell Family Park wherever practicable.
- (I) Other than for the purpose of providing a retirement facility or residential care facility in the Low density residential zone, development in the Low density residential zone and Rural residential zone provides for low density living on relatively large urban and rural residential lots.
  - Editor's note—Council supports the establishment of an appropriately located retirement facility/residential care facility in the Blackall Range local plan area.
- (m) Development protects and emphasises and does not intrude upon significant coastal and hinterland views and vistas and the rural and natural landscape values of scenic routes.
- (n) The significant environmental values and scenic quality of Linda Garrett Environmental Park, Mapleton Falls National Park, Kondalilla National Park and the Lake Baroon catchment area are protected and enhanced.

#### 7.2.3.4 Assessment criteria Performance outcomes and acceptable outcomes

buildings, landscaping with and retain village identity character of and, in partice	provides for structures and that is consistent ns the discrete rural y and architectural the Blackall Range	AO1.1	Development provides for the retention and/or adaptive reuse, with limited modification, of buildings which have cultural heritage, character or townscape significance. # 7.2.4 Bli Bli local plan code

## 7.2.4.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Bli Bli local plan area as shown on Map ZM19 contained within **Schedule 2** (**Mapping**); and
  - (b) identified as requiring assessment against the Bli Bli local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (3) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.4.3 (Purpose and overall outcomes);
  - (b) Table 7.2.4.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.4A (Bli Bli local plan elements).

# 7.2.4.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Bli Bli local plan code.

The Bli Bli local plan area is situated between the urban areas of Nambour, Maroochydore and Pacific Paradise in the central part of the Sunshine Coast. The Bli Bli local plan area includes the Bli Bli Village Centre and residential areas, the Maroochy River and Kirra Road rural residential area and the Parklakes urban residential community. The local plan area has a land area of approximately 740 hectares.

The Bli Bli local plan area is located within a rural setting with the significant environmental areas of the Maroochy River, Maroochy Wetlands Sanctuary, Petrie Creek and Parklands State Forest key elements within this landscape setting.

The topography of the local plan area is varied ranging from elevated and steeper slopes, providing views over the river valleys to the surrounding countryside, views to the north Buderim and Kunda Park escarpments and over the lowlands of the Maroochy River floodplain.

The Maroochy River rural residential area located in the northern part of the local plan area is characterised by dwelling houses on large sloping rural lots interspersed with remnant vegetation and some rural activities. The emerging Parklakes community comprises predominantly dwelling houses on urban size lots with a neighbourhood shopping and community precinct located at the eastern end of the area, with sport, recreational and environmental areas located in the north. An extension to the Parklakes community is planned to the north west of the existing community and is intended to provide additional community facilities including a school, environmental areas and open space. The existing residential community of Bli Bli consists predominantly of dwelling houses on urban size lots with larger lot sizes occurring in sloping and steeper vegetated ridgeline areas.

The Bli Bli Village Centre, located on David Low Way, provides convenience shopping and a community focus for local residents. A smaller local business and community centre is to be established in Parklakes to service immediate residents. The church and hall located near the intersection of Willis and School Roads also provides a community focus area for local residents. Bli Bli is also supported by a number of small scale tourist attractions which exist within or adjoining the local plan area, including Sunshine Castle and GoWake Cable Park.

The existing remnant vegetation along the ridgelines and gullies and the adjoining wetland areas and waterways, including declared fish habitat areas, have significant environmental and scenic values and contribute to the amenity and character of the local plan area.

The Nambour-Bli Bli Road, Yandina-Bli Bli Road, David Low Way and Willis Road are major road links within the local plan area. Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

#### 7.2.4.3 Purpose and overall outcomes

- (1) The purpose of the Bli Bli local plan code is to provide locally relevant planning provisions for the assessment of development within the Bli Bli local plan area.
- (2) The purpose of the Bli Bli local plan code will be achieved through the following overall outcomes:-
  - (a) The Bli Bli local plan area remains an attractive residential area comprising a number of urban and rural residential neighbourhoods and a village centre surrounded by a mosaic of farming land and natural areas.
  - (b) Urban and rural residential development in the Bli Bli local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect and reinforce Bli Bli's village character and identity, provide for the efficient provision of infrastructure and services, avoid constrained land and environmentally significant areas and protect the character and productivity of surrounding rural land.
  - (c) Development in the local plan area is designed and sited to protect key landscape features contributing to the rural and natural setting and character of the Bli Bli local plan area including existing *vegetation*, particularly along forested ridgelines and gullies, and significant views to surrounding countryside and across the Maroochy River *floodplain*, and to reflect the physical characteristics and constraints of the land, including the protection of sensitive slopes.
  - (d) The Bli Bli Village Centre, fronting the David Low Way, functions as a local (full service) activity centre providing a range of convenience goods and services to the Bli Bli community and surrounding rural and rural residential areas.
  - (e) Development in the Bli Bli Village Centre provides a range of small-scale business and community activities which activate the street frontage and include residential development located above the ground storey level. Whilst the business functions of the Bli Bli Village Centre may expand and be enhanced, the centre remains compact, with any expansion limited to land included within the Local centre zone. Residents continue to rely upon Nambour or Maroochydore to fulfil their higher order business and industry needs.
  - (f) The Parklakes Local centre zone functions as a local (not full service) activity centre, providing a basic convenience level of business and community uses to service immediate residents. No new business centres are established within the Bli Bli local plan area.
  - (g) Development in the Low density residential zone maintains the primarily low density residential character of the Bli Bli local plan area.
  - (h) Development protects the Sunshine Castle as a significant landmark building and tourist attraction.
  - (i) Land to the north-west of Camp Flat Road is master planned and developed in a coordinated manner that sensitively responds to the flooding and environmental constraints over this area. Development in this area provides for a range of land uses including residential uses, community uses and open space.
  - (j) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.

#### 7.2.4.4 Assessment criteria Performance outcomes and acceptable outcomes

#### 

Performance Outcomes		Acceptable Outcomes	
Development in the Bli Bli Local Plan Area Generally (All Zo			es)
PO1	Development provides for buildings, structures and landscaping that are consistent with, and reflect the coastal urban character of, the local plan area and integrate with the natural landscape	AO1.1	Development provides for building design which incorporates a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in

Performa	ince Outcomes	Acceptable	Outcomes
- SHOIIII	and skyline <i>vegetation</i> in terms of scale,		texture and detailing.
	siting, form, composition and use of materials.	AO1.2	Development provides for buildings and structures which incorporate articulated, pitched, skillion or curved roof forms.
		AO1.3	Development uses understated colour schemes and low-reflective roofing and cladding materials.
		AO1.4	Development provides for existing mature trees to be retained and incorporated into the development design.
PO2	Development contributes to the establishment of attractive and coherent streetscapes and gateways to reflect and enhance the sense of arrival to, and character of, Bli Bli.	A02.1	Development adjacent to a primary streetscape treatment area or gateway/entry point identified on Figure 7.2.4A (Bli Bli local plan elements):- (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the coastal urban character of, Bli Bli, and emphasise corner locations; and (b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
PO3	Davelonment provides for the retention	AO2.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note— Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can be referenced from the Council's Infrastructure and Guideline Standards for each centre as required.
РОЗ	Development provides for the retention and enhancement of key landscape elements including significant views and vistas, existing character trees and areas of significant vegetation contributing to the setting, character and sense of place of Bli Bli.	AO3.1	Development protects and emphasises, and does not intrude upon, the important sight lines and views over the surrounding rural landscape, Maroochy River floodplain and north Buderim escarpment where identified on Figure 7.2.4A (Bli Bli local plan elements).
		AO3.2	Development provides for the retention and enhancement of existing mature trees, vegetation on ridgelines and along waterways and gullies and other character vegetation identified on Figure 7.2.4A (Bli Bli local plan elements).  Note—in some circumstances the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable
PO4	Development is sited and designed in a	AO4	Outcome.  No acceptable outcome provided.
FU4	manner which is responsive to local topography, flooding and drainage	AU4	Editor's Note—Section 8.2.10 (Landslide

renonna	nce Outcomes	Acceptable	Outcomes
	constraints.	·	hazard and steep land overlay code) sets out requirements for development on steep land.  Editor's Note—Section 8.2.7 (Flood hazard
			<b>overlay code)</b> sets out requirements in relation to flood prone land.
PO5	Development for a food and drink outlet does not:-  (a) provide for the establishment of a high volume convenience restaurant, or  (b) incorporate a drive-through facility.	AO5	No acceptable outcome provided.
PO6	Development in the Local centre zone	AO6	No acceptable outcome provided.
	fronting David Low Way provides for small scale uses and mixed uses that:-  (a) support the role and function of the Bli Bli Village Centre as a local (full service) activity centre; and  (b) provide a range of convenience goods and services to local residents.	400	No acceptable outcome provided.
PO7	Development in the Local centre zone fronting David Low Way:-  (a) provides an attractive interface to David Low Way and contributes to the creation of an attractive village centre and gateway to Bli Bli, through the provision of:-  (i) vibrant and active streets and public spaces;  (ii) continuous weather protection for pedestrians;  (iii) streetscape improvements; and  (iv) safe pedestrian and traffic zones;  (b) is designed and sited to emphasise the area's riverside location, with visual and pedestrian/cycle links to the waterfront enhanced; and  (c) provides integrated and functional parking and access arrangements that do not dominate the street.	AO7.2	Development in the Local centre zone fronting David Low Way:-  (a) provides for new or extended large floor plate retail uses to be sleeved and located behind smaller scale, fine grain built form elements;  (b) provides primary active street frontages built to boundary where identified on Figure 7.2.4A (Bli Bli local plan elements);  (c) provides for any residential uses to be effectively integrated with business uses;  (d) has building openings overlooking the street;  (e) provides all weather protection in the form of continuous cantilevered awnings and/or light verandah structures with non-load bearing posts over footpath areas in conjunction with mature or semimature shade trees planted along the site frontage adjacent to the kerbside;  (f) ensures that signage is integrated with buildings;  (g) includes provision of landscaping, shaded seating and consistent and simple paving materials on footpaths; and  (h) provides for on-site car parking at the rear or to one side of the development.  Development protects and emphasises views and sight lines from the Bli Bli Village Centre to the Maroochy River where identified on Figure 7.2.4A (Bli Bli local plan elements).  Development provides for safe and efficient pedestrian and cycle connections between the Bli Bli Village Centre and the

Dorformo	unas Outsamas	Acceptable	Outcomes
renoma	ince Outcomes	Acceptable	Outcomes Maroochy River.
PO8	Development in the Local centre zone fronting Parklakes Drive provides for small scale uses that:-  (a) support the role and function of the	AO8	No acceptable outcome provided.
	centre as a local (not full service) activity centre providing basic convenience goods and services to immediate residents; and		
	(b) does not detract from the role and function of Bli Bli Village Centre as the local (full service) activity centre for the local area.		
	ment in the Low Density Residential Zon		
PO9	Development for reconfiguring a lot in the Low density residential zone provides for comparatively large lot sizes that are responsive to the local topography and maintain the low density character and amenity of neighbourhoods.	AO9	Development in the Low density residential zone provides for conventional residential lots which are a minimum of 700m <sup>2</sup> in area.
Developr	ment in the Tourism Zone (Sunshine Cas	itle)	
PO10	Development in the Tourism zone recognises the Sunshine Castle as a significant landmark site and tourist attraction.	AO10	No acceptable outcome provided.
Develop	ment in the Emerging Community Zone (	Land to the	North West of Camp Flat Road)
PO11	Development in the Emerging	AO11	No acceptable outcome provided.
	community zone is master planned to ensure that development occurs in a logical and coordinated manner.		
PO12	Development in the Emerging community zone provides for:-  (a) a variety of residential lot sizes and housing options including dwelling houses, dual occupancies, and retirement facilities; and  (b) local community/sporting facilities in the northern corner of the area adjacent to Yandina-Bli Bli Road.	AO12	No acceptable outcome provided.
	Note—should the northern corner of the Emerging community zone not be required for community purposes, as determined by the <i>Council</i> , this part of the zone may be developed for low density residential purposes.		
PO13	Development in the Emerging community zone provides for:-  (a) adequate flood immunity whilst avoiding any adverse off-site flooding impacts;  (b) the protection and buffering of ecologically important areas and drainage areas, including the greenspace areas identified on Figure 7.2.4A (Bli Bli local plan elements);	AO13	No acceptable outcome provided.
	(c) appropriate buffering and separation to nearby agricultural land and rural uses; (d) an internal link road (district collector street) that connects Camp Flat Road to Yandina-Bli Bli Road; (e) a local road connection between		

Performance Outcomes	Acceptable Outcomes
East View Court and the internal link road; and  (f) pedestrian and cycle links between residential neighbourhoods and planned community uses to the north.	
Note—indicative road linkages and pedestrian/cycle links are identified on Figure 7.2.4A (Bli Bli local plan elements).

### 7.2.5 Buderim local plan code

#### 7.2.5.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Buderim local plan area as shown on Map ZM32 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Buderim local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.5.3 (Purpose and overall outcomes);
  - (b) Table 7.2.5.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.5A (Buderim local plan elements).

# 7.2.5.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Buderim local plan code.

The Buderim local plan area is located centrally in the eastern part of the Sunshine Coast and has a land area of approximately 2,775 hectares. The local plan area includes the large number of neighbourhoods which are collectively known as Buderim as well as the neighbourhoods of Mountain Creek and Glenfields.

The local plan area includes the Buderim Plateau and surrounding escarpment and foothill areas. Buderim plateau is of volcanic origin and comprises planated basalt lava flows underlain by weak beds of tertiary sediments and deeply weathered older rocks.

Whilst much of the plateau and the northern and eastern escarpment areas have been developed, the west and south-western escarpment areas are far less urbanised.

The undeveloped parts of the Buderim Plateau are a defining feature of Buderim's 'green' appearance and make a significant contribution to the character of Buderim as well as other surrounding local plan areas by providing a vegetated backdrop within the coastal urban setting.

The plateau itself is located approximately 150 metres above sea level and this elevated position provides a temperate local climate and provides many areas with panoramic views to the coast and hinterland.

Buderim has a number of environmental reserves including Buderim Forest Park, the Eric Joseph Foote War Memorial Sanctuary, Eggmolesse Environmental Reserve and the Rocky Creek Conservation Reserve. Martins Creek, Rocky Creek and Mountain Creek are the major waterways in the local plan area. A mosaic of ancient rainforest and other remnant vegetation remains within waterway corridors, open space reserves and on some of the undeveloped and steeper parts of the escarpment. These areas provide contrast and relief to the urban landscape.

Buderim Town Centre, located in the south-western part of the local plan area, is the commercial and community hub of Buderim Mountain and the major centre for the local plan area. Based on a traditional main-street layout it displays a fine grain built form and urban village character with Poinciana lined streetscapes and vibrant and active uses. The local community has a strong affinity with this town centre and the diversity and richness of the retail, business and community services that it offers.

Smaller convenience centres are located at North Buderim, Mountain Creek and in several other locations in the local plan area.

The local plan area accommodates a number of important community facilities that have sub-regional significance. These include the Sunshine Coast Private Hospital, the Sunshine Coast Institute of TAFE and the major refuse recovery facility for the central Sunshine Coast.

The local plan area also includes a large number of other community and recreation facilities including the Buderim War Memorial Hall, eight primary and secondary schools, the Ballinger Road Sports Centre, Headland Park Golf Course and the Buderim Cricket and Croquet Clubs.

Buderim has a rich heritage with a number of buildings, places and streets displaying elements of important cultural or character significance. Those of particular note include Pioneer Cottage, the avenue of fig trees in Wirreanda Park, properties in the vicinity of Gloucester Road and remaining parts of the Buderim to Palmwoods Tramway.

Burnett Street, King Street, Mooloolaba Road, Crosby Hill Road, Ballinger Road, Dixon Road and Jones Road are the major roads traversing the local plan area. Urban zoned land within the local plan area is connected or has the ability to be connected to reticulated water and sewerage.

Despite the geographically large size of the Buderim local plan area and the significant number of neighbourhoods that it incorporates, residents are attracted to its village character and atmosphere. The Buderim community enjoys a quiet, relaxed lifestyle where a generally low intensity urban landscape and interweaving of large open spaces and natural landscape elements are key features.

#### 7.2.5.3 Purpose and overall outcomes

- (1) The purpose of the Buderim local plan code is to provide locally relevant planning provisions for the assessment of development within the Buderim local plan area.
- (2) The purpose of the Buderim local plan code will be achieved through the following overall outcomes:-
  - (a) The Buderim local plan area is a mature coastal urban area comprising a number of residential neighbourhoods set within a mosaic of remnant *vegetation* and open space parks and reserves.
  - (b) Urban and rural residential development within the Buderim local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect the undeveloped parts of the Buderim escarpment, avoid land otherwise substantially constrained to development and provide for the efficient provision of *infrastructure* and services.
  - (c) Development is low rise and of a scale and intensity that is generally less than other parts of the central Sunshine Coast.
  - (d) The local plan area, and in particular the Buderim Town Centre and adjoining land, has a village character and atmosphere.
  - (e) The Buderim Town Centre is retained as a district activity centre offering a wide range of retail, commercial and community activities to meet the needs of the Buderim community.
  - (f) Development within the District centre zone and adjoining land included in the Community facilities zone continues the traditional main street character of Burnett Street. No new large floor plate retail uses are intended to be established so as to protect the fine grain built form and streetscape character of Burnett Street.
  - (g) Mountain Creek Local Centre is a local (full service) activity centre and provides a wide range of convenience based retail, commercial and community uses to meet the needs of the Mountain Creek neighbourhood catchment which is further removed from Buderim Town Centre compared with other local centres within the local plan area.
  - (h) North Buderim Local Centre and other smaller local centres are retained as local (not full service) activity centres providing for the basic convenience needs of residents.
  - (i) Whilst opportunities exist for the expansion and enhancement of business functions within the different centres in the local plan area, residents continue to rely upon Maroochydore, Nambour, Kawana Waters or Sippy Downs to fulfil their higher order business and industry needs.
  - (j) Development within the Low density residential zone and Medium density residential zone occurs in an integrated manner and creates walkable neighbourhoods with good pedestrian and cycle connectivity to local centres, community facilities and open space.

- (k) Lot sizes for *dwelling houses* are large compared with other parts of the coastal urban area and allow for houses to be set within generous landscaped grounds so as to retain the prevailing low density character and amenity of the local plan area.
- (I) Development on lots fronting the southern end of Gloucester Road preserves the established large lot size and *frontage setbacks* that are a characteristic of this area.
- (m) Development in the Medium density residential zone provides for a mix of residential housing types with *dwellings* that are generally of a domestic scale or are provided in small groups so as to reduce the perceived scale and mass of development.
- (n) Development of the greenfield site located in the northern part of the local plan area and included in the Emerging community zone provides for an integrated residential development which appropriately addresses the constraints of the land and in particular minimises the visual impact of development on the prominent northern Buderim escarpment. A development solution involving small precincts of development set within a rehabilitated landscape setting is the preferred outcome.
- (o) The significant environmental values and scenic quality of Buderim Forest Park, Eric Joseph Foote War Memorial Sanctuary and the Rocky Creek Conservation Reserve and other local environmental parks and reserves are protected and enhanced.
- (p) Views from *public open space* to important landscape features such as beaches and the Glass House Mountains are retained.
- (q) Development provides for the protection of remnants of the Buderim to Palmwoods Tramway and the extension of public pedestrian access along the former tramway route.

#### 7.2.5.4 Assessment criteria Performance outcomes and acceptable outcomes

Performa	Performance Outcomes Acceptable Outcomes				
Developi	ment in the Buderim Local Plan Area Ge				
PO1	Development provides for the retention and enhancement of individual buildings, sites, places and historical landmarks that contribute to the character and identity of Buderim as a place with close associations with the past.	A01.1	Development provides for the retention and/or adaptive reuse, with limited modification, of buildings which have cultural heritage significance.  Editor's Note—Section 8.2.9 (Heritage and character areas overlay code) sets out requirements for development on heritage places and in character areas.		
		AO1.2	Development provides for the retention of historical landmarks, memorials and monuments.		
PO2	Development provides for the retention of remnants of the Buderim to Palmwoods Tramway and the extension of public pedestrian access along the former tramway route via dedication of land or public easement.	AO2	No acceptable outcome provided.		
PO3	Development provides for buildings, structures and landscaping that are consistent with and reflect the village character of Buderim and integrate with the natural landscape and skyline vegetation in terms of scale, siting, form, composition and use of materials.	AO3.1	Development provides for building design which incorporates a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing.		
	iom, composition and use of materials.	AO3.2	Development provides for buildings and structures which incorporate roof forms that are consistent with the traditional Queensland style including gable, hip, pitched or multiple gable roof forms.		

			(b) incorporates building design such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO4.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO5	Development provides for the retention and enhancement of key landscape elements including significant views and vistas, existing character trees and areas of significant vegetation contributing to the setting, character	AO5.1	Development protects and emphasises, and does not intrude upon, the important sight lines to coastal and rural hinterland landscapes where identified on Figure 7.2.5A (Buderim local plan elements).
	and sense of place of Buderim.	AO5.2	Development provides for the retention and enhancement of existing mature trees and vegetation contributing to the vegetated setting and backdrop of the local plan area including:  (a) vegetation on ridgelines and along watercourses and gullies;  (b) the hoop pines behind Burnett Street;  (c) the camphor laurel trees along Main Street;  (d) Poinciana trees along King Street/Main Street/ Burnett Street;  (e) the fig trees in Wirreanda Park; and (f) other character vegetation identified on Figure 7.2.5A (Buderim local plan elements).

PO13	Development maintains the integrity of the large, established residential properties adjacent to the southern part of Gloucester Road that are characterised by buildings set back from street boundaries and surrounded by generous landscaped grounds.	AO13	Development in the Low density residential zone in Precinct BUD LPP-1 (Gloucester Road South) where identified on Local Plan Map LPM32:-  (a) does not provide for the creation of any additional lots;  (b) provides for all buildings and structures to be set back at least 10 metres from Gloucester Road; and  (c) blends development into the landscape so as to retain the integrity of the open streetscape in this part of Buderim.
	ment in the Emerging Community Zone (		
PO14	Development in the Emerging community zone on Lot 46 C31729, situated at Endota Street, Buderim:-  (a) provides for an integrated development outcome over the whole of the site;  (b) minimises the visual impact of development on the Buderim escarpment;  (c) preserves native vegetation areas and escarpment areas which have previously been subject to vegetation clearing;  (e) includes native vegetation areas and escarpment areas in public open space or another appropriate form of protective tenure;  (f) provides for low intensity development only at a maximum density of 4 equivalent dwellings per hectare; and  (g) provides for development to be clustered or otherwise configured in a manner that minimises the need for vegetation clearing or landform modification and blends development into the landscape such that there is only minimal exposure of built form elements when the site is viewed from other local plan areas.	AO14	No acceptable outcome provided.

## Figure 7.2.5A Buderim local plan elements

<Figure to be inserted>

### 7.2.6 Caloundra local plan code

## 7.2.6.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Caloundra local plan area as shown on Map ZM45 contained within **Schedule 2** (Mapping); and
  - (b) identified as requiring assessment against the Caloundra local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.6.3 (Purpose and overall outcomes);
  - (b) Table 7.2.6.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.6A (Caloundra local plan elements).

# 7.2.6.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Caloundra local plan code.

The Caloundra local plan area is located in the south-eastern part of the Sunshine Coast and has a land area of approximately 1,251 hectares.

The local plan area includes the Caloundra Town Centre and the beachside neighbourhoods of Caloundra, Kings Beach, Shelly Beach, Moffat Beach, Dicky Beach, Battery Hill and part of Currimundi.

The local plan area is characterised by its beachside setting and frontage to the Pumicestone Passage as well as the spectacular coastal and hinterland views that are available from headlands and other elevated parts of the local plan area.

The northern part of the local plan area is located on a dune and sand plain system. The rocky headlands of Moffat Beach and Caloundra Headland are the dominant landscape features in the central part of the local plan area. The western part of the local plan area is characterised by relatively flat terrain that rises up to the west, north and east.

Currimundi Lake, Bunbubah Creek, Coondibah Lagoon, Pumicestone Creek and Tooway Creek are the main waterways traversing the local plan area and are important environmental, recreation and local character elements.

Whilst the natural landscape of the local plan area has been substantially altered over time to accommodate urban development, pockets of remnant vegetation remain in the foreshore and creekside open space system including on the land which accommodates the Currimundi Conservation Centre and George Watson Park at Moffat Head. Ben Bennett Botanical Park is a noteworthy conservation reserve.

The Caloundra Town Centre, located in the southern part of the local plan area, is a major regional activity centre and the dominant centre for the southern part of the Sunshine Coast. The Caloundra Town Centre provides a comprehensive range of centre based activities and is a major employment destination. It incorporates the traditional main street of Bulcock Street and adjoining areas to the north as well as the area north and south of Bowman Road. Smaller convenience centres are located at Currimundi (on Buderim Street), Moffat Beach and Dicky Beach.

The Caloundra West Industrial Estate, located in the western part of the local plan area, is a major industrial estate accommodating a range of predominantly service and transport related industries. Caloundra Aerodrome located immediately opposite the Caloundra West Industrial Estate, provides general aviation services and related business and industrial activities. The Moffat Beach Business Park is a smaller industrial area located centrally within the local plan area that caters for low impact industrial and compatible business activities.

The local plan area accommodates a full range of residential settings from traditional low density neighbourhoods comprised predominantly of dwelling houses to high density residential and tourist accommodation areas comprised of multi storey apartment buildings. Kings Beach and Bulcock Beach offer the most intensive residential accommodation and are a major focus for visitor accommodation. At Shelly Beach and Moffat Beach small pockets of beachside character housing remain. The traditional beachside housing areas of Shelly Beach and Moffat Beach are characterised by larger lots, despite the fact that some smaller lots exist within the areas a result of historical subdivision decisions that are not now supported. This planning scheme sets out how the character of this area is determined by its future and not how the past determines its future.

The local plan area also accommodates a large range of civic, community, sport and recreation activities including the Caloundra Courthouse, Caloundra Hospital, Caloundra Private Hospital, emergency services, the Events Centre, Caloundra office of the Sunshine Coast Council, Sunshine Coast Institute of TAFE, nine public and private schools, Caloundra Library, Caloundra Community Centre, Central Park, Roy Henzell Park, Russell Barker Memorial Park, Grahame Stewart Park, Caloundra Golf Club, Currimundi Recreation Camp and the Caloundra Cemetery.

Vehicle access is predominantly via Caloundra Road from the west and the Nicklin Way from the north. A new northern access road is proposed from Nicklin Way via Queen Street and Ulm Street into the Caloundra Town Centre. Other major roads in the local plan area include Buderim Street, Beerburrum Street, Buccleugh Street, Tooway Parade, George Street, Regent Street and Bowman Road.

The Caloundra Bus interchange in Cooma Terrace currently caters for local and long distance bus services and links to the North Coast Rail Line. The proposed Dedicated Public Transport Corridor (CAMCOS) runs along the eastern side of the Caloundra Aerodrome with a proposed transit station planned for the area south of Caloundra Road.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

# 7.2.6.3 Purpose and overall outcomes

- (1) The purpose of the Caloundra local plan code is to provide locally relevant planning provisions for the assessment of development within the Caloundra local plan area.
- (2) The purpose of the Caloundra local plan code will be achieved through the following overall outcomes:-
  - (a) The Caloundra local plan area is a mature and complex coastal urban area incorporating a diverse range of uses and activities that support the consolidation and development of Caloundra Town Centre and the adjoining Kings Beach and Bulcock Beach tourism focus areas, whilst maintaining the predominantly low density character of the traditional beachside suburbs and neighbourhoods of Moffat Beach, Dicky Beach, Currimundi, Shelly Beach and Battery Hill.
  - (b) Urban development within the Caloundra local plan area is limited to land within the urban growth management boundary so as to protect the integrity of foreshore and creekside environmental reserves.
  - (c) The Caloundra Town Centre continues to be developed as a major regional activity centre and the dominant centre for the southern part of the Sunshine Coast, providing a full range of town centre activities to meet the needs of the Caloundra community and communities in the southern part of the Sunshine Coast.
  - (d) Opportunities for transit oriented development are provided within the town centre and in designated areas adjacent to the CoastConnect Priority Public Transport Corridor and Dedicated Public Transport Corridor (CAMCOS) in accordance with allocated zonings.
  - (e) Development in the Major centre zone contributes to the economic vitality of the Caloundra Town Centre by providing for a wide range and depth of business uses.
  - (f) Development in the Major centre zone in Precinct CAL LPP-1 (Bulcock Street) provides for this part of the Caloundra Town Centre to be retained as the traditional 'main street' retail and entertainment area, accommodating a range of business uses with an emphasis on retail business uses and entertainment/catering business uses, together with multi-unit residential uses located above street level.

- (g) Development in Precincts CAL LPP-5 (Events Centre Hospitality Area), CAL LPP-6 (Bulcock Street Hospitality Area), CAL LPP-7 (Bulcock Beach Hospitality Area) and CAL LPP-8 (Kings Beach Hospitality Area) provides a range of business uses and entertainment activities including food and drink outlets, function facilities, bars and hotels that may operate after hours and include live music which creates a vibrant atmosphere. Nightclub entertainment facilities are only established in the Major centre zone in Precinct CAL LPP-6 (Bulcock Street Hospitality Area).
- (h) The traditional main street character of Bulcock Street is maintained. New or extended large floor plate retail uses are sleeved and located behind smaller scale, fine grain shopfronts that address the street and reinforce Bulcock Street's established townscape character. Through block pedestrian links are provided to allow convenient pedestrian access with development addressing and activating pedestrian links and vehicular laneways, wherever practicable. Development in Precinct CAL LPP-1 (Bulcock Street) is integrated with the adjoining community uses in Felicity Park and Omrah Avenue and the mixed use tourist development at nearby Bulcock Beach.
- (i) Development in the Major centre zone in Precinct CAL LPP-2 (Ormuz Avenue) supports the Bulcock Street retail and entertainment area by providing a range of complementary business uses and multi-unit residential uses. Development in this precinct is integrated with and includes strong pedestrian connections to Bulcock Street and the adjoining community uses in Omrah Avenue. Key Site 1 (Kronks Motel) is redeveloped as a signature *mixed use development* that incorporates high quality buildings, active street *frontages* and streetscaping.
- (j) Development in the Major centre zone in Precinct CAL LPP-3 (Bowman Road/Oval Avenue) accommodates a range of large floor plate business uses and community uses that cannot practically be accommodated in other parts of the Caloundra Town Centre together with some fine grain business uses that support, or are complementary to, the adjoining government and medical hub. These small scale business uses predominantly occur in that part of Precinct CAL LPP-3 between West Terrace and Second Avenue through the redevelopment of this area.
- (k) Key Site 2 (Stockland Shopping Centre) is consolidated and further developed in accordance with an approved plan of development to create a more integrated and less internalised retail and entertainment based development which addresses public streets, is permeable and supports pedestrian connectivity to other parts of the Caloundra Town Centre.
- (I) Key Site 3 (Caloundra RSL Club) is consolidated and further developed as a major entertainment venue which supports pedestrian connectivity to surrounding development and provides an attractive street front address to Oval Avenue.
- (m) Development in the Specialised centre zone provides for the progressive refurbishment of sites adjoining Caloundra Road with high quality buildings, landscaping and integrated signage that improves the visual appearance of Caloundra Road as a landscaped boulevard and major gateway to Caloundra Town Centre.
- (n) The existing local centres at Currimundi and Moffat Beach are retained as local (not full service) activity centres providing for the basic convenience needs of residents of and visitors to the local area.
- (o) Development within the Local centre zone at Moffat Beach provides active street frontages, streetscape improvements and other urban elements that create vibrant streets and reflect the prevailing beachside character of the area.
- (p) Development in the Medium impact industry zone provides for the continued development and refurbishment of the Caloundra West Industrial Estate as an area accommodating a broad range of industry uses, while avoiding significant conflicts with nearby residential areas.
- (q) Development in the Low impact Industry zone provides for the refurbishment and further development of the Moffat Beach Business Park, incorporating a range of *low impact industry* uses and complementary business uses in an attractive mixed use environment. The amenity of surrounding residential areas is maintained.
- (r) Residential areas are characterised by high quality residential buildings that reflect a beachside setting. Development has a form, scale and level of intensity that minimises its

- physical and visual impact. In Kings Beach in particular, development responds to its waterfront, intermediate or ridgeline location through variations in *building height* and sensitive residential tower design.
- (s) Development in the Tourist accommodation zone at Bulcock Beach, Kings Beach, Dicky Beach, Currimundi and Golden Beach (Oaks Oasis Resort site) reinforces the role of Caloundra as a major coastal tourism destination and visitor accommodation area.
- (t) Key Site 4 (Kings Beach Tavern), Key Site 5 (Kings Beach Shops) and Key Site 6 (Golden Beach Oaks Oasis Resort), are developed as signature mixed used developments which:-
  - incorporate high density, predominantly visitor accommodation in comfortable and attractive living environments together with tourism, convenience, leisure and recreation related uses;
  - (ii) are integrated with and contribute to the vibrancy of adjoining foreshore or parkland areas:
  - (iii) create active street *frontages* that encourage pedestrian movement and interaction between private development and adjacent public spaces; and
  - (iv) display an outstanding level of architectural and landscape design befitting their location and level of importance within the local plan area.
- (u) Development in the Low density residential zone and Medium density residential zone occurs in an integrated manner and creates walkable neighbourhoods with good pedestrian and cycle connectivity to activity centres, community facilities, recreation areas and other key destinations.
- (v) Development in Precinct CAL LPP-4 (Moffat Beach/Shelly Beach) is compatible with, and sympathetic to, the preferred character of the area, which is characterised by larger lots. To maintain the low density character and amenity of this area, any residential lot is to be a minimum of 700m<sup>2</sup> in area.
- (w) Development in the Medium density residential zone provides for a mix of residential housing types with *dwellings* that are generally of a domestic scale or are provided in small groups so as to reduce the perceived scale and mass of development.
- (x) The government and medical hub established in the vicinity of West Terrace and Bowman Road adjacent to the Caloundra Town Centre, and comprising the Caloundra Hospital, Caloundra Courthouse, Caloundra Police Station and other *emergency services*, is consolidated. The government and medical hub further reinforces this part of Caloundra as the primary focus for the provision of major State government facilities.
- (y) Precinct CAL LPP-9 (Omrah Avenue) includes a number of dwelling houses on lots immediately to the south of Bicentennial Park. Development in this precinct is limited to dwelling houses on existing lots in order to ensure the land is preserved for a central park and complementary community facilities to support civic and cultural functions in the Caloundra Town Centre.
- (z) Development within Precinct CAL LPP-10 (Caloundra Aerodrome) provides for the establishment of a range of uses and activities that are compatible with the primary function of the aerodrome including aviation related business and industrial uses. The scale of development and operations recognises the location of the aerodrome within the urban fabric and the need to take into consideration impacts on nearby existing or proposed residential areas. Development at the Caloundra Aerodrome does not compromise the Sunshine Coast Activity Centres Network.
- (aa) The significant environmental values of Ben Bennett Botanical Park, Currimundi Recreation Reserve and other local environmental parks and reserves are protected and enhanced.
- (bb) Significant views to important landscape features including beaches and *waterways*, headlands and the Glass House Mountains are protected.
- (cc) Views to and from the heritage protected Caloundra lighthouses, located on the corner of Canberra Terrace and Arthur Street, are retained.
- (dd) Development does not compromise the provision and operation of the Dedicated Public Transport Corridor (CAMCOS) and the Caloundra Transit Station, the CoastConnect Priority

# 7.2.6.4 Assessment criteria Performance outcomes and acceptable outcomes

	ce Outcomes		Outcomes
Developme	ent in the Caloundra Local Plan Area Ge		
PO1	Development provides for buildings, structures and landscaping that are consistent with, and reflect the beachside character and setting of, the local plan area.	AO1.1	Development for residential, business or community activity provides for building design which incorporates the following features:-  (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing;  (b) articulated, pitched, skillion or curved roof forms;  (c) open or transparent balustrades;  (d) louvres; and  (e) landscaping integrated into the building design.
		AO1.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.
PO2	Development contributes to the establishment of an attractive and coherent streetscape character and gateways to enhance the sense of arrival to Caloundra Town Centre and other parts of the local plan area, including boulevard treatments along Caloundra and Bowman Roads.	AO2.1	Development adjacent to an identified primary streetscape treatment area, boulevard treatment area or gateway/entry point where identified on Figure 7.2.6A (Caloundra local plan elements):-  (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the coastal urban character of, the local plan area, and emphasise corner locations; and  (b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO2.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO3	Development provides for the retention and enhancement of key landscape elements including significant views	AO3.1	Development protects, emphasises and does not intrude upon the important sightlines and views to the Glass House

Porforman	co Outcomos	Accontable	Outcomes
Performan	and vistas, existing character trees and areas of significant vegetation contributing to the setting, character and sense of place of the local plan area.	Acceptable	Mountains, Pumicestone Passage, and Point Cartwright where identified on Figure 7.2.6A (Caloundra local plan elements).
		AO3.2	Development within the Lighthouse View Protection Area identified on Figure 7.2.6A (Caloundra local plan elements) does not interrupt:- (a) views of the lighthouses from Kings Beach Park; and (b) views from the northern portion of the park at the corner of Canberra Terrace and Arthur Street (Lot 2 RP13520) to the coastline and ocean in the direction of the Kings Beach Bathing Pavilion.
		AO3.3	Development provides for the retention of character <i>vegetation</i> where identified on Figure 7.2.6A (Caloundra local plan elements).  Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO4	Development on sites fronting Otranto Avenue, Minchinton Street and Knox Avenue south of Bulcock Street provides for buildings to be set back from street frontages so as to maintain uninterrupted sight lines to the Pumicestone Passage and Bribie Island.	AO4	Development on sites fronting Otranto Avenue, Minchinton Street and Knox Avenue south of Bulcock Street provides for:-  (a) that part of any building or structure up to two storeys in height to be setback at least 4 metres from the street property boundary; and  (b) that part of any building or structure exceeding two storeys in height to be setback at least 6 metres from the street property boundary.
PO5	Development improves local connectivity by providing pedestrian and cycle connections to and between key destinations including linkages:- (a) between the different precincts of the Caloundra Town Centre and in particular between Stockland Shopping Centre in Precinct CAL LPP-3 (Bowman Road/Oval Avenue) and Precinct CAL LPP-1 (Bulcock Street); (b) between the different parts of Precinct CAL LPP-1 (Bulcock Street); and (c) along the Pumicestone Passage frontage of the Tripcony Hibiscus Caravan Park and the northern side of Maloja Avenue to complete the coastal path.	AO5	No acceptable outcome provided.
PO6	Development provides for through block pedestrian linkages which:-  (a) are located to reflect the desire lines of pedestrian movement between major points of attraction and public spaces;  (b) provides a safe alternative to the	AO6	Development for a large floor plate use in the Major centre zone or Tourist accommodation zone, or on land otherwise identified as accommodating a through block pedestrian link on Figure 7.2.6A (Caloundra local plan elements), provides visible, safe,

# Figure 7.2.6A Caloundra local plan elements

Figure 7.2.6B Kings Beach Tavern preferred design treatment

# 7.2.7 Caloundra West local plan code

# 7.2.7.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Caloundra West local plan area as shown on Map ZM44 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Caloundra West local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.7.3 (Purpose and overall outcomes);
  - (b) Table 7.2.7.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.7A (Caloundra West local plan elements).

# 7.2.7.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Caloundra West local plan code.

The Caloundra West local plan area is located in the south-eastern part of the Sunshine Coast and has a land area of approximately 2,295 hectares.

The local plan area includes the established residential neighbourhoods of Aroona, Little Mountain and part of Currimundi as well as emerging neighbourhoods at Bellvista and Meridan Plains.

The local plan area has a variable topography with the north-eastern part located in the coastal plain, the north-western part located on the Mooloolah River flood plain and the central and southern parts dominated by Little Mountain and its foothills.

The Mooloolah River, Currimundi Creek and the northern branch of Lamerough Creek are the main waterways traversing the local plan area and are important environmental, recreation and local character elements.

Whilst the natural landscape has been substantially altered over time to accommodate urban development, a broad mosaic of vegetation still remains in parts of the local plan area. In particular, the steeper hillside areas in the vicinity of Sugarbag Road and protected areas adjacent to Caloundra Road and the Dedicated Public Transport Corridor (CAMCOS), including the Caloundra Conservation Park, Meridan Plains Conservation Park, Jill Chamberlain Conservation Reserve and Sharyn Bonney Conservation Reserve retain areas of dense native vegetation contributing to the character and amenity of the local plan area.

About half of the local plan area is presently developed for housing with a number of residential estates currently under development or in the preliminary planning process. The predominant housing form in the local plan area is dwelling houses on conventional sized urban lots although some areas of small lot housing, multi unit development and several retirement villages are also present in the local plan area.

The Currimundi District Activity Centre, located in the north-eastern part of the local plan area, comprises the Currimundi Market Place located on the corner of Nicklin Way and Bellara Drive and the adjacent strip retail development located on either side of Nicklin Way. Several small local centres comprising of one or a small group of shops are interspersed throughout the local plan area.

The Sunshine Coast Industrial Park, located in the south-western part of the local plan area is a regionally significant industry and enterprise area that is progressively being developed.

The local plan area also accommodates a range of community activities and sport and recreation activities including the Corbould Park Racecourse, the Meridan Plains Sports Fields, Meridan State College, Talara State Primary School and Unity College.

Caloundra Road and Corbould Way are the principal transport routes providing a direct link from the Bruce Highway into Caloundra Town Centre and to Kawana. Caloundra Road is a major gateway to Caloundra from the west, providing a dramatic sense of arrival at Little Mountain with uninterrupted views to the Pumicestone Passage, islands and the ocean.

Several proposed transport corridors traverse the local plan area, including the Dedicated Public Transport Corridor (CAMCOS) (linking the North Coast Rail Line at Beerwah to Maroochydore) and the southern extension of the Multi Modal Transport Corridor (linking Caloundra South with the Sunshine Motorway).

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

#### 7.2.7.3 Purpose and overall outcomes

- (1) The purpose of the Caloundra West local plan code is to provide locally relevant planning provisions for the assessment of development within the Caloundra West local plan area.
- (2) The purpose of the Caloundra West local plan code will be achieved through the following overall outcomes:-
  - (a) The Caloundra West local plan area is a mature coastal urban area comprised of a number of interconnected residential communities, a major industrial and enterprise employment area and significant community and sport and recreation facilities.
  - (b) Urban and rural residential development in the Caloundra West local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect environmental areas, avoid constrained land and provide for the efficient provision of infrastructure and services.
  - (c) Opportunities for transit oriented development are provided in designated areas adjacent to the CoastConnect Priority Public Transport Corridor and the Dedicated Public Transport Corridor (CAMCOS), particularly within the Medium density residential zone and the Emerging community zone surrounding the proposed Aroona transit station.
  - (d) The sense of arrival to Caloundra from the west and the landscape and visual amenity of Caloundra Road is protected and reinforced by retaining and supplementing bushland and providing landscape buffers in corridors adjacent to Caloundra Road to effectively screen development, and maintaining the wide open vista over Moreton Bay available from the crest of Little Mountain.
  - (e) The Currimundi District Activity Centre is retained as a district level activity centre offering a wide range of business and community activities servicing the needs of residents in the northern part of the local plan area and nearby neighbourhoods in the adjacent Caloundra local plan area and Kawana Waters local plan area.
  - (f) Development in the District centre zone provides for Currimundi Market Place to function as the retail core with the areas adjacent to Nicklin Way providing a broader range of business uses in a configuration that substantially improves the *streetscape* character and appearance of this part of Nicklin Way.
  - (g) Land included in the Local centre zone on Parklands Boulevard opposite Sunset Drive is developed as a local (full service) activity centre incorporating a *supermarket* and associated business uses in a configuration that supports, and is complementary to, the proposed Aroona transit station to be established on adjacent land in conjunction with the Dedicated Public Transport Corridor (CAMCOS).
  - (h) Other local centres in the local plan area, including those at Aroona, Ivadale Lakes, Parklands, Bellvista and Little Mountain are retained as local (not full service) activity centres, providing for the day to day needs of residents in one or a small group of tenancies only.
  - (i) Whilst opportunities exist for the expansion and enhancement of business functions within the different centres in the local plan area, residents continue to rely upon Caloundra, Kawana or Maroochydore for their higher order business needs.
  - (j) Development within the Low density residential zone, Medium density residential zone and Emerging community zone occurs in an integrated manner and creates walkable

neighbourhoods with good pedestrian and cycle connectivity to centres, community facilities and open space. Whilst a range of residential lot sizes and housing types may be expected to establish within the undeveloped parts of the local plan area, the prevailing low density character of established residential areas is retained. The existing large residential lots in Discovery Drive, Homestead Drive and Manor Court are not further subdivided. Development of land in the Emerging community zone at 102-104 Old Caloundra Road, Little Mountain is conditional upon the satisfactory resolution of traffic impacts and, in the case that development is able to proceed, is for low density residential purposes only.

- (k) Land included in the Medium density residential zone and the Emerging community zone on Parklands Boulevard and Sunset Drive and the Community facilities zone at the end of Tallowwood Close, in the vicinity of Meridan College, and within 800 metres of the proposed Aroona transit station, provides for the establishment of high quality, low rise medium density housing with buildings in configurations that are sensitive to and compatible with the existing predominantly low density character of the surrounding locality.
- (I) Development in the Rural residential zone to the west of Sugarbag Road and Sunset Drive provides for low impact rural residential living in a vegetated setting. Development provides for the retention of significant *vegetation* in a manner which retains the bushland character of Sugarbag Road and Sunset Drive and for buildings which sit lightly in the landscape with minimal site disturbance.
- (m) Corbould Park Racecourse continues to develop as a regionally significant outdoor sport and recreation facility that incorporates high quality facilities in an attractive, open landscape setting which protects the visual amenity of Caloundra Road as an important scenic route.
- (n) The Sunshine Coast Industrial Park continues to develop as a modern and visually appealing industry park with a high standard of environmental performance and design. Development facilitates a wide range of industrial uses through the provision of a range of lot sizes.
- (o) Land included in the Community facilities zone immediately to the south of the Sunshine Coast Industrial Park provides for the site to be developed for a range of uses including waste transfer and recycling facilities, sport and recreation uses and other compatible uses. Development on this site protects and connects ecologically important areas and environmental offset areas, incorporates an integrated water management system and provides for appropriate access to Racecourse Road and the southern extension of the Sunshine Motorway, south of Caloundra Road.
- (p) The significant environmental values and scenic quality of Caloundra Conservation Park, Meridan Plains Conservation Park, Jill Chamberlain Conservation Reserve, Sharyn Bonney Conservation Reserve and other local environmental reserves and parks are protected.
- (q) Development does not compromise the provision and operation of the proposed Dedicated Public Transport Corridor (CAMCOS), the CoastConnect Priority Public Transport and Bicycle Corridor, Corbould Way, the Multi-modal Transport Corridor, or proposed new road links to the Caloundra South Priority Development Area. Areas immediately adjacent to the Dedicated Public Transport Corridor (CAMCOS) included in the Environmental conservation and management zone are retained for their ecological, acoustic and visual buffering value.

# 7.2.7.4 Assessment criteria Performance outcomes and acceptable outcomes

#### 

Performance Outcomes		Acceptable	Outcomes			
Developi	Development in the Caloundra West Local Plan Area Generally (All Zones)					
PO1	Development provides for buildings, structures and landscaping that are consistent with, and reflect the coastal urban character of, the local plan area.	AO1.1	Development for a residential, business or community activity provides for building design which incorporates the following features:- (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing; (b) articulated, pitched, skillion or			

Performa	nce Outcomes	Acceptable	Outcomes
T CHOITHE	nice outcomes	Acceptable	curved roof forms;
			(c) open or transparent balustrades; and (d) landscaping integrated into the building design.
		AO1.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.
		AO1.3	Development provides for existing mature trees to be retained and incorporated into the design of development.
PO2	Development contributes to the establishment of an attractive <i>streetscape</i> character that enhances the sense of arrival to Caloundra from the west along Caloundra Road and enhances the landscape and visual amenity of other <i>major roads</i> in the local plan area.	AO2	Development adjacent to Caloundra Road and Corbould Way, where identified on Figure 7.2.7A (Caloundra West local plan elements), provides a minimum 20 metre wide landscaped buffer along the full frontage of the road that is dedicated to Council as road, with any fencing wholly contained in private property at the rear of the landscape buffer.
PO3	Development preserves the gateway qualities and integrity of the wide open ocean view from Caloundra Road at the crest of Little Mountain to Bribie Island and Moreton Bay.	AO3	Development adjacent to the gateway/entry point on Caloundra Road at the crest of Little Mountain identified on Figure 7.2.7A (Caloundra West local plan elements):-  (a) ensures that buildings and structures do not impede or intrude upon the ocean views to Bribie Island and Moreton Bay from Caloundra Road at the crest of Little Mountain; and  (b) incorporates landscape treatments that enhance the gateway/entry point.
PO4	Development contributes to the establishment of attractive and coherent streetscapes and gateways to:- (a) enhance the coastal character of the Caloundra West local plan area; and (b) enhance the landscape and visual amenity of major roads in the Caloundra West local plan area and the townscape character of Currimundi District Centre.	AO4.1	Development adjacent to a primary streetscape treatment area or gateway/entry point identified on Figure 7.2.7A (Caloundra West local plan elements), other than the gateway on Caloundra Road at the crest of Little Mountain:-  (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the coastal urban character of, the Caloundra West local plan area, and emphasise the gateway/entry point or corner location; and  (b) incorporates building design such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO4.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular

Performa	ance Outcomes	Acceptable	Outcomes
			streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO5	Development provides for the retention and enhancement of key landscape elements contributing to the setting, character and sense of place of the Caloundra West local plan area including existing character trees and areas of significant <i>vegetation</i> .	AO5	Development provides for the retention and enhancement of existing mature trees and character vegetation contributing to the setting and character of the Caloundra West local plan area including:-  (a) bushland areas in the vicinity of Sugarbag Road and Sunset Drive;  (b) vegetation on ridgelines and elevated hilltops;  (c) riparian vegetation along Currimundi Creek; and  (d) vegetation adjacent to Corbould Way.  Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO6	Development on land identified as a local ecological linkage on Figure 7.2.7A (Caloundra West local plan elements) facilitates the provision of a local ecological linkage connecting core habitat areas between Sharyn Bonney Bushland Reserve and Currimundi Creek.	AO6	No acceptable outcome provided.  Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO7	Development does not compromise the future provision and operation of transport networks including:-  (a) the Dedicated Public Transport Corridor (CAMCOS);  (b) the CoastConnect Priority Public Transport and Bicycle Corridor along the Nicklin Way;  (c) the Multi-modal Transport Corridor; and  (d) the Kawana Arterial extension between Caloundra Road and the Caloundra South Priority Development Area.	AO7	No acceptable outcome provided.
	ment in the District Centre Zone		
PO8	Development in the District centre zone supports the role and function of Currimundi District Activity Centre as a district level activity centre.	AO8	No acceptable outcome provided.
PO9	Development in the District centre zone:-  (a) improves the functional relationships that exist between different parts of the centre;  (b) contributes to the creation of a contemporary coastal built form;  (c) creates a coherent streetscape and vibrant and active streets and public spaces;  (d) provides continuous weather protection for pedestrians along active or semi-active street front areas; and	AO9.1	Development in the District centre zone provides for the Currimundi Market Place Shopping Centre to be progressively improved in a manner that:- (a) provides a primary active street frontage to the Nicklin Way where identified on Figure 7.2.7A (Caloundra West local plan elements); (b) creates a more pedestrian friendly internal street environment; (c) reduces the dominance of car parking areas and signage elements at the Nicklin Way site

Develop	ment in the Local Centre Zone		(c) provides all weather protection in the form of continuous cantilevered awnings and/or light verandah structures with non-load bearing posts over footpath areas along Nicklin Way in conjunction with mature or semi-mature shade trees planted along the site frontage adjacent to the kerbside; (d) ensures that signage is integrated with buildings; (e) provides landscaping, shaded seating and consistent and simple paving materials on footpaths; and (f) provides for on-site car parking at the rear or to one side of the development.
		1010	
PO10	Development in the Local centre zone supports the role and function of:-  (a) the proposed local centre located on Parklands Boulevard opposite Sunset Drive as a local (full service) activity centre only; and  (b) other local centres as local (not full service) activity centres.	AO10	No acceptable outcome provided.
PO11	Development in the Local centre zone:-	AO11	Development in the Local centre zone:-
	<ul> <li>(a) creates vibrant and active streets and public spaces;</li> <li>(b) provides a coherent and attractive streetfront address and achieves a high level of visual amenity;</li> <li>(c) provides a high level of comfort and convenience to pedestrians; and</li> <li>(d) provides functional and integrated car parking and vehicular access that does not dominate the street.</li> </ul>		<ul> <li>(a) respects the layout, scale (including height and setback) and character of development on adjoining sites;</li> <li>(b) where applicable, provides for new or extended large floor plate retail uses to be sleeved and located behind smaller scale, fine grain built form elements;</li> <li>(c) has building openings overlooking the street;</li> <li>(d) provides all weather protection in the form of continuous awnings and/or light verandah structures over footpath areas with mature or semi-mature shade trees planted along the site frontage adjacent to the kerbside;</li> <li>(e) includes provision of landscaping, shaded seating and consistent and simple paving materials on footpaths; and</li> <li>(f) provides on-site car parking at the</li> </ul>

			vehicle movement areas.
PO12	Development in the Local centre zone at the proposed local centre located on Parklands Boulevard opposite Sunset Drive:-	AO12	No acceptable outcome provided.
	(a) provides for the coordinated and integrated development of sites included within the Local centre		
	zone; (b) provides for local centre activities to be integrated with the proposed Aroona transit station and support the achievement of transit oriented development outcomes;		
	(c) provides for any large format retail use to be sleeved and located behind smaller scale fine grain built form elements;		
	(d) provides for the maximum gross leasable floor area for business uses in the Local centre zone at this location to not exceed		
	5,000m²; and  (e) provides for the establishment of a central community meeting place such as a village square or plaza which:-		
	(i) effectively integrates with the local centre and the Aroona transit station;     (ii) provides a comfortable, safe		
	and attractive environment for pedestrians; (iii) integrates with and is overlooked by active uses;		
	and (iv) includes public artwork, shade and seating.		
	ment in the Medium Density Residential	Zone	
PO13	Development in the Medium density residential zone provides for a significant resident population to be accommodated within the primary catchment of the Aroona transit station so as to support the functional efficiency of the Dedicated Public Transport Corridor (CAMCOS) and	AO13	Development in the Medium density residential zone within 800 metres of the proposed Aroona transit station, where identified on Figure 7.2.7A (Caloundra West local plan elements), provides for the establishment of high quality, low rise multi-unit residential uses at densities of between 25 and 50 equivalent dwellings
	promote transit oriented development outcomes.		per hectare.
	ment in the Low Density Residential Zon		
PO14	Development for reconfiguring a lot in the Low density residential zone in Precinct CAW LPP-1 (Homestead Drive) identified on Local Plan Map LPM44 protects the low density residential character of Discovery Drive,	AO14	Development for reconfiguring a lot in the Low density residential zone in Precinct CAW LPP-1 (Homestead Drive) identified on Local Plan Map LPM44 does not provide for lots fronting Discovery Drive, Homestead Drive and Manor Court to be
	Homestead Drive and Manor Court.		further subdivided.
	ment in the Rural Residential Zone		
PO15	Development for reconfiguring a lot in the Rural residential zone provides for lot sizes and a configuration of lots that:-	AO15	Development for reconfiguring of lot in the Rural residential zone provides for a minimum lot size of 1 hectare.
	(a) is sympathetic to the prevailing rural residential character of the area in which it is located; and		

community zone provides for a significant resident population to be accommodated within the primary catchment of the Aroona transit station so as to support the functional efficiency of the Dedicated Public Transport Corridor (CAMCOS) and promote transit oriented development outcomes.  PO20  Development in the Emerging community zone reflects the local structure planning elements including indicative road/linkage points and landscape buffers identified on Figure 7.2.7A (Caloundra West local plan elements).	Performa	nce Outcomes	Acceptable	Outcomes
Sunset Drive provides for low impact rural residential living in a bushland setting, and is designed in a manner which:  (a) protects the bushland character of Sugarbag Road and Sunset Drive; (b) appropriately and sensitively responds to site characteristics; (c) achieves minimal site disturbance; (d) maximises the amount of constrained land and ecologically important areas in protected tenure; and (e) provides for new home sites to be screened from Sugarbag Road and Sunset Drive.  Development in the Emerging Community Zone Generally  Development in the Emerging Community Zone Community Zone contributes to the creation of high quality, attractive, environmentally responsible and sustainable residential neighbourhoods which:  (a) are integrated with existing neighbourhoods; (b) have legible and permeable local road systems; (c) provide for the coordinated provision of infrastructure; and dotherwise subject to constraints.  PO18  Development in the Emerging Community zone provides for the establishment of a mix of land uses and housing types at a scale and intensity and in a configuration that does not adversely impact upon the character or amenity of established residential neighbourhoods.  PO18  Development in the Emerging community zone provides for the establishment of a mix of land uses and housing types at a scale and intensity and in a configuration that does not adversely impact upon the character or amenity of established residential neighbourhoods.  PO19  Development in the Emerging community zone provides for a significant resident population to be accommodated within the primary catchment of the Aroona transit station, where identified figure 7.2.7A (Caloundra West local plan) elements). Provides for the stablishment of high quality, or structure planning elements including indicative road/linkage points and landscape buffers identified on Figure 7.2.7A (Caloundra West local plan elements).		constraints.		
PO17 Development in the Emerging Community Zone Generally  Development in the Emerging A017  Development in the Emerging audity, attractive, environmentally responsible and sustainable residential neighbourhoods which:  (a) are integrated with existing neighbourhoods; (b) have legible and permeable local road systems; (c) provide for the coordinated provision of infrastructure; and (d) retain, enhance and connect native vegetation areas and other ecologically important areas, and avoid development of land otherwise subject to constraints.  PO18 Development in the Emerging community zone provides for the establishment of a mix of land uses and housing types at a scale and intensity and in a configuration that does not adversely impact upon the character or amenity of established residential neighbourhoods.  PO19 Development in the Emerging community zone provides for a significant resident population to be accommodated within the primary catchment of the Aroona transit station so as to support the functional efficiency of the Dedicated Public Transport Corridor (CAMCOS) and promote transit oriented development outcomes.  PO20 Development in the Emerging community zone reflects the local structure planning elements including indicative road/linkage points and landscape buffers identified on Figure 7.2.7A (Caloundra West local plan elements).	PO16	zone to the west of Sugarbag Road and Sunset Drive provides for low impact rural residential living in a bushland setting, and is designed in a manner which:-  (a) protects the bushland character of Sugarbag Road and Sunset Drive;  (b) appropriately and sensitively responds to site characteristics;  (c) achieves minimal site disturbance;  (d) maximises the amount of constrained land and ecologically important areas in protected tenure; and  (e) provides for new home sites to be screened from Sugarbag Road and	AO16	No acceptable outcome provided.
PO17 Development in the Emerging community zone contributes to the creation of high quality, attractive, environmentally responsible and sustainable residential neighbourhoods which:  (a) are integrated with existing neighbourhoods; (b) have legible and permeable local road systems; (c) provide for the coordinated provision of infrastructure; and (d) retain, enhance and connect native vegetation areas and other ecologically important areas, and avoid development of land otherwise subject to constraints.  PO18 Development in the Emerging community zone provides for the establishment of a mix of land uses and housing types at a scale and intensity and in a configuration that does not adversely impact upon the character or amenity of established residential neighbourhoods. # Figure 7.2.7A Caloundra West local plan elements

# 7.2.8 Coolum local plan code

### 7.2.8.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Coolum local plan area as shown on Map ZM11 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Coolum local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.8.3 (Purpose and overall outcomes);
  - (b) Table 7.2.8.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.8A (Coolum local plan elements).

# 7.2.8.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Coolum local plan code.

The Coolum local plan area is located in the central eastern part of the Sunshine Coast between the coastal communities of Marcoola and Peregian Beach and includes the coastal township of Coolum Beach and surrounding communities of Point Arkwright, Yaroomba, Mount Coolum and The Boardwalk as well as renowned tourism developments such as the Palmer Coolum Resort. The local plan area also includes the Coolum Industrial Park, which is identified as a significant industry and enterprise opportunity area for the region. The local plan area has a land area of approximately 1,880 hectares.

The local plan area is traversed by Stumers Creek and framed by a picturesque natural setting, including the South Peregian section of the Noosa National Park to the north, rural land to the west, Mount Coolum National Park in the south and the Pacific Ocean in the east. Other significant environmental and landscape features within the local plan area include the Coolum section and part of the Peregian section of the Noosa National Park, Point Perry, Point Arkwright with its mosaic of significant remnant vegetation and rocky shore ecosystem, Emu Mountain and Eurungunder Hill and the Yaroomba parabolic dune which contribute to the character, identity and sense of place of Coolum.

The local plan area is characterised by predominantly dwelling houses with some multi unit development and tourist accommodation mainly in the beachfront areas of Coolum Beach and to a lesser extent, Point Arkwright and Mount Coolum (The Boardwalk).

Coolum Beach has a dual role in providing both for tourists and the local community. These two roles are reflected in two distinct commercial areas, with tourist activities focussed along the Coolum Esplanade (David Low Way) and local commercial and retail activity focussed in the Birtwill Street area.

The Coolum Beach Town Centre, centred on Birtwill Street and generally bound by Margaret Street, David Low Way (Coolum Esplanade), Elizabeth Street and Sunrise Avenue, is intended to function as a District Activity Centre providing a focus for small scale retail, commercial, residential and community activities which maintain the coastal village character of the local plan area. Tourist accommodation and related services and activities are intended to remain focussed on the Esplanade, taking advantage of the proximity to the beach and foreshore.

The local plan area also includes a local activity centre at Coolum West and smaller local activity centres along David Low Way, which provide the day to day convenience needs of local residents.

The local plan area includes a range of community activities and sport and recreational areas, including the Coolum Peregian Sports Complex, the Palmer Coolum Resort, Mount Coolum Golf Club, Quanda Road Water Ski Park, Coolum Beach Pony Club, Luther Heights Youth Camp, Coolum State High School and Primary School. The Coolum beachfront stretching from Point Arkwright in the south to the southern end of

the Noosa National Park in the north, includes Tickle Park, Coolum Beach Holiday Park and Coolum Surf Life Saving Club.

The Sunshine Motorway, Emu Mountain Road, Yandina – Coolum Road, South Coolum Road and David Low Way are major road links within the local plan area.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

# 7.2.8.3 Purpose and overall outcomes

- (1) The purpose of the Coolum local plan code is to provide locally relevant planning provisions for the assessment of development within the Coolum local plan area.
- (2) The purpose of the Coolum local plan code will be achieved through the following overall outcomes:-
  - (a) The Coolum local plan area remains a low key coastal urban community, with a strong focus on tourism and well serviced by a range of small-medium scale business, community, sport and recreational activities.
  - (b) Urban development within the Coolum local plan area is limited to land within the urban growth management boundary so as to protect and reinforce the small scale coastal village character and identity of Coolum, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect significant environmental areas and adjoining rural lands.
  - (c) Centre activities are consolidated within the Coolum Beach Town Centre in the east of the local plan area and generally bounded by Margaret Street, David Low Way (also known as Coolum Esplanade), Elizabeth Street and Sunrise Avenue. The Coolum Beach Town Centre functions as a small district activity centre providing a range of commercial, retail, community and residential uses to service the needs of residents and visitors to the area.
    - Mixed uses and uses which enhance the beachside character and district level role and function of the Coolum Beach Town Centre are encouraged. Retail and commercial development does not extend beyond the boundaries of the District centre zone and Tourist accommodation zone. No new large floor plate retail uses are intended to be established in the Coolum Beach Town Centre. Residents continue to rely upon the nearby larger centres of Maroochydore, Nambour and Noosa Business Centre to fulfil higher order business and retail needs.
  - (d) Development in the Coolum Beach Town Centre contributes to a low-scale, compact coastal town with an intimate village character, a high level of pedestrian permeability and visual links with the beach, Tickle Park and Jack Morgan Park and attractive gateways through the provision of streetscape and landscaping treatments, active *frontages* where appropriate, improved pedestrian and cycle connections and off-street car parking.
  - (e) Development within the District centre zone and Tourist accommodation zone reinforces the frontage to Coolum Esplanade as the tourism focus area with active street frontages providing a range of small-scale boutique retail and outdoor dining experiences with residential accommodation above, and strong visual and pedestrian linkages with the foreshore area and surrounding residential, business and community uses.
  - (f) The Coolum West Local Centre, located along the Yandina-Coolum Road and South Coolum Road, functions as a local (full service) activity centre servicing the convenience needs of nearby residents. Development within the Coolum West Local Centre supports, and does not detract from, the role of the Coolum Beach Town Centre as the district activity centre for the local area and contributes to the establishment of a gateway to Coolum through the provision of streetscape and landscaping treatments. Retail and commercial development in this area does not extend beyond the boundaries of the Local centre zone, other than for the purposes of small scale office activities on Lot 26 RP80884 at 135 Yandina-Coolum Road, Coolum.
  - (g) Land to the west of Barns Lane and South Coolum Road is retained in the Rural zone providing a natural landscape gateway to Coolum.
  - (h) Development in the High impact industry zone, to the west of Coolum Beach, provides for a diverse mix of high and medium impact industrial uses set within an integrated, modern and

visually appealing industry park with a high level of environmental performance and is designed to service the Sunshine Coast Region. The industry park is protected from incompatible development that may adversely affect operations and avoids adverse affects on adjoining environmental areas.

- (i) The *tourist park* at Coolum Beach is protected for its role in providing budget accommodation and its contribution to the low key, family friendly character of Coolum.
- (j) The Palmer Coolum Resort and The Coolum Residences continues to be developed as an integrated tourist and residential development focussed around an 18 hole championship golf course and large areas of open space. Development is configured in a series of beachside villages and other precincts that sit lightly in the landscape and that are separated by green corridors and lush subtropical landscaping. Development protects the natural vegetated character of the coastal foreshore and foredunes and respects the scale and character of surrounding areas and vegetation. Dense vegetated buffers are maintained along the David Low Way and surrounding the Palmer Coolum Resort to effectively screen development and protect the scenic amenity of David Low Way and the amenity of nearby residential areas.
- (k) Development is designed and sited to protect significant environmental areas, character vegetation and views either to or from important landscape features and to reflect the physical characteristics and constraints of the land, including the protection of sensitive slopes, remnant vegetation and other ecologically important areas.
- (I) Locally significant landscape and environmental elements which contribute to the character, identity and sense of place of the Coolum local plan area including Mount Coolum, Stumers Creek, Coolum and Peregian sections of the Noosa National Park, Point Perry, Point Arkwright, Mount Emu, Eurungunder Hill, remaining parts of the Point Arkwright bushland mosaic, rainforest areas on the Palmer Coolum Resort site, the Yaroomba parabolic dune and other foreshore dunes are retained in their natural state and protected from intrusion by built form elements and other aspects of urban development.
- (m) Development is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.

#### 7.2.8.4 Assessment criteria Performance outcomes and acceptable outcomes

Performance Outcomes		Acceptable	Outcomes
Developi	ment in the Coolum Local Plan Area Gen	erally (All Zo	ones)
PO1	Development provides for buildings, structures and landscaping that are consistent with, and reflect the low key beachside character of, the Coolum local plan area in that they are integrated with the natural and coastal landscape and skyline <i>vegetation</i> in terms of scale, siting, form, composition and use of materials.	AO1.1	Development for a residential, business or community activity provides for building design which incorporates the following features:-  (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing;  (b) articulated, pitched, skillion or curved roof forms;  (c) open or transparent balustrades; and (d) landscaping integrated into the building design.
		AO1.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.
		AO1.3	Development provides for existing mature trees to be retained and incorporated into the development design.
PO2	Development contributes to the establishment of attractive and coherent	AO2.1	Development adjacent to a primary streetscape treatment area or

Performa	nce Outcomes	Acceptable	Outcomes
	streetscapes and gateways to enhance the sense of entry to and the coastal village character of the Coolum local plan area.		gateway/entry point where identified on Figure 7.2.8A (Coolum local plan elements):-  (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the coastal village character of, the Coolum local plan area and emphasise corner locations; and  (b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO2.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note—Section 9.4.2 (Landscape code) sets
			out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can
			be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO3	Development provides for the retention and enhancement of key landscape elements including significant views and vistas, existing character trees and areas of significant vegetation, contributing to the setting, character and sense of place of the Coolum local plan area.	AO3.1	Development protects and emphasises, and does not intrude upon, the important sightlines and views to and from Coolum Beach, Mount Coolum, Emu Mountain, Eurungunder Hill, Point Arkwright and Point Perry, including where identified on Figure 7.2.8A (Coolum local plan elements).
		AO3.2	Development provides for the retention and enhancement of existing mature trees and vegetation contributing to the character and vegetated backdrop of the local plan area including:-  (a) vegetation on elevated hilltops and ridgelines;  (b) vegetation along David Low Way; and  (c) other character vegetation where identified on Figure 7.2.8A (Coolum local plan elements).  Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO4	Development provides for locally significant landscape and environmental elements, including Mount Coolum, Stumers Creek, Coolum and Peregian sections of the Noosa National Park, Point Perry, Point Arkwright, Mount Emu, Eurungunder Hill, remaining parts of the Point Arkwright bushland mosaic, rainforest	AO4	No acceptable outcome provided.

	areas on the Palmer Coolum Resort site, the Yaroomba parabolic dune and other foreshore dunes, to be retained in their natural state and protected from intrusion by built form elements and other aspects of urban development.  Inent in the District Centre Zone  Development in the District centre zone provides for small to medium scale	AO5	No acceptable outcome provided.
<b>DO</b>	uses and mixed uses that:-  (a) support the role and function of the Coolum Beach Town Centre as a small district activity centre; and  (b) provide a wide range of goods and services to residents and visitors.		
PO6	Development in the District centre zone provides for the establishment of:-  (a) Coolum Esplanade as the focus for tourist activities providing a range of small scale boutique shops, restaurants and cafes at ground level with residential above; and  (b) Birtwill Street area as the main convenience shopping area providing a range of commercial and retail uses.	AO6	No acceptable outcome provided.
PO7	Development in the District centre zone:-  (a) is sympathetic to the coastal village character of the Coolum Beach Town Centre;  (b) contributes to the creation of a contemporary coastal built form and streetscape;  (c) creates vibrant and active streets and public spaces; and  (d) provides continuous weather protection for pedestrians.	AO7	Development in the District centre zone:  (a) provides primary active street frontages built to the front boundary where identified on Figure 7.2.8A (Coolum local plan elements);  (b) provides for residential uses to be effectively integrated with business uses;  (c) has building openings overlooking the street;  (d) provides all weather protection in the form of continuous cantilevered awnings and/or light verandah structures over footpath areas with mature or semi-mature shade trees planted along the site frontage adjacent to the kerbside;  (e) ensures that signage is integrated with buildings; and  (f) includes provision of landscaping, shaded seating and consistent and simple paving materials on footpaths.
PO8	Development provides for off-street car parking and vehicular access arrangements which:-  (a) avoid direct service vehicle and car park access to David Low Way; and  (b) provide for service vehicle and car park areas to be sleeved and located behind the active street frontage.	A08	No acceptable outcome provided.
PO9	Development provides through block pedestrian linkages which:- (a) are located to reflect the desire lines of pedestrian movement between major points of attraction and public spaces;	AO9	Development provides through block pedestrian linkages where identified on Figure 7.2.8A (Coolum local plan elements).

Performa	nce Outcomes	Acceptable	Outcomes
PO10	<ul> <li>(b) provide a safe alternative to the street based pedestrian and cycle movement network; and</li> <li>(c) provide a comfortable pedestrian environment in terms of access, width, shelter, materials and function.</li> <li>Development for a food and drink outlet</li> </ul>	AO10	No acceptable outcome provided.
	does not incorporate a drive-through facility.		·
PO11	Development does not provide for the establishment of any additional large floor plate retail uses.	AO11	No acceptable outcome provided.
	nent in the Tourist Accommodation Zon		
PO12	Development in the Tourist accommodation zone:-  (a) contributes to the creation of a contemporary coastal built form and streetscape;  (b) provides a continuous pedestrian friendly facade and incorporates activities located at ground level to create a vibrant and active streetscape with high levels of casual surveillance; and  (c) provides continuous weather protection for pedestrians.	AO12	Development in the Tourist accommodation zone ensures that the ground storey level of premises on a site having a primary active street frontage where identified on Figure 7.2.8A (Coolum local plan elements):-  (a) provides a fine scale built form;  (b) has building openings overlooking the street;  (c) incorporates shopfronts, indoor/outdoor cafes and restaurants and other activities that are likely to foster casual, social and business interaction built to the boundary of the active street frontage;  (d) provides all weather protection in the form of continuous cantilevered awnings and/or light verandah structures with decorative non-load bearing posts over footpath areas with mature or semi-mature shade trees planted along the site frontage adjacent to the kerbside;  (e) ensures that signage is integrated with the building; and  (f) includes provision of landscaping, shaded seating and consistent and simple paving materials on footpaths.
PO13	Development provides for off-street car parking and vehicular access arrangements which:-  (a) avoid direct service vehicle and car park access to David Low Way; and  (b) provide for service vehicle and car park areas to be sleeved and located behind the active street frontage.	AO13	No acceptable outcome provided.
	ment in the Local Centre Zone (Coolum \		
PO14	Development in the Local centre zone at Coolum West:-  (a) supports the role and function of the Coolum West Local Centre as a local (full service) activity centre serving the convenience needs of local residents;  (b) does not detract from the role and function of Coolum Beach Town Centre as the district activity centre for the local area; and	A014	No acceptable outcome provided.

(c) provides an attractive interface to major roads and promotes a

Performa	ance Outcomes	Acceptable	Outcomes
	ment in the High Impact Industry Zone		
PO17	Development adjacent to the Noosa National Park or other ecologically important areas provides a vegetated open space buffer to ensure that the construction and operational activities of industry avoids impact on the sustainability of vegetation communities and maintains visual amenity.	AO17	No acceptable outcome provided.  Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out buffer distances and other requirements for development adjacent to conservation areas and other ecologically important areas.
PO18	Development provides for a dense vegetated <i>buffer</i> strip to be maintained along the Yandina-Coolum Road and Sunshine Motorway to effectively screen industrial development from the road.	AO18	No acceptable outcome provided.
PO19	Development provides for access arrangements to industrial land which:- (a) avoid additional vehicle access from Yandina-Coolum Road; and (b) are rationalised with existing vehicular access arrangements, where possible.	AO19	No acceptable outcome provided.
Coolum	Beach Holiday Park		
PO20	Development provides for the existing tourist park <i>site</i> at Coolum Beach to be retained or redeveloped as a <i>tourist park</i> .	AO20	No acceptable outcome provided.
Develop	ment in the Rural Zone (Barns Lane)		
PO21	Development in the Rural zone, located between Barns Lane and the Sunshine Motorway, consists of rural land uses that maintain and enhance the rural and natural landscape character providing an attractive non-urban gateway entrance into Coolum.	AO21	No acceptable outcome provided.

# Figure 7.2.8A Coolum local plan elements

# 7.2.9 Eudlo local plan code

# 7.2.9.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Eudlo local plan area as shown on Map ZM29 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Eudlo local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (d) section 7.2.9.3 (Purpose and overall outcomes);
  - (e) Table 7.2.9.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (f) Figure 7.2.9A (Eudlo local plan elements).

# 7.2.9.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Eudlo local plan code.

The Eudlo local plan area is located on the North Coast Rail Line in the central part of the Sunshine Coast.

The local plan area comprises the small rural village of Eudlo and the residential areas immediately to the south and north of the village, and has a land area of approximately 24 hectares.

Eudlo is set within a picturesque rural and natural landscape in the Eudlo Creek Valley approximately half way between the larger settlements of Mooloolah to the south and Palmwoods to the north. The timber industry was the means of livelihood for early settlers, with a sawmill built to process large quantities of timber from the Blackall Range and surrounding forests.

Rosebed Street in the centre of the village is a traditional style main street that incorporates a post office and general store. The general store provides convenience goods and services to local residents and nearby rural and rural residential areas. Eudlo village is relatively low lying compared to the surrounding areas and much of the housing in the village reflects the raised Queenslander style in response to low level flooding.

The Eudlo Hall in conjunction with other community facilities situated on the western side of Rosebed Street provides a focus for community activity within the local plan area.

A number of places of cultural heritage significance are found in Eudlo including the Eudlo Hall, the Eudlo State School and the Methodist Church. Eudlo has strong associations to the past and its timber getting and milling origins. The Chenrezig Institute, a well known Tibetan Buddhist temple and retreat is located a short drive from the village.

Whilst some smaller urban lots exist in the local plan area, the residential areas of Eudlo are characterised by large urban lots that contribute to the low-density rural village character. Detached housing is generally of the traditional Queensland style, also reflecting the rich heritage of the village.

The Eudlo community enjoys a quiet, relaxed lifestyle where surrounding open spaces, rural vistas and privacy are key features. A focus on community activities in the village area and heritage are also important elements of this lifestyle.

Rosebed Street, Corlis Avenue and Anzac Avenue are major roads in the local plan area. The North Coast Railway is intended to be upgraded in the future, and will result in the railway line shifting further west from the village which may provide opportunities for improved parkland and community facilities.

The Eudlo local plan area has only limited urban services. Neither reticulated water nor sewerage are available to the local plan area and are not planned to be made available in the life of the planning scheme.

Although some existing properties currently operate on sewerage 'pump out' systems, this method of disposal is not intended to be continued for new development in the area.

## 7.2.9.3 Purpose and overall outcomes

- (1) The purpose of the Eudlo local plan code is to provide locally relevant planning provisions for the assessment of development within the Eudlo local plan area.
- (2) The purpose of the Eudlo local plan code will be achieved through the following overall outcomes:-
  - (a) Eudlo remains a small village with an intimate rural character and identity.
  - (b) Urban development within the Eudlo local plan area is limited to land within the urban growth management boundary so as to protect and reinforce Eudlo's rural village character and identity, provide for the efficient provision of *infrastructure* and services, avoid land substantially constrained to urban development, and protect the character and productivity of surrounding rural land.
  - (c) Development retains the key landscape and built form elements that contribute to the character and identity of Eudlo as a small rural village with a strong sense of place and associations with the past.
  - (d) The form and scale of development is low key with buildings that are low rise and cover a comparatively small area of the site, thereby leaving significant areas for landscaping and private open space.
  - (e) Development in the Local centre zone supports the role and function of the Eudlo Village Centre as a small local (not full service) activity centre servicing the basic convenience needs of residents and visitors. Whilst development in the Local centre zone provides for the expansion and enhancement of business uses, residents continue to rely upon Mooloolah, Palmwoods or Nambour to fulfil most of their business and industry needs.
  - (f) The traditional built form character of Eudlo, and in particular the village centre, is retained and new development is designed to complement the traditional built form and *streetscape* character of the local plan area.
  - (g) Development in the Low density residential zone maintains large urban lots sizes to preserve the rural village character and provide for the effective treatment and disposal of effluent onsite.
  - (h) Development in the Community facilities zone on the former Olsen Mill site provides for community related activities or limited other uses that support local employment in a manner which does not detract from the role and function of the Eudlo Village Centre.
  - (i) Development in the local plan area is supported by a network of open space that meets the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.

# 7.2.9.4 Assessment criteria Performance outcomes and acceptable outcomes

#### 

Performance Outcomes		Acceptable Outcomes			
Develop	Development in the Eudlo Local Plan Area Generally (All Zones)				
P01	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional rural village architectural character of Eudlo in terms of scale, siting, form, composition and use of materials.		Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage or local character significance.  Editor's Note—Section 8.2.9 (Heritage and character areas overlay code) sets out requirements for development on heritage places and in character areas.

# Figure 7.2.9A Eudlo local plan elements

## 7.2.10 Eumundi local plan code

# 7.2.10.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Eumundi local plan area as shown on Map ZM3 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Eumundi local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.10.3 (Purpose and overall outcomes);
  - (b) Table 7.2.10.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.10A (Eumundi local plan elements).

# 7.2.10.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Eumundi local plan code.

The Eumundi local plan area is located in the northern part of the Sunshine Coast, in the North Maroochy River Valley and on the North Coast Rail Line. The local plan area includes Eumundi's town centre and surrounding residential areas and has a land area of approximately 160 hectares.

The local plan area is dominated by a ridge which rises to the west of the town centre and provides a vegetated backdrop to the town. Parts of the local plan area also provide views across the surrounding rural landscape including towards Cooroy Mountain in the north and Mount Eerwah in the west. Towards the east, the land gently slopes towards the North Maroochy River.

Eumundi is a small rural township providing important business, community, social, and recreational facilities to service the local level needs of its resident population as well as the needs of surrounding rural communities and visitors to the area. Eumundi derives its character from its rich cultural heritage, traditional main street and building designs, tree lined streets, attractive green backdrop and rural landscape setting. This strong and unique identity and character has helped create Eumundi's sense of place and niche role as a tourist destination.

The Eumundi town centre is focussed on the traditional main street of Memorial Drive, between the Eumundi - Noosa Road and Pacey Street intersections. This area contains the most substantial retail, office, commercial and tourism uses in Eumundi, including two hotels. Located parallel to Memorial Drive is an area of open space, both in public and private ownership, which includes Dick Caplick Park and which hosts the famous Eumundi markets. These markets are an important economic and tourist asset for the town and the region.

The Eumundi local plan area retains strong connections with its history and contains a number of buildings which have local cultural or historical significance, particularly along Memorial Drive and Cook Street including Eumundi School of Arts, Eumundi War Memorial and St Georgeas Anglican Church as well as other significant buildings such as Joes Watering Hole and the old railway station and corridor. Stands of vegetation along the eastern side of Memorial Drive, particularly the mature Camphor Laurels and figs, are important landscape features of the town. The showgrounds and associated facilities at both ends of Memorial Drive provide important community, sporting and recreational facilities.

The residential areas surrounding the town have larger sized lots to accommodate the topography and which add to the rural town character of the area. Detached housing is typically of traditional Queensland style.

The Eumundi local plan area has good levels of accessibility with direct access to the Bruce Highway, Eumundi-Noosa Road and the North Coast Rail Line. Memorial Drive and Caplick Way are other key road links within the local plan area.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

# 7.2.10.3 Purpose and overall outcomes

- (1) The purpose of the Eumundi local plan code is to provide locally relevant planning provisions for the assessment of development within the Eumundi local plan area.
- (2) The purpose of the Eumundi local plan code will be achieved through the following overall outcomes:-
  - (a) Eumundi remains a small rural town with a distinct heritage character, primarily servicing the local community and tourist industry. Some expansion of local business and residential areas is provided for.
  - (b) Urban development in the local plan area is limited to land within the urban growth management boundary so as to protect and reinforce the character and identity of Eumundi, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the natural landscape values and productivity of surrounding land.
  - (c) Development retains the key landscape and built form elements that contribute to the setting, character and identity of Eumundi as a rural town with a strong sense of place and associations with the past.
  - (d) Development is designed and sited to protect significant environmental areas and significant views either to or from important landscape features and to reflect the physical characteristics and constraints of the land, including the protection of sensitive slopes, remnant vegetation and other ecologically important areas.
  - (e) The Eumundi Town Centre functions as a local (full service) activity centre meeting the local convenience needs of the local community and surrounding rural and rural residential areas and visitors to the area, and provides a focus for small scale retail, commercial and community activity.
  - (f) Whilst the business functions of Eumundi Town Centre may expand and be enhanced, the centre remains compact with any expansion limited to land included within the Local centre zone. Residents and visitors continue to rely upon larger centres such as Noosaville or Cooroy to fulfil higher order business and industry needs. Development for a supermarket does not result in more than one supermarket establishing within the local plan area or the size of the supermarket exceeding 1,000m² gross leasable floor area.
  - (g) The "country town" feel, traditional built form, heritage and *streetscape* character of the Eumundi Town Centre is retained and reinforced, with Memorial Drive enhanced as a wide, attractive and pedestrian friendly main street providing a focus for business uses and tourists. Development within the Local centre zone addresses the street and complements the traditional *streetscape* and building form.
  - (h) Markets, while an important local economic activity, do not physically or economically dominate the town or unduly influence the character of the town.
  - (i) Development in the Low density residential zone, including road and lot layouts and *streetscape*, reflects traditional rural town residential qualities such as low rise detached housing on large lots, open *streetscape* and mature street trees.

Note—land in the Low density residential zone at 21 Caplick Way, Eumundi (Lot 209 CG1888), is recognised as being potentially suitable for a *retirement facility* subject to adequate resolution of site constraints.

- (j) Development in the Medium density residential zone:
  - provides for a range of housing choices located with convenient access to the Eumundi Town Centre, public transport, parkland and community facilities;
  - (ii) provides for the preservation and adaptive re-use of locally significant historical buildings, where relevant;
  - (iii) provides good pedestrian and cycle connectivity to the town centre;
  - (iv) contributes to a high level of residential amenity and design quality consistent with the traditional rural character of Eumundi, the scale and character of the *streetscape* and surrounding development; and
  - (v) provides for building form which reflects the traditional Queensland style.

- (k) Development provides appropriate landscape buffering to the Bruce Highway and Eumundi-Noosa Road in order to effectively visually screen built form elements and maintain the visual amenity of these roads as scenic routes.
- (I) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.

# 7.2.10.4 Assessment criteria Performance outcomes and acceptable outcomes

	ance Outcomes ment in the Eumundi Local Plan Area Ge		Outcomes
PO1	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional rural town architectural character of Eumundi in terms of scale, siting, form, composition and use of materials.	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage or local character significance, including where identified on Figure 7.2.10A (Eumundi local plan elements).  Editor's Note – Section 8.2.9 (Heritage and
			character areas overlay code) sets out requirements for development on heritage places and in character areas.
		AO1.2	Buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.
		AO1.3	Roof forms use simple, traditional Queensland style roof designs including gable, hip, pitched or multiple gable roof forms.
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas, existing	AO2.1	Development provides for the retention of old stone retaining walls, historical landmarks, memorials and monuments.
character trees and a vegetation contribution character and sense	character trees and areas of significant vegetation contributing to the setting, character and sense of place of the Eumundi local plan area.	AO2.2	Development protects and emphasises and does not intrude upon the important views to Mount Eerwah and Cooroy Mountain and other views to surrounding rural and natural areas as identified on Figure 7.2.10A (Eumundi local plan elements).
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation that contributes to the streetscape character and vegetated backdrop to the town including:-  (a) the camphor laurel and fig trees along Memorial Drive; and (b) other character vegetation where identified on Figure 7.2.10A (Eumundi local plan elements).
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.

	the rural town character of, Eumundi.		incorporates architectural and landscape treatments and other design elements which enhance the sense of arrival to, and the rural village character of, Eumundi.
		AO3.2	Development enhances the visual appeal and sense of arrival into the town by planting street trees along Memorial Drive and Eumundi-Noosa Road.
		AO3.3	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO4	Development preserves the green buffer on the eastern side of the main street (Memorial Drive) and facilitates the provision of a linked system of open space and community facilities	AO4.1	Development protects and enhances the greenspace link where identified on Figure 7.2.10A (Eumundi local plan elements).
	connecting the sports grounds and show grounds, the Eumundi Town Square and Parklands, the old rail corridor north of the town centre, the Butter Factory and the wider Sunshine Coast open space system.	AO4.2	Development supports the clustering of community and open space recreation uses at the Eumundi Town Square and Parklands identified on the Figure 7.2.10A (Eumundi local plan elements).
PO5	Development improves local connectivity by providing improved through block pedestrian and cycle connections in particular between Memorial Drive and Napier Street.	AO5	Development provides for through block pedestrian and cycle links where identified on Figure 7.2.10A (Eumundi local plan elements).
PO6	Development provides for the reuse of the old rail corridor north of the town centre as <i>public open space</i> and a pedestrian/cycle link to and from the Butter Factory site.	AO6	No acceptable outcome provided.
PO7	Development retains the existing road pattern for entering and leaving Eumundi's main street, especially the curved northern end of Memorial Drive and the sharp curve of the road at the southern end.	A07	No acceptable outcome provided.
PO8	Development for a food and drink outlet does not:-  (a) provide for the establishment of a high volume convenience restaurant, or	AO8	No acceptable outcome provided.
	(b) incorporate a drive-through facility.

# 7.2.11 Forest Glen/Kunda Park/Tanawha local plan code

### 7.2.11.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Forest Glen/Kunda Park/Tanawha local plan area as shown on Map ZM31 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Forest Glen/Kunda Park/Tanawha local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.11.3 (Purpose and overall outcomes);
  - (b) Table 7.2.11.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.11A (Forest Glen/Kunda Park/Tanawha local plan elements).

### 7.2.11.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Forest Glen/Kunda Park/Tanawha local plan code.

The Forest Glen/Kunda Park/Tanawha local plan area is located centrally in the eastern part of the Sunshine Coast and has a land area of approximately 1,600 hectares.

Located on the foothills and western slopes of Buderim Mountain, the eastern and central parts of the local plan area are characterised by rolling to hilly terrain dissected by numerous ridgelines, creeks and drainage lines. In contrast, the northern, western and southern parts of the local plan area are relatively flat and form part of the Eudlo Creek and Mountain Creek plains.

A mosaic of native vegetation on the slopes and foothills of Buderim Mountain makes a significant contribution to the character of the local plan area and is also a defining feature of the 'green' appearance of the adjoining Buderim local plan area. Travellers along the Bruce Highway, Mons Road and the Tanawha Tourist Drive also enjoy the scenic qualities offered by this forested landscape setting.

This landscape also serves as habitat for a wide range of fauna species as well as a broad corridor for fauna movement.

A number of important urban areas are located on the northern and western margins of the local plan area, whilst the majority of the area is taken up with the large rural residential areas of Tanawha and Mons.

The Kunda Park Industrial Estate, located in the northern part of the local plan area adjacent to Maroochydore Road, is one of the Sunshine Coast's largest and most developed industry and enterprise areas.

The Forest Glen Industrial Area, located in the western part of the local plan area adjacent to the Bruce Highway, is an emerging industry and enterprise area that accommodates predominantly service and low impact type industries.

The Forest Glen Local Centre, located centrally within the Forest Glen Industrial Area, is a small local centre that includes a service station and a number of local shops. The local centre is laid out in a traditional main street configuration and provides a range of convenience goods and services that predominantly meet the needs of residents of surrounding rural and rural residential areas and visitors passing through the local plan area.

The large rural residential areas which occupy most of the local plan area offer a rural residential lifestyle in a bushland setting. A small residential estate is located adjacent to Maroochydore Road in the northern part of the local plan area.

The Sunshine Coast Grammar School is a significant educational establishment and community facility in the local plan area.

Part of the Buderim to Palmwoods Tramway that operated in the early twentieth century is preserved in a corridor located on the southern side of Mons Road. The tramway corridor is an element of cultural heritage significance.

The Bruce Highway, Maroochydore Road, Mons Road, the Tanawha Tourist Drive and Owen Creek Road are the major roads traversing or adjoining the boundaries of the local plan area.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage. These services are not available to the other parts of the local plan area and are not planned to be made available within the life of the planning scheme.

Residents of the Forest Glen/Kunda Park/Tanawha local plan area generally enjoy a quiet, relaxed lifestyle where surrounding open space, rural and bushland vistas and privacy are key features. The high level of accessibility to Buderim and other parts of the coastal urban area is also an important element of this lifestyle.

#### 7.2.11.3 Purpose and overall outcomes

- (1) The purpose of the Forest Glen/Kunda Park/Tanawha local plan code is to provide locally relevant planning provisions for the assessment of development within the Forest Glen/Kunda Park/Tanawha local plan area.
- (2) The purpose of the Forest Glen/Kunda Park/Tanawha local plan code will be achieved through the following overall outcomes:-
  - (a) The Forest Glen/Kunda Park/Tanawha local plan area is maintained predominantly as a rural and bushland rural residential area with important industry areas, major community facilities and other forms of urban development limited to nodes on the northern and western margins of the local plan area.
  - (b) Urban and rural residential development in the Forest Glen/Kunda Park/Tanawha local plan area is limited to land within the urban growth management boundary and rural residential growth management boundary respectively, so as to protect environmental areas, avoid land substantially constrained to development and provide for the efficient provision of infrastructure and services.
  - (c) The Forest Glen Local Centre enhances its role and function as a local (not full service) activity centre providing for the day to day needs of residents of and visitors to the local plan area.
  - (d) The main street configuration of the Forest Glen Local Centre is maintained and reinforced with buildings that address the street and contribute to the establishment of a coherent streetscape character along Mons Road and the Mons Road Exit from the Bruce Highway.
  - (e) Whilst development in the Local centre zone provides for the expansion and enhancement of business uses, residents continue to rely upon Buderim or other nearby larger centres to fulfil most of their business needs.
  - (f) Development in the Local centre zone and the adjacent Emerging community zone is designed to support the function of the Forest Glen Local Centre as a community hub and meeting place for the local community, providing a pedestrian friendly environment which is designed to promote community interaction.
  - (g) Development in the Emerging community zone north of Mons Road:-
    - (i) provides opportunities for the coherent and orderly expansion of the Forest Glen Local Centre with complementary small scale business activities, whilst maintaining the role and function of this centre as a local (not full service) activity centre;
    - (ii) provides an internal road and pedestrian network that enhances the functioning and legibility of the Forest Glen Local Centre; and
    - (iii) contributes to the upgrading of the external road network, particularly the intersections in the vicinity of the local centre.

- (h) Development in the Emerging community zone south of Mons Road provides for retirement facilities or other medium density residential uses that enjoy high levels of access to the Forest Glen Local Centre. Development in this part of the Emerging community zone contributes to the upgrading of the Mons Road/Owen Creek Road intersection and to improved pedestrian connections to the Forest Glen Local Centre.
- (i) Development retains identified sites in the Medium density residential zone for *retirement facilities* in order to preserve these sites for these uses in the future.
- (j) Development in the Rural residential zone retains the bushland character of the area and provides for lot layouts and buildings that sit lightly in the landscape with buildings that are low rise and cover a comparatively small area of the site, thereby leaving significant areas of retained native vegetation, landscaping and private open space.
- (k) Development in the Low impact industry zone and Medium impact industry zone provides for the continued development of the Kunda Park Industrial Estate and the Forest Glen Industrial Area as modern and visually appealing industry areas with a high standard of environmental performance and design.
- (I) The Sunshine Coast Grammar School continues to develop with built form elements and associated works limited to unconstrained parts of the site. Future stages of development are subject to improvements in vehicle access and circulation arrangements with a second campus access point provided to Mons Road (as opposed to Gardenia Place) so as to reduce congestion at the Bruce Highway exit road.
- (m) Development provides for the upgrading of existing roads and establishment of a new roads including:-
  - a north-south road corridor connecting the Sunshine Coast Grammar School and adjacent development to Mons Road, forming a four way intersection at Owen Creek Road; and
  - (ii) a secondary access road off Sandalwood Lane to service industrial land at this location.
- (n) Development protects the operational efficiency of the Bruce Highway, Maroochydore Road and associated exits and entry points to these *major roads*.
- (o) Development is set well back from the Bruce Highway and Maroochydore Road and incorporates landscape buffers or other landscape/urban design treatments to effectively screen undesirable elements of industrial development and provide an attractive and coherent streetscape that enhances the appearance and visual amenity of these major roads.
- (p) Development in the local plan area is supported by a network of open space that meets the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.
- (q) Development provides for the protection of remnants of the Buderim to Palmwoods Tramway and the extension of public pedestrian access along the former tramway route.

## 7.2.11.4 Assessment criteria Performance outcomes and acceptable outcomes

Table 7.2.11.4.1 Criteria-Performance outcomes and acceptable outcomes for assessable development

Performa	ance Outcomes	Acceptable Outcomes
Develop	ment in the Forest Glen/Kunda Park/Tana	nwha Local Plan Area Generally (All Zones)
PO1	Development provides for buildings, structures and landscaping that are consistent with and reflect the character of the Forest Glen/Kunda Park/Tanawha local plan area and integrate with the natural landscape and skyline <i>vegetation</i> in terms of scale, siting, form, composition and use of materials.	Development for a residential use, business use, community activity or an industrial use where fronting a major road provides for building design which incorporates the following features:-  (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing;

Performa	nce Outcomes	Acceptable	Outcomes
			<ul><li>(b) articulated, pitched, skillion or curved roof forms; and</li><li>(c) landscaping integrated into the building design.</li></ul>
		AO1.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.
		AO1.3	Development provides for existing mature trees to be retained and incorporated into the design of development.
PO2	Development contributes to the establishment of an attractive streetscape character along the frontage of the Bruce Highway and Maroochydore Road and enhances the landscape and visual amenity of other major roads in the local plan area.	AO2.1	Development adjacent to the Bruce Highway or Maroochydore Road, where identified on Figure 7.2.11A (Forest Glen/Kunda Park/Tanawha local plan elements), provides a minimum 10 metre wide mounded landscaped buffer along the full frontage of the road within the boundary of the lot.
		AO2.2	Development adjacent to Mons Road, Owen Creek Road, Tanawha Tourist Drive, Sandalwood Lane and Chevallum Road provides a minimum 3 metre wide landscape buffer along the full frontage of the road within the boundary of the lot.
PO3	Development provides for the retention and enhancement of key landscape elements including existing character trees and areas of significant <i>vegetation</i> contributing to the setting, character and sense of place of the Forest Glen/Kunda Park/Tanawha local plan area.	AO3	Development provides for the retention and enhancement of existing mature trees and character vegetation contributing to the vegetated setting and backdrop of the Forest Glen/Kunda Park/Tanawha local plan area including:  (a) bushland areas on the slopes of the Buderim escarpment;  (b) bushland areas along the Bruce Highway, Tanawha Tourist Drive, Owen Creek Road and Mons Road; and  (c) other character vegetation identified on Figure 7.2.11A (Forest Glen/Kunda Park/Tanawha local plan elements).
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO4	Development contributes to the establishment of an attractive and coherent <i>streetscape</i> character and gateways to enhance the character of, and sense of arrival to, Forest Glen, Buderim and other parts of the local plan area.	AO4.1	Development adjacent to an identified primary streetscape treatment area or gateway/entry point where identified on Figure 7.2.11A (Forest Glen/Kunda Park/Tanawha local plan elements):-  (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and character of, the Forest Glen local centre, and emphasise corner locations; and  (b) incorporates design elements such as varied roof forms, changes in materials and variations of projected and recessed elements and facades.
		AO4.2	Development provides for streetscape improvements which complement existing

			or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO5	Development provides for the retention	AO5	No acceptable outcome provided.
	of remnants of the Buderim to Palmwoods Tramway and the extension		
	of public pedestrian access along the		
	former tramway route via dedication of		
PO6	land or public easement.	AO6	No coorteble systems was ideal

### Figure 7.2.11A Forest Glen/Kunda Park/Tanawha local plan elements

## 7.2.12 Glass House Mountains local plan code

#### 7.2.12.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Glass House Mountains local plan area as shown on Map ZM50 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Glass House Mountains local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.12.3 (Purpose and overall outcomes);
  - (b) Table 7.2.12.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.12A (Glass House Mountains local plan elements).

#### 7.2.12.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Glass House Mountains local plan code.

The Glass House Mountains local plan area is located in the southern part of the Sunshine Coast on the North Coast Rail Line between Beerwah and Beerburrum. The local plan area includes the Glass House Mountains town centre and surrounding residential and rural residential areas and has a land area of approximately 474 hectares.

The local plan area is surrounded by a picturesque rural and natural landscape dominated by the National heritage listed Glass House Mountains and surrounding rural land used largely for crop farming and forestry. The landform of the local plan area is gently undulating. It is contained within the catchment of Coonowrin Creek, which traverses the local plan area in a south-west, north-east direction. Coonowrin Creek flows to the Pumicestone Passage and is subject to periodic local flooding.

The Glass House Mountains town centre, focused on Bruce Parade, Reed Street and the railway station, provides a range of convenience goods and services to meet the daily needs of the local community and visitors, including some service industry uses. A number of community facilities are located within the local plan area including a State primary school, neighbourhood centre, community hall, visitor and interpretive centre and sportsgrounds. Tourism opportunities within the local plan area are enhanced by its proximity to the Glass House Mountains National Park.

The residential areas within the local plan area are characterised by dwelling houses on large urban and rural residential size lots. Further opportunities for urban residential development are available to the south of Fullertons Road and Coonowrin Road.

Steve Irwin Way is the principal road link providing access to the town of Glass House Mountains and is subject to planned realignment and upgrade. Other major road links within the local plan area include Railway Parade, Coonowrin Road and Sahara Road. Coonowrin Road and Steve Irwin Way are identified haulage routes with heavy vehicles carrying extractive material frequently travelling these routes.

The Glass House Mountains railway station, located at the end of Reed Street, is of local heritage significance and functions as a commuter transfer station, providing park and ride facilities. The rail line between Beerburrum and Landsborough is planned to be subject to duplication, including upgrading of the Glass House Mountains railway station.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage. Reticulated water is also available to rural residential areas within the local plan area.

#### 7.2.12.3 Purpose and overall outcomes

- (1) The purpose of the Glass House Mountains local plan code is to provide locally relevant planning provisions for the assessment of development within the Glass House Mountains local plan area.
- (2) The purpose of the Glass House Mountains local plan code will be achieved through the following overall outcomes:-
  - (a) Glass House Mountains remains a small rural town with a heritage character, primarily servicing the local community and visitors to the area. Some expansion of local business and residential areas is provided for.
  - (b) Urban and rural residential development in the Glass House Mountains local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect and reinforce the character and identity of Glass House Mountains Township, provide for the efficient provision of *infrastructure* and services, avoid constrained land and environmentally significant areas and protect the character and productivity of surrounding rural land.
  - (c) Development retains the key landscape and built form elements that contribute to the setting, character and identity of the Glass House Mountains local plan area as a rural town with a strong sense of place and associations with the past.
  - (d) Development is designed and sited to protect significant environmental areas and significant views either to or from important landscape features, including Mount Ngungun and Mount Tibrogargan, and to reflect the physical characteristics and constraints of the land including avoiding flood prone areas and providing appropriate buffers to watercourses and rural uses.
  - (e) The Glass House Mountains Town Centre functions as a local (full service) activity centre providing a range of convenience goods and services to residents of the local plan area and surrounding rural and rural residential areas and visitors to the area, and provides a focus for small scale retail, commercial and community activity.
  - (f) Whilst the business functions of the Glass House Mountains Town Centre may expand and be enhanced, the centre remains compact with any expansion limited to land included within the Local centre zone. Residents of Glass House Mountains continue to rely upon larger centres such as Beerwah or Caloundra to fulfil higher order business and industry needs.
  - (g) Development provides for centre activities to be consolidated in the Local centre zone on the eastern side of the rail line, with the Local centre zone on the western side of the rail line retaining a service role supporting the main town centre and providing local convenience goods and services, complementary service industries and medium density residential development.
  - (h) The traditional built form and streetscape character of the Glass House Mountains Town Centre is retained and reinforced with Bruce Parade and Reed Street enhanced as wide, attractive and pedestrian friendly main streets. Development in the Local centre zone addresses the street and complements the traditional streetscape and building form.
  - (i) Development in the Medium density residential zone provides for the establishment of a range of medium density housing which contributes to a high level of residential amenity and design quality consistent with the rural character of the local plan area, the scale and character of the streetscape and surrounding development.
  - (j) Development in the Low density residential zone and Rural residential zone, including road and lot layouts and *streetscape*, reflects traditional rural town residential qualities such as low rise detached housing on large lots, open *streetscape* and mature street trees.
  - (k) Development provides appropriate landscape buffering to Steve Irwin Way in order to effectively visually screen built form elements and maintain the visual amenity of this road as a scenic route.
  - (I) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.

# 7.2.12.4 Assessment criteria Performance outcomes and acceptable outcomes

Table 7.2.12.4.1 Criteria-Performance outcomes and acceptable outcomes for assessable development

assessable development			
Performa	ince Outcomes	Acceptable	Outcomes
	ment in the Glass House Mountains Loca		
P01	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional rural town architectural character of Glass House Mountains local plan area in terms of form, composition and use of materials.	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage or local character significance, including where identified on Figure 7.2.12A (Glass House Mountains local plan elements).  Editor's Note—Section 8.2.9 (Heritage and character areas overlay code) sets out requirements for development on heritage places and in character areas.
		AO1.2	Where buildings of heritage or local character significance cannot be retained due to <i>infrastructure</i> upgrades, (i.e. the Neighbourhood Centre in Ryan Street, Community Hall in Coonowrin Road, and the Glasshouse Country RSL building and Lutheran Church in Reed Street), they are relocated to the community hub along Ryan Street.
		AO1.3	Buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.
		AO1.4	Development uses understated colour schemes and low-reflective roofing and cladding materials.
		AO1.5	Roof forms use simple, traditional Queensland style roof designs including gable, hip, pitched or multiple gable roof forms.
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas, existing	AO2.1	Development provides for the retention of historical landmarks, memorials and monuments.
	character trees and areas of significant vegetation contributing to the setting, character and sense of place of the Glass House Mountains local plan area.	AO2.2	Development protects and emphasises, and does not intrude upon, the important views to Mount Tibrogargan and Mount Ngungun, particularly from the town centre, and other views to surrounding rural and natural areas as identified on Figure 7.2.12A (Glass House Mountains local plan elements).
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation that contributes to the streetscape character and vegetated backdrop to the Glass House Mountains local plan area including:-  (a) mature Mango, African Tulip, Poinciana, Jacaranda, Coral, Tibouchina and Frangapani trees within the town centre;

Performa	ance Outcomes	Acceptable	Outcomes
	nce Outcomes		(b) the memorial Camphor Laurel on the corner of Reed Street and Bishop Street; (c) Ivory Curl Flower, Yellow Poinciana and Flindersia street trees and parkland trees; (d) stands of Eucalyptus trees adjacent to the Neighbourhood Centre, Uniting Park and the railway station car park; (e) vegetation along Bruce Parade; (f) bushland along the Local centre zone boundaries; (g) remnant vegetation along Coonowrin Creek and tributaries; and (h) other character vegetation where identified on Figure 7.2.12A (Glass House Mountains local plan elements).  Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO3	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the sense of entry and the rural town character of Glass House Mountains local plan area.	AO3.1	Development adjacent to a primary streetscape treatment area or gateway/entry point identified on Figure 7.2.12A (Glass House Mountains local plan elements) incorporates architectural and landscape treatments and other design elements which enhance the sense of arrival to, and the rural town character of, Glass House Mountains, and emphasise corner locations.  Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note — Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can be referenced from the Council's Infrastructure and Guideline Standards for each centre as required.
PO4	Development on land adjacent to Steve Irwin Way incorporates a dense landscape buffer to visually screen and soften built form elements and maintain and enhance the visual amenity of the road as a scenic route.	A04	Development provides a minimum 10 metre wide densely vegetated landscape buffer along Steve Irwin Way.  Editor's Note—Section 8.2.12 (Scenic amenity overlay code) sets out additional requirements in relation to development on scenic routes.
PO5	Development on land with frontage to Coonowrin Creek, or on land otherwise identified as a local ecological linkage on Figure 7.2.12A (Glass House Mountains local plan elements), facilitates the provision of the local ecological linkage.	AO5	No acceptable outcome provided.  Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.

	House Mountains local plan area; and (b) provides for the safe and effective treatment and disposal of effluent on-site where applicable.	AO13.2	Development provides for a street layout and configuration of lots that respects the existing open <i>streetscape</i> and provides for a linear street alignment that aligns with existing streets including where identified on Figure 7.2.12A (Glass House Mountains local plan elements).
		AO13.3	Development provides for subdivision design and landscaping which softens the visual impact of development, particularly when viewed from the town's main approach roads.
PO14	Reconfiguring a lot within the Low density residential zone and Rural residential zone:-  (a) provides for an interconnected system of local roads, pedestrian, cycle and open space links with adjoining land;  (b) avoids flood prone land;  (c) protects native vegetation areas and provides appropriate riparian buffers to Coonowrin Creek and tributaries; and  (d) provides an open feel and transition between the township and adjoining rural areas.	AO14	Reconfiguring a lot:-  (a) incorporates an interconnected internal road system, pedestrian, cycle and open space links including where identified Figure 7.2.12A (Glass House Mountains local plan elements);  (b) avoids land subject to flooding and drainage constraints;  (c) protects native vegetation and dedicates land for ecological purposes along waterways, where identified as a local ecological linkage on Figure 7.2.12A (Glass House Mountains local plan elements), that links to existing land in the Open space zone or Environmental management and conservation zone; and  (d) provides for larger lot sizes adjoining land in the Rural zone or Rural residential zone.
PO15	Development provides for an	AO15	A minimum separation distance of 500m
	appropriate separation distance from nearby intensive animal industries (poultry).		is provided from an existing or approved poultry shed to the nearest boundary of a residential lot.

# Figure 7.2.12A Glass House Mountains local plan elements

## 7.2.13 Golden Beach/Pelican Waters local plan code

### 7.2.13.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Golden Beach/Pelican Waters local plan area as shown on Map ZM46 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Golden Beach/Pelican Waters local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.13.3 (Purpose and overall outcomes);
  - (b) Table 7.2.13.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements).

### 7.2.13.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Golden Beach/Pelican Waters local plan code.

The Golden Beach/Pelican Waters local plan area is located in the south-eastern part of the Sunshine Coast and takes in a land area of approximately 1,275 hectares.

The local plan area is located on a coastal lowland plain on the edge of Pumicestone Passage. Lamerough Creek is the main waterway traversing the local plan area and Bells Creek adjoins the southern local plan area boundary. Except for the large environmental area located immediately to the west of Golden Beach, the local plan area has been largely cleared of native vegetation to accommodate coastal urban development.

Owing to its low lying topography a significant part of the local plan area is potentially at risk from acid sulfate soils and coastal hazards, including flooding and storm surge.

Pumicestone Passage is a significant environmental feature for the Sunshine Coast and South East Queensland more generally, and has values protected under State and Commonwealth legislation and international treaties. The State government, through the Environment Protection Policy (Water) 2009 specifically recognises the need to protect and substantially improve the environmental values of Pumicestone Passage and its tributaries.

The local plan area includes the residential communities of Golden Beach and Pelican Waters. Both of these neighbourhoods are generally characterised by dwelling houses on conventional sized lots and canal allotments.

Multi-storey residential development is located adjacent to the Esplanade at Golden Beach and in a small number of locations within Pelican Waters. A local shopping area is located at Landsborough Parade, Golden Beach and a district level centre is partially developed on Pelican Waters Boulevard.

Education, community and recreation facilities within the local plan area include the Golden Beach State Primary School, Caloundra City Private School, Pelican Waters Golf Club and the sporting fields on the western fringe of Golden Beach.

Recreation opportunities are also available along the foreshore park and reserve system that extends from Bells Creek in the south to Leach Park in the north and forms part of the Coastal Walk.

Golden Beach Esplanade/Landsborough Parade and Pelican Waters Boulevard are the main roads traversing and providing access to and from the local plan area. The proposed alignment of the Dedicated Public Transport Corridor (CAMCOS) traverses the north-western corner of the local plan area.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

#### 7.2.13.3 Purpose and overall outcomes

- (1) The purpose of the Golden Beach/Pelican Waters local plan code is to provide locally relevant planning provisions for the assessment of development within the Golden Beach/Pelican Waters local plan area.
- (2) The purpose of the Golden Beach/Pelican Waters local plan code will be achieved through the following overall outcomes:-
  - (a) The Golden Beach/Pelican Waters local plan area is a mature coastal urban area comprising the residential communities of Golden Beach and Pelican Waters.
  - (b) Urban development in the Golden Beach/Pelican Waters local plan area is limited to land within the urban growth management boundary so as to protect environmental areas, avoid land substantially constrained to development and provide for the efficient provision of infrastructure and services.
  - (c) The Pelican Waters District Centre is developed as a district level activity centre offering a wide range of business and community activities and servicing the weekly shopping needs of residents in the local plan area.
  - (d) The design and layout of development in the District centre zone integrates existing centre elements with a waterside retail and tourist area to be developed in the Emerging community zone (Pelican Waters Southern Lakes Area) and achieves high levels of connectivity between existing and future centre elements and activities.
  - (e) The Golden Beach Local Centre is retained as a local (not full service) activity centre providing for the day to day needs of residents of and visitors to the local plan area.
  - (f) The main street configuration of the Golden Beach Local Centre is maintained and reinforced with buildings that address the street and contribute to a coherent *streetscape* character.
  - (g) Whilst opportunities exist for the expansion and enhancement of business functions within the different centres within the local plan area, residents continue to rely upon the nearby Caloundra Major Regional Activity Centre and industrial areas for their higher order business needs and all industry needs.
  - (h) Development in the Emerging community zone (Pelican Waters Southern Lakes Area) is integrated with the existing Pelican Waters residential community and adjoining areas of Golden Beach and provides for the establishment of a mix of residential and non-residential uses in an urban village configuration.
  - (i) Development in the Emerging community zone (Pelican Waters Southern Lakes Area) achieves the following:-
    - establishment of a waterside retail and tourist area that is adjacent to, integrates with and complements the established shopping centre on Pelican Waters Boulevard and which incorporates uses that do not compete with the established shopping centre;
    - (ii) provision of a variety of lot sizes and housing types with an emphasis on multi-unit housing in a range of formats;
    - (iii) provision of the highest densities of housing in areas close to the Pelican Waters District Centre and the waterside retail and tourist area:
    - (iv) the extension of the Pelican Waters waterway system and the provision of other channels and small boat mooring facilities in a manner that is functionally efficient from a marine perspective, effectively addresses coastal hazards and is environmentally responsible;
    - (v) a high level of pedestrian permeability and connectivity with a walkable waterfront and the extension of the Coastal Path:
    - (vi) provision of a town square and an extensive waterfront park and reserve system;
    - (vii) a safe, permeable and functionally efficient street network; and
    - (viii) a contemporary coastal built form that epitomises sub-tropical design.

- (j) Development in the Emerging community zone (Pelican Waters Southern Lakes Area) occurs within existing and planned *infrastructure* capacities.
- (k) Development in the Emerging community zone (Pelican Waters Golf Course) provides for the establishment of a high amenity urban residential village in an attractive, open space setting.
- (I) Development in the Emerging community zone (Pelican Waters Golf Course):-
  - comprehensively addresses physical and environmental constraints and mitigates any adverse impacts;
  - (ii) provides for a variety of housing types and densities, with a generally low-rise building form;
  - (iii) does not compromise or interfere with the use of the balance of the golf course site for sport and recreation and environmental open space purposes;
  - (iv) provides an attractive and functional interface to the surrounding open space;
  - (v) provides a high level of pedestrian permeability and connectivity; and
  - (vi) is in accordance with an infrastructure agreement between the developer and *Council* which provides for the *infrastructure* necessary to service the development, ecological areas to be dedicated to *Council* and remaining parts of the golf course to be preserved as open space into perpetuity.
- (m) Development in other residential areas, including areas in the Low density residential zone, Medium density residential zone, High density residential zone and Tourist accommodation zone provides for high quality residential buildings that reflect a beachside setting, with development having a form, scale and level of intensity that minimises its visual impact on the Pumicestone Passage waterfront and views of the Glass House Mountains from Caloundra.
- (n) The natural and environmental qualities of Pumicestone Passage, Bells Creek and Lamerough Creek are maintained including the protection and enhancement of significant *vegetation* adjacent to these *waterways*.
- (o) The major open space links and scenic qualities offered by the foreshore park and reserve system are protected and enhanced with the open space network extended through the Pelican Waters Southern Lakes Area with the provision of a walkable waterfront, waterfront parks and extensions to existing parks.
- (p) Development does not compromise the provision or operation of the proposed Dedicated Public Transport Corridor (CAMCOS) or the proposed east-west connector road linking Pelican Waters Boulevard with the Caloundra South Priority Development Area. Areas adjacent to the Dedicated Public Transport Corridor (CAMCOS) included in the Environmental conservation and management zone are retained for their environmental, acoustic and visual buffering value.

#### 7.2.13.4 Assessment criteria Performance outcomes and acceptable outcomes

Table 7.2.13.4.1 Criteria-Performance outcomes and acceptable outcomes for assessable development

Performa	Performance Outcomes		Outcomes
Develop	ment in the Golden Beach/Pelican Water	Area Generally (All Zones)	
PO1	Development provides for buildings, structures and landscaping that are consistent with and reflect and enhance the coastal urban character of Golden Beach and Pelican Waters.	AO1.1	Development provides for building design which incorporates the following features:- (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing; (b) articulated, pitched, skillion or curved roof forms; (c) open or transparent balustrades; and
		AO1.2	(d) landscaping integrated into the building design.  Development uses understated colour
			schemes and low-reflective roofing and

PO2	Development contributes to the establishment of coherent and attractive <i>streetscapes</i> and gateways to enhance the sense of entry and the coastal urban character of Golden Beach and Pelican Waters.	Acceptable AO2.1	cladding materials.  Development adjacent to an identified primary streetscape treatment area,
PO2	establishment of coherent and attractive <i>streetscapes</i> and gateways to enhance the sense of entry and the coastal urban character of Golden	AO2.1	Development adjacent to an identified
	Bodon and Tolloan Walore.		boulevard treatment area or gateway/entry point where identified on Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements):-  (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the coastal urban character, of the local plan area, and emphasise corner locations; and  (b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO2.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can be referenced from the Council's Infrastructure and Guideline Standards for each centre as required.
PO3	Development protects the important sightlines from Bulcock Beach and elevated positions in the Caloundra local plan area to the Glass House Mountains.	AO3	No acceptable outcome provided.
PO4	Development provides for the retention and enhancement of key landscape elements including significant views and vistas and areas of significant vegetation contributing to the setting, character and sense of place of Golden Beach and Pelican Waters.	AO4	Development protects and emphasises, but does not intrude upon, the significant views to Pumicestone Passage and other views and vistas to surrounding natural areas identified on Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements).
PO5	Development provides for a continuous pedestrian, cycle and open space (greenspace) link along the Pumicestone Passage foreshore and Bells Creek to the Pelican Waters Golf Course.	AO5.1	Development integrates with and extends the coastal path where identified on the Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements).  Development protects and enhances the greenspace link where identified on the Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements).
PO6	Development on land with frontage to Bells Creek and tributaries or on land otherwise identified as a local ecological linkage on Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements) facilitates the provision of a local ecological linkage connecting Pumicestone Passage to core habitat areas in the west of the local plan area.  Development does not compromise the	A06	No acceptable outcome provided.  Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.  No acceptable outcome provided.

Performa	ince Outcomes	Acceptable	Outcomes
	future provision and operation of		
	transport networks including:- (a) the Dedicated Public Transport		
	Corridor (CAMCOS); and		
	(b) the proposed east-west connector road linking Pelican Waters		
	Boulevard with the Caloundra		
	South Priority Development Area.

. 5.5	provides for small scale uses and	7010	140 acceptable outcome provided.
	mixed uses that:-		
	(a) support the role and function of the Golden Beach Local Centre as		
	a local (not full service) activity		
	centre; and		
	(b) provide convenience goods and services to local residents and		
	visitors.		

Performa	ince Outcomes	Acceptable 4 1	Outcomes
Performa PO11	Development in the Local centre zone:  (a) is sympathetic to the coastal village character of the Golden Beach Local Centre;  (b) contributes to the creation of a contemporary coastal built form and streetscape;  (c) creates vibrant and active streets and public spaces;  (d) provides continuous weather protection for pedestrians; and  (e) provides integrated and functional parking and access arrangements that do not dominate the street.	Acceptable AO11	Development in the Local centre zone:-  (a) respects the layout, scale (including height and setback) and character of development on adjoining sites;  (b) provides primary active street frontages built to the front property boundary, where identified on Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements);  (c) provides all weather protection in the form of continuous cantilevered awnings and/or light verandah structures with non-load bearing posts over footpath areas in conjunction with mature or semimature shade trees planted along the site frontage adjacent to the kerbside;  (d) has buildings overlooking the street;  (e) ensures that signage is integrated with the building;  (f) includes the provision of landscaping, shaded seating and consistent and simple paving materials on footpaths;  (g) provides for off-street car parking to be provided in shared parking areas behind buildings; and  (h) provides for kerb crossovers and driveways (other than where required to provide access to an off-street car parking area) to be removed to increase available on-street car parking.
PO12	ment in the Medium Density Residential  Development in that part of the Medium density residential zone between Burke Street and Earnshaw Street is compatible with the predominantly detached residential character of this part of Golden Beach.	Zone AO12	The layout and design of development ensures that:-  (a) buildings have the appearance of one or more individual buildings on the <i>site</i> with each building being the scale of a <i>dwelling house</i> ;  (b) buildings step down in height for that part of a building within 4 metres of a side property boundary shared with a <i>dwelling house</i> ;  (c) buildings have living rooms and <i>dwelling</i> entries oriented to the street; and  (d) buildings are set within densely landscaped grounds that preserve key view lines.
Develop	ment in the Emerging Community Zone (	Pelican Wate	
PO13	Development in the Emerging community zone (Pelican Waters Southern Lakes Area) occurs within existing and planned <i>infrastructure</i> capacities and does not exceed a total population of 4,500 persons.	AO13	No acceptable outcome provided.
PO14	Development in the Emerging community zone (Pelican Waters Southern Lakes Area):- (a) is integrated with the existing Pelican Waters residential community and adjoining areas of Golden Beach;	AO14	No acceptable outcome provided.  Note—Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements) identifies local structure planning elements for the Pelican Waters Southern Lakes Area including a local road network, bus routes,

coastal built form that epitomises		
sub-tropical design.	(Delicen Wet	ters Southern Lakes Area – (Focal Tower
nent)	(Pencan Wat	ers Southern Lakes Area - (Focal Tower
Development in the Emerging community zone (Pelican Waters Southern Lakes Area) provides for the establishment of not more than one focal tower.	AO15	No acceptable outcome provided.
Focal tower development:-  (a) respects and responds to its setting;	AO16.1	The maximum height of the focal tower does not exceed 30 metres.
<ul> <li>(b) integrates with surrounding development;</li> <li>(c) is visually interesting;</li> <li>(d) has building elevations that visually balance the height of the</li> </ul>	AO16.2	The focal tower is provided generally in the location identified on Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements).
building;  (e) minimises the appearance of building bulk;  (f) incorporates an attractively designed rooftop;  (g) incorporates high quality and climatically responsive architectural design and landscaping; and  (h) does not cause overshadowing of public spaces or living areas in other residential premises.	AO16.3	The focal tower incorporates most or all of the following design elements:-  (a) variations in plane shape, such as curves, steps, recesses, projections or splays;  (b) variations in vertical profile, with steps or slopes at different levels;  (c) variations in the treatment and patterning of windows, sun protection devices or other elements of the facade;  (d) elements of a finer scale than the main structural framing;  (e) balconies, verandahs and terraces; and  (f) planting at any or all levels, particularly on podiums or lower level roof decks.
	AO16.4	The focal tower is <i>setback</i> from street front property boundaries in accordance with the following:-  (a) at least 8 metres for building walls; and  (b) at least 4 metres for balconies, eaves, awnings, garden structures and the like.
	AO16.5	The focal tower has a building roof top that contributes to the architectural distinction of the building with service structures and mechanical plant designed as part of the building or effectively screened from view.
nent in the Emerging Community Zone	(Pelican Wa	ters Southern Lakes Area – Open Space
Development in the Emerging community zone (Pelican Waters Southern Lakes Area) provides for a public open space network that:-  (a) meets the open space and recreational needs of residents and visitors to the local plan area;  (b) provides a range of open space settings including a town square, district and local recreation and sports parks and a walkable waterfront;	AO17.1	Development in the Emerging community zone (Pelican Waters Southern Lakes Area) provides for the following public open space areas to be established:-  (a) a town square at least 1 hectare in area in a waterfront location within or proximate to the district activity centre located adjacent to the future waterway and along the walkable waterfront;  (b) 2 district recreation parks;  (i) one being centrally located
settin distric sports water	gs including a town square, ct and local recreation and s parks and a walkable	gs including a town square, of and local recreation and sparks and a walkable front;

Performa	nce Outcomes			Acceptable	Outcomes
	waterfront				District Centre and at least 3 hectares in area; and (ii) one being an extension to
	(e) is a focus	; and and source community.	of pride for		<ul> <li>(ii) one being an extension to Jensen Park with a minimum total area, including the established Jensen Park, of 5 hectares;</li> <li>(c) 1 district sporting park (sporting fields) at least 5 hectares in area;</li> <li>(d) 1 local recreation park at least 1 hectare in area, located in the southwestern part of the Pelican Waters Southern Lakes Area;</li> <li>(e) sufficient other local recreation parks and open space to meet the needs of the development and integrate with existing open space in other parts of the local plan area; and</li> <li>(f) a walkable waterfront at least 6 metres wide:-</li> <li>(i) linking the Pelican Waters Tavern, Shopping Centre and town centre sites; and</li> <li>(ii) linking the town centre to the central pedestrian spine through the Pelican Waters Southern Lakes Area.</li> </ul>
				AO17.2	Open space is provided generally in the locations identified on Figure 7.2.13A (Golden Beach/Pelican Waters local plan elements).
				AO17.3	Open space is provided in locations that maximise its visibility to both the resident and visitor population with <i>park</i> areas proximate to key focal points and areas of community interaction.
				AO17.4	Open space is convenient to its intended user, both in terms of ease of access and in meeting the user's recreational and amenity needs.
				AO17.5	Open space is planned and designed for multi-functional usage, affording a range of recreational opportunities and provides a standard of landscape amenity satisfactory to cater for a wider user population, and provide flexibility to meet changes in future usage.
				AO17.6	Recreational opportunities associated with man-made waterways are maximised through the provision of suitable areas and facilities to enable public access.
				AO17.7	Development provides for public pedestrian and cycle links between residential areas and public waterfront open space areas including walkways, bike paths, jetties and boat ramps.
		erging Comn	nunity Zone	(Pelican Wa	nters Southern Lakes Area – Community

# Figure 7.2.13A Golden Beach/Pelican Waters local plan elements

# 7.2.14 Kawana Waters local plan code

### 7.2.14.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Kawana Waters local plan area as shown on Map ZM35 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Kawana Waters local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.14.3 (Purpose and overall outcomes);
  - (b) Table 7.2.14.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.14A (Kawana Waters local plan elements).

### 7.2.14.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Kawana Waters local plan code.

The Kawana Waters local plan area is located in the south eastern part of the Sunshine Coast and includes the coastal urban communities of Kawana Waters, including the established beachside neighbourhoods of Buddina, Minyama, Warana, Wurtulla, Bokarina and Parrearra, that part of Mountain Creek south of the Sunshine Motorway including the community of Hideaway Waters, and the emerging community of Brightwater.

The local plan area also includes Kawana Shoppingworld and the strip commercial and showroom area that extends along a significant length of the Nicklin Way. A number of small local business centres that provide local services to residents are located primarily at nodes along the Nicklin Way. An industrial area is located centrally in the local plan area providing industrial services and employment.

A significant part of the local plan area has, and continues to be, developed as part of the Kawana Waters master planned community (Kawana Waters Community Development Area), including the proposed Kawana Town Centre, Sunshine Coast University Hospital, the Homemaker Centre, the Kawana business village, the Bokarina Beach site and the newer residential areas of Kawana Island, Kawana Forest, Creekside, Birtinya and parts of Parrearra. It also includes Lake Kawana which contributes to the waterside setting of the area and includes a regionally significant rowing course. These areas are subject to Development Control Plan 1 Kawana Waters and do not form part of this local plan code. The local plan area has a land area of approximately 2,485 hectares.

The Kawana Waters local plan area is located on a low sand dune system and coastal floodplain within the Mooloolah River catchment. As a result, most of the local plan area is relatively flat and close to sea level. The landform and landscape of the local plan area have been altered over time, with much of the existing development based on canal systems linked to Mooloolah River and Currimundi Lake. The local plan area is framed by a picturesque natural setting including the Mooloolah River National Park and Birtinya Wetlands in the west, the Mooloolah River in the north, Currimundi Creek, Currimundi Lake and Kathleen McArthur Conservation Park in the south and Kawana Beach and the Pacific Ocean in the east.

Most of the local plan area is currently developed for residential housing or committed to development for residential housing. In existing developed areas, dwelling houses are the dominant housing form with dual occupancies and multi-unit accommodation also established in a number of locations. Emerging urban areas including Brightwater are planned as integrated communities accommodating a variety of housing types as well as local businesses and community facilities.

Significant community and sporting facilities within the local plan area include Sunshine Coast Stadium, Kawana Library and Community Centre, Bokarina and Buddina State Primary Schools, Kawana Waters State High School, Kawana Surf Club, Kawana Bowls Club and Lake Kawana Community Centre. Major parks in the area include the Point Cartwright Lighthouse and Scenic Reserve, Jessica Park and La Balsa

Park. The coastal foreshore area and coastal path provides an important continuous pedestrian, cycle and open space link from the mouth of the Mooloolah River to Currimundi Lake.

Principal roads in the local plan area include Nicklin Way, Kawana Way, Point Cartwright Drive, Oceanic Drive, Kawana Island Boulevard, Main Drive, Lake Kawana Boulevard and Creekside Boulevard. Nicklin Way is one of the Sunshine Coast's major north-south road connections and has a significant influence on the character and identity of the local plan area.

Several proposed transport corridors traverse the local plan area, including the Dedicated Public Transport Corridor (CAMCOS) linking the North Coast Rail Line at Beerwah to Maroochydore, the Sunshine Motorway extension linking Caloundra Road with the Sunshine Motorway, the CoastConnect Priority Public Transport and Bicycle Corridor along the Nicklin Way.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

#### 7.2.14.3 Purpose and overall outcomes

- (1) The purpose of the Kawana Waters local plan code is to provide locally relevant planning provisions for the assessment of development within the Kawana Waters local plan area.
- (2) The purpose of the Kawana Waters local plan code will be achieved through the following overall outcomes:-
  - (a) Kawana Waters is a diverse coastal urban area comprising a number of mature and emerging residential communities, supported by a proposed major regional activity centre at Kawana Town Centre and district activity centre in the vicinity of Kawana Shoppingworld, as well as the Sunshine Coast University Hospital, an industrial area and significant community, sport and recreation facilities.
  - (b) Opportunities for transit oriented development are maximised, particularly within and adjacent to the Kawana Town Centre (Kawana Waters Community Development Area) and at designated nodes along the CoastConnect Priority Public Transport Corridor in accordance with relevant zonings.
  - (c) Urban development in the Kawana Waters local plan area is limited to land within the urban growth management boundary so as to protect environmental areas and landscape values and provide for the efficient provision of *infrastructure* and services.
  - (d) Development in the District centre zone supports the role and function of the Kawana Shoppingworld and nearby business areas as a district activity centre providing retail, commercial, community, entertainment (other than a theatre being a cinema) and tourist uses predominantly servicing the needs of residents and visitors in the northern part of the local plan area. Development in the District centre zone provides for limited expansion of retail and commercial uses within the District centre zone in a manner which does not detract from the intended functioning of the planned major regional activity centre at Kawana Town Centre.
  - (e) In order to protect the intended functioning of the planned major regional activity centre at Kawana Town Centre and the <u>Sunshine Coast activity centre network</u>, development in the District centre zone:-
    - (i) provides for:-
      - (A) the total *gross leasable floor area* for retail and commercial uses to not exceed 40,000m² in Precinct KAW LPP-1 (South of Point Cartwright Drive); and
      - the gross leasable floor area of any single retail tenancy to not exceed 1,000m<sup>2</sup> in Precinct KAW LPP-2 (North of Point Cartwright Drive); and
    - (ii) does not provide for the following higher order uses:-
      - (A) a department store;
      - (B) a discount department store; or
      - (C) a theatre (being cinemas).
  - (f) Development in the District centre zone in Precinct KAW LPP-1 (South of Point Cartwright Drive) in the vicinity of Kawana Shoppingworld provides for an integrated, high quality design which minimises building bulk and provides an attractive interface to Nicklin Way, Point Cartwright Drive and adjoining residential areas. Development provides safe and efficient vehicular access and enhances pedestrian connectivity.

- (g) Development in the District centre zone in Precinct KAW LPP-2 (North of Point Cartwright Drive) provides for high quality *mixed use development* which enhances the amenity of the area and recognises the existing amenity of adjoining residential areas to the north and west. Development in this precinct provides an attractive and publicly accessible interface to Kawana Waters Canal and maintains public views to the waterway. Active or semi-active street *frontages* are provided at the ground *storey* to encourage movement and interaction between private development, the adjacent waterway and surrounding streets. Such development is supported by resident and visitor accommodation above the ground *storey*.
- (h) Development in the District centre zone in Precinct KAW LPP-3 (Nicklin Way North Minyama) provides for predominantly office and health related uses with limited retail uses in accordance with Table 7.2.14.4.2 (Kawana Waters supplementary table of consistent uses and potentially consistent uses in the District centre zone). Development presents an attractive appearance to Kawana Waters Canal, adjoining residential areas and all road frontages, especially Nicklin Way.
- (i) Development in the Local centre zone supports the role and function of the local business areas, including those located at nodes along the Nicklin Way, and in Buddina, and Hideaway Waters, as local (not full service) activity centres servicing the basic convenience needs of residents and visitors. Development in the Local centre zone provides for the expansion and enhancement of business uses; however such development does not extend beyond the boundaries of this zone.
- (j) Development in the Specialised centre zone provides for improved and expanded comparison shopping functions predominantly in the form of *showrooms* and bulky goods retailing.
- (k) Development in the Specialised centre zone and Local centre zone provides for a high standard of building and landscape design quality which minimises building bulk, improves pedestrian connectivity, promotes community interaction and provides a high quality presentation to Nicklin Way and other local roads.
- (I) Development in Precinct KAW LPP-4 (Buddina Urban Village) provides for the creation of the Buddina Urban Village linking Kawana Shoppingworld to Kawana Waters Surf Lifesaving Club by a public pedestrian way and providing active *frontages* which encourage movement and interaction between the district activity centre and the adjacent foreshore areas. Development at this location provides for higher density residential accommodation in the form of permanent and visitor accommodation buildings and *multiple dwellings*. In response to the fragmented nature of existing land holdings, higher density residential development is sited within large, integrated development nodes.
- (m) Development in the Medium density residential zone:-
  - (i) provides for a range of housing choices located at nodes with convenient access to centres and/or local business areas, public transport and community facilities; and
  - (ii) contributes to a high level of residential amenity and design quality consistent with the scale and character of the *streetscape* and surrounding development.
- (n) Development in the Medium density residential zone at Nicklin Way, Warana and Regatta Boulevard, Wurtulla provides a high quality presentation to Nicklin Way and is designed to ensure the acoustic, visual and traffic impacts of Nicklin Way are minimised.
  - Note—Precinct KAW LPP-6 (Regatta Boulevard Wurtulla) is strategically located on the Nicklin Way transit corridor and is recognised as a potential key development area.
- (o) Brightwater continues to be developed as an integrated residential community. Development contributes to the establishment of a walkable, integrated residential community providing a mix of dwelling types supported by a local (full service) activity centre providing convenience shopping and local commercial uses, as well as a range of community facilities and large areas of open space.
- (p) Development in the Low density residential zone at Minyama Island maintains the low density character and amenity of this area by providing for any residential lot to be a minimum of 1,500m² in area.
- (q) Industrial development is contained in the Medium impact industry zone, which is progressively developed as a modern industrial estate. Development in this zone maintains a

high standard of building and landscaping design and an attractive waterfront address to Parrearra Lake.

- (r) The transport network is progressively upgraded to meet the needs of the local plan area and to reduce traffic pressure on Nicklin Way. Development does not compromise the provision and operation of the proposed Sunshine Motorway extension, Dedicated Public Transport Corridor (CAMCOS) or the CoastConnect Priority Public Transport and Bicycle Corridor.
- (s) Development is designed and sited to protect and enhance the natural environmental and scenic values of the local plan area including wetland, dunal systems and riparian vegetation associated with major open space links along the coastal foreshore, Currimundi Creek, Mountain Creek and the Mooloolah River.
- (t) Development is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area. The coastal foreshore area provides an important continuous pedestrian, cycle and open space link, from the mouth of the Mooloolah River to Currimundi Lake.

### 7.2.14.4 Assessment criteria Performance outcomes and acceptable outcomes

Performa	ince Outcomes	Acceptable	Outcomes
Develop	ment in the Kawana Waters Local Plan A	rea Generall	y (All Zones)
PO1	Development provides for buildings, structures and landscaping that are consistent with and reflect and enhance the coastal urban character of the Kawana Waters local plan area.	AO1.1	Development for a residential, business or community activity provides for building design which incorporates the following features:- (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing; (b) articulated, pitched, skillion or curved roof forms; (c) open or transparent balustrades; and (d) landscaping integrated into the building design.
		AO1.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.
		AO1.3	Development provides for existing mature trees to be retained and incorporated into the design of development.
PO2	Development contributes to the establishment of attractive and coherent streetscapes and gateways to:-  (a) enhance the sense of entry to, and the coastal urban character of, the Kawana Waters local plan area;  (b) enhance the landscape and visual amenity of Nicklin Way to better define the boundaries of individual neighbourhoods; and  (c) enhance the landscape and visual amenity of other major roads in the local plan area.	AO2.1	Development adjacent to a primary streetscape treatment area or gateway/entry point where identified on Figure 7.2.14A (Kawana Waters local plan elements), or with frontage to Nicklin Way or Point Cartwright Drive:- (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the coastal urban character of, the local plan area and emphasise corner locations; and (b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO2.2	Development provides for streetscape

Performa	ance Outcomes	Acceptable	Outcomes
			improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can be referenced from the Council's Infrastructure and Guideline Standards for each centre as required.
PO3	Development provides through block pedestrian linkages which:-  (a) are located to reflect the desire lines of pedestrian movement between major points of attraction and public spaces;  (b) provide a safe alternative to the street based pedestrian and cycle movement network; and  (c) provide a comfortable pedestrian environment in terms of access, width, shelter, materials and function.	AO3	Development provides through block pedestrian linkages where identified on Figure 7.2.14A (Kawana Waters local plan elements).
PO4	Development provides for a continuous pedestrian and cycle link along the coastal foreshore from the mouth of the Mooloolah River to Currimundi Lake.	AO4	Development integrates with and extends the coastal path where identified on the Figure 7.2.14A (Kawana Waters local plan elements).
PO5	The major open space links and scenic qualities offered by the foreshore park and reserve system along the coastline, and wetland areas and remnant vegetation along Currimundi Creek, Currimundi Lake, Mountain Creek and the Mooloolah River, are protected and enhanced.	AO5.2	Development protects and enhances the greenspace link where identified on the Figure 7.2.14A (Kawana Waters local plan elements).  Development provides for the retention and enhancement of native vegetation adjacent to the foreshore, Currimundi Creek, Currimundi Lake, Mountain Creek and the Mooloolah River.
PO6	Development on land with frontage to the Mooloolah River and Currimundi Creek, or on land otherwise identified as a local ecological linkage on Figure 7.2.14A (Kawana Waters local plan elements), facilitates the provision of the local ecological linkage.	AO6	No acceptable outcome provided.  Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO7	Development does not compromise the future provision and operation of transport networks including:-  (a) the Dedicated Public Transport Corridor (CAMCOS), linking the North Coast Rail Line at Beerwah to Caloundra, Kawana Waters and Maroochydore;  (b) the Sunshine Motorway extension linking Caloundra Road with the Sunshine Motorway; and  (c) the Maroochydore to Caloundra Priority Public transport and Bicycle corridor along the Nicklin Way.	AO7	No acceptable outcome provided.

Performa	ance Outcomes	Acceptable	Outcomes
	ment in the District Centre Zone General		
PO8	Development in the District centre zone provides for small to medium scale uses and mixed uses that:-  (a) support the role and function of the Kawana Shoppingworld and nearby business areas as a district activity centre;  (b) provide a wide range of goods and services to residents and visitors; and  (c) are of a nature and scale which does not compromise the intended role and function of the proposed Kawana Town Centre or the Sunshine Coast Aactivity Ccentre network generally.	AO8	No acceptable outcome provided.
PO9	Development in the District centre zone	AO9	No acceptable outcome provided.
	provides for:-  (a) the total gross leasable floor area for retail and commercial uses to not exceed 40,000m² in Precinct KAW LPP-1 (South of Point Cartwright Drive) identified on Local Plan Map LPM35; and  (b) the maximum gross leasable floor area of any single retail tenancy to not exceed 1,000m² in Precinct KAW LPP-2 (North of Point Cartwright Drive) identified on Local Plan Map LPM35.		
PO10	Development in the District centre zone does not provide for the following higher order uses:- (a) a department store; (b) a discount department store (other than the one already existing at commencement of the planning scheme); or (c) a theatre (being cinemas).	AO10	No acceptable outcome provided.
PO11	Development in the District centre zone:-  (a) improves the functional relationships that exist between different parts of the centre;  (b) contributes to the creation of a contemporary coastal built form;  (c) creates a coherent streetscape and vibrant and active streets and public spaces; and  (d) provides continuous weather protection for pedestrians along active or semi-active street front areas.	AO11	Development in the District centre zone:-  (a) creates a more pedestrian friendly internal and external street environment which effectively links the different parts of the centre;  (b) reduces the dominance of signage elements along the Nicklin Way and Point Cartwright Drive site frontages;  (c) creates a more contemporary built form and landscape character that is compatible with a coastal urban setting;  (d) provides for new or extended large floor plate retail uses to be sleeved and located behind smaller scale, fine grain built form elements;  (e) provides primary active street frontages, built to boundary, where identified on Figure 7.2.14A (Kawana Waters local plan elements);  (f) provides for any residential uses to be effectively integrated with business uses;  (g) has building openings overlooking the street;

#### Figure 7.2.14A Kawana Waters local plan elements

<Figure to be inserted>

#### 7.2.15 Kenilworth local plan code

#### 7.2.15.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Kenilworth local plan area as shown on Map ZM14 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Kenilworth local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.15.3 (Purpose and overall outcomes);
  - (b) Table 7.2.15.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.15A (Kenilworth local plan elements).

#### 7.2.15.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Kenilworth local plan code.

The Kenilworth local plan area is located in the far western part of the Sunshine Coast adjacent to the Mary River. The local plan area comprises the small rural town of Kenilworth and adjacent urban and rural residential areas as well as rural land immediately surrounding the town. The local plan area has a land area of approximately 183 hectares.

The Kenilworth local plan area is set in a picturesque rural and natural landscape with the Mary River, Kenilworth Bluff and Kenilworth State Forest key features within this landscape setting.

Kenilworth is a small rural town providing important business, community, social, and recreational facilities to service the local level needs of its resident population as well as the needs of rural communities in and around the Mary River Valley and the significant number of visitors attracted to the area.

Kenilworth's character is derived from its picturesque landscape setting, unique heritage, traditional main street and building designs, and laid back 'country town' atmosphere. The town centre focussed on Elizabeth Street offers a variety of shops, cafes, art galleries and other local businesses as well as the heritage listed Kenilworth Hotel. The local plan area also contains the Kenilworth Cheese Factory, an important economic and tourist asset for the town and the region. Adjacent to the cheese factory, the town park provides a valued recreation area for residents and rest area for visitors. Kenilworth retains strong connections with its history, with a number of significant local heritage places contained within the local plan area. The towns' location close to large areas of State Forest and conservation areas means it provides an ideal base for forest related recreation activities.

The residential areas of the local plan area are characterised by relatively large urban lots that add to the low density rural character. Detached housing is typically of traditional Queensland style. Further opportunities for urban and rural residential expansion are available within the local plan area and it is intended that these areas are developed in keeping with the rural character of the town.

Rural lands within the local plan area are constrained in the east by flooding and in the west by slope and also contribute to the scenic amenity and character of the local plan area.

Eumundi-Kenilworth Road, Maleny-Kenilworth Road and Kenilworth-Brooloo Road are major road links within the local plan area.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

#### 7.2.15.3 Purpose and overall outcomes

- (1) The purpose of the Kenilworth local plan code is to provide locally relevant planning provisions for the assessment of development within the Kenilworth local plan area.
- (2) The purpose of the Kenilworth local plan code will be achieved through the following overall outcomes:-
  - (a) Kenilworth remains a small rural town with a distinct heritage character, primarily servicing the local community and tourist industry. Some expansion of local business, employment, residential and rural residential areas is provided for.
  - (b) Urban and rural residential development within the Kenilworth local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect and reinforce the character and identity of Kenilworth, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the character and productivity of surrounding rural land.
  - (c) Development retains the key landscape and built form elements that contribute to the setting, character and identity of the Kenilworth local plan area as a rural town with a strong sense of place and associations with the past.
  - (d) The Kenilworth Town Centre functions as a local (full service) activity centre meeting the convenience needs of the local community and surrounding rural areas and visitors to the area and provides a focus for small scale retail, commercial and community activity. Mixed uses and uses which enhance the "country town" character and rural service role of the town are established within the town centre, such as small scale rural service industries and business incubator uses, as well as small scale tourist facilities and enterprises.
  - (e) The retail and commercial functions of Kenilworth Town Centre are given the opportunity to expand and be enhanced; however the town centre remains compact with any expansion and enhancement limited to land included within the Local centre zone. Residents of Kenilworth continue to rely upon larger centres such as Maleny or Nambour to fulfil higher order business and industry needs.
  - (f) The "country town" feel, traditional built form, heritage and *streetscape* character of the Kenilworth Town Centre is retained and reinforced, with Elizabeth Street enhanced as a wide, attractive and pedestrian friendly main street. Development within the Local centre zone addresses the street and complements the traditional *streetscape* and building form.
  - (g) Industrial development remains small scale and low key and is limited to land included in the Low impact industry zone. Industrial uses which either complement the existing Kenilworth Cheese factory or take advantage of the growing tourist market are established in this zone, along with industrial uses servicing the local community.
  - (h) The interface of industrial land to the Low density residential zone and Rural residential zone is buffered to mitigate impacts and sensitive design and landscaping softens the visual impact of new premises.
  - (i) Development in the Low density residential zone and Rural residential zone, including road and lot layouts and *streetscape*, reflects traditional rural town residential qualities such as low rise detached housing on large lots, open *streetscape* and mature street trees. Building form reflects the traditional Queensland style with the use of timber, pitched roofs, verandahs and subdued colours.
  - (j) Development in the Low density residential zone occurs in a sequenced manner such that land closest to the town centre is developed first in order to ensure urban expansion occurs in accordance with the efficient and cost effective extension of *infrastructure*.
  - (k) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.
  - (I) Significant *vegetation*, particularly adjacent to the Mary River, is protected as an important part of the environment and local character of Kenilworth.

### 7.2.15.4 Assessment criteria Performance outcomes and acceptable outcomes

Table 7.2.15.4.1 Criteria-Performance outcomes and acceptable outcomes for assessable development

	assessable development		
Performa	ince Outcomes	Acceptable	Outcomes
Develop	nent in the Kenilworth Local Plan Area (	Generally (Al	Zones)
PO1	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional rural town character of Kenilworth in terms of scale, siting, form, composition and use of materials.	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage or local character significance.  Editor's Note—Section 8.2.9 (Heritage and character areas overlay code) sets out requirements for development on heritage places and in character areas.
		AO1.2	Buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.
		AO1.3	For residential, business and community activities, roof forms use simple, traditional Queensland style roof designs, including gable, hip, pitched or multiple gable roof forms.
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas, existing	AO2.1	Development provides for the retention of historical landmarks, memorials and monuments.
	character trees and areas of significant vegetation contributing to the setting, character and sense of place of Kenilworth.	AO2.2	Development protects and emphasises, and does not intrude upon, the important sight lines to Kenilworth Bluff, Kenilworth State Forest and other views to surrounding rural and natural areas identified on Figure 7.2.15A (Kenilworth local plan elements).
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation contributing to the character of the local area including:-  (a) native vegetation adjacent to the Mary River; and  (b) other character vegetation identified on Figure 7.2.15A (Kenilworth local plan elements).
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO3	Development contributes to the establishment of attractive and coherent <i>streetscapes</i> and gateways that reflect and enhance the sense of entry to, and the rural town character of, Kenilworth.	AO3.1	Development adjacent to identified gateway/entry points where identified on Figure 7.2.15A (Kenilworth local plan elements) provides for rural and semi rural uses and activities which retain the open rural landscape character of the local plan area.
		AO3.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of

_	
t	ر
π	

Performa	ance Outcomes	Acceptable	Outcomes
			streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide
			further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO4	Rural land between Kenilworth State School and the urban growth management boundary is retained for rural purposes in order to:- (a) provide a buffer between existing and future industrial uses and the school; and (b) preserve the strong sense of connection with the rural landscape and intimate rural character of the town.	AO4	No acceptable outcome provided.
PO5	Development for a food and drink outlet does not:-  (a) provide for the establishment of a high volume convenience restaurant, or  (b) incorporate a drive-through facility.	AO5	No acceptable outcome provided.
	ment in the Local Centre Zone	1 4 5 5	
P06	Development in the Local centre zone provides for small scale uses and mixed uses that:-  (a) support Kenilworth's role and function as a local (full service) activity centre; and  (b) provide a wide range of convenience goods and services to residents and visitors.	AO6	No acceptable outcome provided.
PO7	Development in the Local centre zone:-  (a) is sympathetic to the rural town character and identity of Kenilworth;  (b) addresses the street;  (c) complements the fine grain and traditional built form and streetscape of Elizabeth Street;  (d) uses traditional building materials; and  (e) provides integrated and functional parking and access arrangements that do not dominate the street.	AO7	Development in the Local centre zone:-  (a) provides for Elizabeth Street to be established and maintained as a wide, attractive and pedestrian friendly main street;  (b) respects the layout, scale (including height and setback) and character of development on adjoining sites;  (c) provides primary active street frontages, built to the front boundary, where identified on Figure 7.2.15A (Kenilworth local plan elements);  (d) has a maximum plot ratio of 1:1;  (e) provides all weather protection in the form of continuous cantilevered awnings and/or light verandah structures with decorative non-load bearing posts over footpath areas with mature or semi-mature shade trees planted along the site frontage adjacent to the kerbside;  (f) has simple, traditional Queensland style roof designs, such as hipped or gabled, and parapets facing the street;  (g) has building openings overlooking

#### 7.2.16 Landsborough local plan code

#### 7.2.16.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Landsborough local plan area as shown on Map ZM42 contained within **Schedule 2** (**Mapping**); and
  - (b) identified as requiring assessment against the Landsborough local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.16.3 (Purpose and overall outcomes);
  - (b) Table 7.2.16.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.16A (Landsborough local plan elements).

#### 7.2.16.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Landsborough local plan code.

The Landsborough local plan area is located on the North Coast Rail Line between the towns of Beerwah and Mooloolah in the southern hinterland of the Sunshine Coast. The local plan area includes Landsborough's town centre, the surrounding urban area and adjacent rural residential areas to the north, south and west. The local plan area has a land area of approximately 880 hectares.

Landsborough is a picturesque and historic hinterland town. Situated at the southern entrance to the Blackall Range, Landsborough is framed to the north and west by elevated terrain associated with the Blackall Range escarpment and Mount Mellum. Mellum Creek and adjoining tributaries traverse the local plan area with pockets of remnant vegetation located along the creek corridors. The town includes a number of heritage places as well as two character areas comprising groups of buildings indicative of early 20<sup>th</sup> century building styles.

Landsborough's town centre, which fulfils the local needs of the immediately surrounding urban, rural and rural residential community, is primarily located on the western side of the rail line around Cribb Street and Maleny Street. Cribb Street, which contains historic buildings and adjoins the railway station, is the traditional "main street" of Landsborough. Maleny Street provides a range of convenience retail and commercial uses.

The local plan area also includes an industrial area to the east of the rail line with access via Caloundra Street. There is also a substantial rendering plant operation (Sunland Meats) located immediately to the south of Mellum Creek.

Landsborough includes a range of community activities and sport and recreation areas including Landsborough State School, emergency services, local utilities, the Landsborough Museum, places of worship and district sports grounds. An Arts, Community and Heritage Precinct is planned for land south of the town centre and Maleny Street.

A mix of older dwelling houses, dual occupancies and small scale multiple dwellings are located in Mill Street, Cribb Street and Gympie Street which adjoins the business centre and railway station. Beyond the central area, the residential areas are characterised by dwelling houses on larger lots in traditional street layouts. The rural residential areas to the north, south and west include lot sizes of 5,000m² or greater. Some of these rural residential areas are constrained by flooding, steep land and/or significant vegetation.

Landsborough functions as an important public transport node, with a bus link from the railway station to the coastal urban area and to Maleny. The major road access into Landsborough from the east is via Caloundra Street from Steve Irwin Way. Maleny Street links Caloundra Street to Landsborough-Maleny Road providing access to Maleny and the Blackall Range. Old Landsborough Road links Landsborough to Beerwah.

The North Coast Rail Line, which bisects the local plan area, is proposed to be realigned and duplicated. As part of the planned upgrade, provision has been made for a grade separated crossing at Gympie Street North.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

#### 7.2.16.3 Purpose and overall outcomes

- (1) The purpose of the Landsborough local plan code is to provide locally relevant planning provisions for the assessment of development within the Landsborough local plan area.
- (2) The purpose of the Landsborough local plan code will be achieved through the following overall outcomes:-
  - (a) Landsborough remains a small rural town with a visible heritage character, primarily servicing the local needs of the immediately surrounding urban, rural residential and rural community.
  - (b) Development for urban and rural residential purposes within the Landsborough local plan area is limited to land within the urban and rural residential growth management boundaries respectively to protect and reinforce the character and identity of Landsborough, provide for the efficient provision of *infrastructure* and services and to avoid constrained land that is generally unsuitable for urban and rural residential development.
  - (c) Development retains the key built form, *streetscape*, landscape character and natural environment elements that contribute to the character, setting and identity of Landsborough as a rural town with a strong sense of place and associations with the past.
  - (d) Development for business uses is contained within the Local centre zone and contributes to Landsborough town centre's role as a local (full service) activity centre providing a wide range of convenience goods and services to service Landsborough and immediately surrounding rural residential and rural communities.
  - (e) Development in the Local centre zone protects the traditional built form, heritage and *streetscape* character of Landsborough. Development in Cribb Street enhances the traditional main street of Landsborough with active street *frontages*, traditional built form and improved streetscaping and landscaping. Development in Maleny Street reflects this street's role as a gateway to the Blackall Range with active street *frontages*, traditional built form and enhanced *streetscape* and landscaping.
  - (f) Development in the Specialised centre zone along Caloundra Street provides a range of larger format retail and business uses which are of a scale that is compatible with the rural town character and local activity centre role of Landsborough.
  - (g) Development in the Medium impact industry zone remains small scale and low key and is limited to land included in the Medium impact industry zone to the east of the rail line. This area develops as an integrated industrial estate with high quality buildings and landscaped grounds, particularly where fronting Caloundra Street. The northern interface to land in the Low density residential zone is sensitively treated and buffered to mitigate impacts.
  - (h) Development in the Low density residential zone is sympathetic to the traditional character and identity of established low density residential areas in Landsborough.
  - (i) Development in the Medium density residential zone provides for the establishment of a range of medium density accommodation types that are compatible in scale and design with the rural town setting. Such accommodation provides a high standard of architectural design to complement the traditional built form character of Landsborough.
  - (j) The rendering plant operation located immediately to the south of Mellum Creek operates in accordance with existing approvals. If the rendering plant ceases operation, the preferred future use of the *site* is for residential development which contributes to residential choice in Landsborough, sensitively responds to site constraints and provides for direct pedestrian and cycle connections across Mellum Creek to the town centre.

- (k) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around the key destinations within the local plan area.
- (I) Development does not compromise or adversely impact upon the existing transit hub and the North Coast Rail Line, including the planned realignment and duplication of the rail line and the possible future provision of a grade separated crossing within the local plan area.

#### 7.2.16.4 Assessment criteria Performance outcomes and acceptable outcomes

	assessable development		
	nce Outcomes	Acceptable	
	nent in the Landsborough Local Plan Ar		
PO1	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional rural town character of Landsborough in terms of scale, siting, form, composition and use of materials.	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage or character significance.  Editor's Note—Section 8.2.9 (Heritage and character areas overlay code) sets out requirements for development on heritage places and in character areas.
			Note—The Planning Scheme Policy forLandsborough (urban design guidelines) provides guidance in relation to the achievement of urban design outcomes for development in Landsborough.
		AO1.2	Buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.
		AO1.3	For residential, business and community activities, roof forms reflect simple, traditional Queensland style roof designs including gable, hip, pitched or multiple gable roof forms.
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas,	AO2.1	Development provides for the retention of historical landmarks, memorials and monuments.
	existing character trees and areas of significant <i>vegetation</i> contributing to the setting, character and sense of place of Landsborough.	AO2.2	Development protects and emphasises, and does not intrude upon, important sight lines to Mount Mellum, the Blackall Range and other views to surrounding rural and natural areas, including the significant views identified on Figure 7.2.16A (Landsborough local plan elements).
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation contributing to the vegetated backdrop, setting and streetscape character of Landsborough including:-  (a) riparian vegetation adjacent to Mellum Creek, Little Rocky Creek, Addlington Creek and tributaries;  (b) mature eucalypts within Pioneer Park and along Caloundra Street, which frame the eastern entry to the

	or entry and arrival to, Landsborough.		landscape treatments and other design elements which enhance the sense of entry and arrival to, and rural town character of, Landsborough and emphasise corner locations.
		AO3.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required
PO4	Development on sites fronting the northern side of Caloundra Street between the rail line and Steve Irwin Way provides for a range of well-designed buildings complemented by attractive landscape treatment that	AO4.1	Development provides a landscaped buffer strip at least 3 metres in width to the Caloundra Street frontage to complement existing vegetation in the Caloundra Street road reserve.
	enhances Caloundra Street as the main entrance into Landsborough from Steve Irwin Way.	AO4.2	Development incorporates architectural elements, building forms and landscaping with:-  (a) building facades contributing to established proportion and scale (including sky-lining and silhouette) along Caloundra Street;  (b) front facades exhibiting additional modelling and detailing, with major windows and building openings addressing the street frontage;  (c) individual built structures close to the street having a maximum front wall length of 50% of the length of the front boundary;  (d) buildings setback a minimum of 3 metres from the front boundary to allow for incorporation of awnings and verandahs;  (e) building articulation, roof overhangs, pedestrian shelters, awnings and

  - (b) Table 7.2.17.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.17A (Maleny local plan elements).

#### 7.2.17.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Maleny local plan code.

The Maleny local plan area is located in the south western part of the Sunshine Coast on the Maleny Plateau, which forms part of the Blackall Range. The local plan area includes Maleny's town centre and surrounding urban and rural residential areas. The local plan area has a land area of approximately 860 hectares.

The local plan area is characterised by variable topography with the northern parts having moderate to steep slopes. Obi Obi Creek, which flows to Lake Baroon, traverses the local plan area and is subject to periodic flooding. The local plan area has largely been cleared of native vegetation for urban and rural purposes. Isolated pockets of remnant vegetation remain, predominantly along Obi Obi Creek.

Maleny is an attractive rural town providing important district level business, community, social, and recreational facilities to service the needs of its resident population as well as the needs of surrounding rural communities and visitors to the area. Maleny is characterised by its rural setting, traditional streetscape and wide range of dining, cultural and artistic experiences, which make the town a popular destination for visitors to the region.

A small scale industrial area located off Lawyer Street complements the business centre and accommodates a limited range of low impact and local service industries.

The local plan area includes a range of community facilities and sport and recreation areas including a State primary school, State high school, public hospital, showgrounds, public library, emergency services and community halls. The Maleny Community Precinct located to the east of the business centre and north of Obi Obi Creek, which is being progressively developed in accordance with a master plan, will further diversify the range of community, sport and recreation and open space facilities in the local plan area including a golf course, aquatic centre, sports fields, open space and ecological parkland.

Existing urban residential development in the local plan area is characterised by predominantly low density housing surrounding the town centre, with some medium density housing immediately to the north of the centre. The local plan area also contains two large rural residential areas located to the south and north-east of the town centre.

The principal road link extending through the local plan area is via Maple Street, Beech Street and Macadamia Drive which connect Landsborough-Maleny Road to Maleny-Kenilworth Road. Public transport in the local plan area is currently limited; however, improvements are being made to further service the area.

Urban zoned land within the local plan area is connected, or has the ability to be connected ,to reticulated water and sewerage.

#### 7.2.17.3 Purpose and overall outcomes

- (1) The purpose of the Maleny local plan code is to provide locally relevant planning provisions for the assessment of development within the Maleny local plan area.
- (2) The purpose of the Maleny local plan code will be achieved through the following overall outcomes:-
  - (a) Maleny remains a moderate-sized rural town with a distinct heritage character, primarily servicing the needs of surrounding urban, rural residential and rural communities in the southern Sunshine Coast hinterland west of the Blackall Range escarpment.
  - (b) Urban and rural residential development within the Maleny local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect and reinforce the identity of Maleny, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the landscape values and productivity of surrounding rural lands.
  - (c) Development retains the key built form, *streetscape*, landscape character and natural environment elements that contribute to the setting, character and identity of Maleny as a rural town with a strong sense of place and associations with the past.
  - (d) Development provides for the retail and commercial functions of Maleny Town Centre to expand and be enhanced. Development in the District centre zone supports the role and function of Maleny as a district activity centre meeting the needs of the local community and surrounding rural and rural residential areas along with the needs of tourists and travellers. The town centre remains compact, with any further development or expansion of business uses contained to land included within the District centre zone. Mixed uses and uses which enhance the rural town character and rural service centre role of the town are encouraged.
  - (e) Retail and commercial uses which rely predominantly on pedestrian trade are located on land adjoining Maple Street. A mix of other business, community, residential and recreational uses are located within the District centre zone on land adjoining Coral Street and Bicentenary Lane. No new large floor plate retail uses are intended to be established in the Maleny Town Centre.
  - (f) Development in the Low impact industry zone provides for minor expansion of the existing Lawyer Street industry area to accommodate the towns's immediate industry needs, such as small scale low-impact and service industries. This area provides a low key but high quality industrial area with an attractive street front address. The interface to adjacent land included in the Low density residential zone is sensitively treated to ensure impacts on existing and future residential development are mitigated.
  - (g) Development in the Low density residential zone protects and is sympathetic to the traditional rural town character and identity of Maleny typified by low rise detached housing on relatively large lots. Building form reflects the traditional Queensland style through the use of timber, pitched roofs, verandahs and subdued colour schemes. Development in the zone provides an interconnected network of roads, pedestrian and cycle paths and open space and buffering to surrounding rural lands. Reconfiguring a lot in Precinct MAL LPP-2 (Maleny West) provides a transition between the township and rural lands through larger lots than the minimum lot size specified for the Low density residential zone in other parts of the local plan area.
  - (h) Development in the Medium density residential zone is of a scale, density and design which is complementary to a rural town setting and sensitively responds to site constraints. Further development on the Erowal aged care facility site provides for a range of retirement facilities with a building form and design compatible with the semi-rural setting and character of the area.
  - (i) Reconfiguring a lot in the Rural residential zone maintains the rural living character of the zone with an interconnected network of roads, pedestrian and cycle paths and open space and buffering to surrounding rural lands. Minimum lot sizes are consistent with the prevailing subdivision pattern in the area, sensitively respond to site constraints and provide for the satisfactory on-site treatment and disposal of effluent.
  - (j) The Maleny Community Precinct (Precinct MAL LPP-1) is progressively developed in accordance with the adopted Maleny Community Precinct Master Plan and allocated land use zones, as an integrated area of open space comprising parkland, sport and recreation facilities, community facilities and land for environmental protection and rehabilitation

- purposes. Limited and sensitively designed residential development occurs in the Maleny Community Precinct to support and complement the provision of community facilities and open space assets on the *site*.
- (k) Development in the local plan area is supported by a network of interconnected open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations and facilities within the local plan area.
- (I) Development provides for retention and enhancement of riparian *vegetation* along Obi Obi Creek, Walkers Creek and other *waterways* that traverse the local plan area.
- (m) Development provides for required improvements to the local road network including new road links to improve local connectivity and intersection upgrades.

#### 7.2.17.4 Assessment criteria Performance outcomes and acceptable outcomes

	ance Outcomes		e Outcomes	
Develop	Development in the Maleny Local Plan Area Generally (All Zones)			
P01	Development is consistent with and reflects and enhances the traditional rural town character of Maleny in terms of scale, siting, form, composition and use of materials.	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage significance.  Editor's Note—Section 8.2.9 (Heritage and character areas overlay code) sets out requirements for development on heritage places and in character areas.	
		AO1.2	Buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.	
		AO1.3	For residential, business and community activities, roof forms are simple, traditional Queensland-style roof designs including gable, hip, pitched or multiple gable roof forms.	
		AO1.4	Development with <i>frontage</i> to Maple Street, Bunya Street, Miva Street, Tulip Street, Coral Street and Beech Street maintains the traditional character evident in both the District centre zone and surrounding residential areas.	
and enhancement of key landsca elements including historical landmark significant views and vistas, existing character trees and areas of signification vegetation contributing to the setting	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas existing	AO2.1	Development provides for the retention of old stone retaining walls, historical landmarks, memorials and monuments.	
	character trees and areas of significant vegetation contributing to the setting, character and sense of place of Maleny.	AO2.2	Development protects and emphasises, and does not intrude upon, important views to surrounding rural and natural areas identified on Figure 7.2.17A (Maleny local plan elements).	
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation contributing to the setting and character of Maleny including:-  (a) riparian vegetation along Obi Obi Creek and Walkers Creek;  (b) Porter's wood; and	

PO3	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the rural town character of, and sense of entry and arrival to, Maleny.	A03.1	Development adjacent to the primary streetscape treatment area or an identified gateway/entry point identified on Figure 7.2.17A (Maleny local plan elements) incorporates architectural and landscape treatments and other design elements which enhance the sense of entry and arrival to, and rural town character of, Maleny, and emphasise corner locations.
		AO3.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO4	Development provides through block pedestrian linkages which:-  (a) are located to reflect the desire lines of pedestrian movement between major points of attraction and public spaces;  (b) provide a safe alternative to the street based pedestrian and cycle movement network; and  (c) provide a comfortable pedestrian environment in terms of access, width, shelter, materials and function.	AO4	Development provides safe, comfortable and attractive through block pedestrian linkages where identified on Figure 7.2.17A (Maleny local plan elements).
PO5	Development improves local connectivity by providing for required improvements to the local road network including new road links and intersection upgrades as identified on Figure 7.2.17A (Maleny local plan elements).	AO5	No acceptable outcome provided.
PO6	Development in the Maleny local plan area contributes to a network of linked open space.	AO6	Development provides for an interconnected open space system that links with a series of linear parks along Obi Obi Creek and Walkers Creek.
PO7	Development on land with frontage to Obi Obi Creek and Walkers Creek, or on land otherwise identified as a local ecological linkage on <b>Figure 7.2.17A</b>	A07	No acceptable outcome provided.  Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological

### 7.2.18 Maroochy North Shore local plan code

#### 7.2.18.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Maroochy North Shore local plan area as shown on Map ZM21 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Maroochy North Shore local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.18.3 (Purpose and overall outcomes);
  - (b) Table 7.2.18.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.18A (Maroochy North Shore local plan elements).

## 7.2.18.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Maroochy North Shore local plan code.

The Maroochy North Shore local plan area is situated in the central eastern part of the Sunshine Coast, east of the Sunshine Motorway, north of the Maroochy River and to the south of Mount Coolum. It includes the established communities of Mudjimba, Pacific Paradise, North and South Marcoola, Town of Seaside and Twin Waters, the Sunshine Coast Airport, Airport Industrial Park, as well as a number of tourist resorts at Twin Waters and Marcoola. The local plan area has a land area of approximately 1,785 hectares.

The significant environmental values of the Maroochy North Shore local plan area, being the Maroochy River Conservation Park, Mount Coolum National Park, the Maroochy River foreshore, wetlands and waterways (including declared fish habitat areas) and the beach dunal system and foreshore areas provide a natural and scenic setting for residential and tourist development within the local plan area. The local plan area is located on a low sand dune system and coastal floodplain within the Maroochy River catchment. As a result, most of the area is relatively flat and close to sea level.

The Sunshine Coast Airport, located centrally within the local plan area, is a regionally significant facility and "gateway" to the Sunshine Coast's attractions. It is recognised within the SEQ Regional Plan 2009 - 2031 as a specialist activity centre and aviation and aerospace enterprise opportunity area. The Airport is intended to expand with the construction of a new runway to facilitate new international routes and additional airport related commercial and industry activities to support the growing economy of the Sunshine Coast.

The local plan area includes the Pacific Paradise shopping centre, located at the intersection of David Low Way and Mudjimba Beach Road, and a number of smaller neighbourhood centres at Marcoola, Mudjimba, Twin Waters, Town of Seaside and Pacific Paradise, which provide convenience goods and services and a community focus for local residents and tourists.

The residential communities within the local plan area consist predominantly of dwelling houses with pockets of medium to high density residential development mainly around the business centres at Marcoola, Pacific Paradise, Twin Waters, Mudjimba Beach and Town of Seaside. The existing residential communities of Mudjimba Beach, Pacific Paradise and North and South Marcoola have a coastal village character being located alongside the foreshore.

A number of community, sport and recreational facilities are also located within the local plan area including the Mudjimba Community Hall, North Shore Community Centre, Twin Waters Golf Club, the North Shore Multi Sports Complex, Apex Camp, Mudjimba Beach Holiday Park and Pacific Paradise State School.

The Sunshine Motorway, North Shore Connection Road, Suncoast Boulevard and David Low Way are major road links within the local plan area.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

The existing and future airport operations, significant environmental areas and the drainage characteristics of the local plan area impose significant constraints on new urban development within the local plan area.

#### 7.2.18.3 Purpose and overall outcomes

- (1) The purpose of the Maroochy North Shore local plan code is to provide locally relevant planning provisions for the assessment of development within the Maroochy North Shore local plan area.
- (2) The purpose of the Maroochy North Shore local plan code will be achieved through the following overall outcomes:-
  - (a) The Maroochy North Shore local plan area is to remain a predominantly low density coastal urban area comprising a number of beachside residential communities and the Sunshine Coast Airport as well as significant tourist and sport and recreation facilities.
  - (b) Urban development within the Maroochy North Shore local plan area is limited to land within the urban growth management boundary so as to protect environmental areas and landscape values, avoid further urban development on heavily constrained land, particularly low lying and flood prone land, and provide for the efficient provision of *infrastructure* and services. Whilst some limited consolidation is expected within allocated zones, further significant residential development is not supported in the local plan area due to flooding and environmental constraints.
  - (c) Development within the local plan area protects the primary function of the Sunshine Coast Airport as a major airport and aviation precinct and provides for its expansion over time.
  - (d) Development within the Sunshine Coast Airport (Precinct MNS LPP-1) provides for the establishment of a range of uses and activities that are compatible with the primary function of the airport including aviation related business and industrial uses. Development at the Sunshine Coast Airport does not compromise the Sunshine Coast activity Coentre Nnetwork.
  - (e) Development and land use in the vicinity of the Sunshine Coast Airport is compatible with the Airport's existing and potential future operations, such that airport operations will not be affected and land use conflicts are minimised.
  - (f) Development is designed and sited in recognition of the constraints presented by the existing and potential airport operations, local flooding and drainage constraints and significant environmental areas, including the beaches, foreshore, *waterways* and *wetlands*.
  - (g) Development retains key landscape character and natural environment elements and protects significant views contributing to the character and landscape setting of the local plan area, including those to and from Mount Coolum, particularly from the David Low Way and Sunshine Motorway.
  - (h) Development in the Local centre zone at Pacific Paradise supports the role and function of the centre as a local (full service) activity centre providing a business and community focus for the local plan area. Development contributes to a low-scale, compact centre with a village character which provides an attractive interface and gateway to David Low Way and other local roads through high quality building design and the provision of landscape treatments, active frontages and off street car parking.
  - (i) Other smaller business centres at Mudjimba, North and South Marcoola and Twin Waters continue to function as local (not full service) activity centres providing a basic level of convenience goods and services to nearby residents. Local centres remain compact, with any expansion and enhancement limited to land included within the Local centre zone. No new business centres are established within the Maroochy North Shore local plan area.
  - (j) Development in the Low density residential zone, Medium density residential zone and Local centre zone is designed to protect and reinforce the low key coastal village character of the established residential communities within the local plan area.

Part 7

<sup>1</sup> Editor's Note—the Sunshine Coast activity centre network is described in Table SC1.2.3 of Schedule 1 (Definitions).

- (k) The Town of Seaside (Precinct MNS LPP-2) continues to be developed as an integrated residential community based on "new urbanism" principles. Development contributes to the establishment of a walkable integrated residential community providing a mix of dwelling types, supported by limited small scale local convenience shopping and local business uses. Development reflects the distinct architectural features and landscape design of existing development within the precinct.
- (I) Development in the Tourist accommodation zone at Marcoola (Precinct MNS LPP-3 (Marcoola Tourist Accommodation)), located along David Low Way, remains a focus for visitor accommodation and *ancillary* uses. Development is designed to respond to local climatic conditions and airport noise, enhance facilities and pedestrian connectivity to the beach and foreshore, provide an attractive presentation to David Low Way and conserve the frontal dune system and remaining coastal heath vegetation communities.
- (m) Development provides for the Twin Waters Resort to be protected as a significant tourist facility. Development on this site respects the environmental and landscape values of the area and maintains the existing configuration of low scale, small clusters of buildings set within extensive parklands and naturally vegetated areas.
- (n) Development provides for the Twin Waters golf course to be preserved as an important sport and recreation facility and valuable area of private open space contributing to the character and identity of the local plan area.
- (o) Development retains identified sites in the Medium density residential zone for retirement facilities in order to preserve these sites for such uses in the future.
- (p) Development in the Medium impact industry zone provides for a range of low to medium impact industrial uses that complement the existing and future operations of the Sunshine Coast Airport and service the local area. Development provides an attractive interface to major transport routes and the Sunshine Coast Airport.
- (q) Development is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.

#### 7.2.18.4 Assessment criteria Performance outcomes and acceptable outcomes

Table 7.2.18.4.1 Criteria Performance outcomes and acceptable outcomes for assessable development

	Performance Outcomes Acceptable Outcomes							
	Development in the Maroochy North Shore Local Plan Area Generally (All Zones)							
P01	Development provides for buildings, structures and landscaping that are consistent with and reflect the low key beachside character of the Maroochy North Shore local plan area in terms of form, composition and use of materials.	AO1.1	Development for a residential, business or community activity provides for building design which incorporates the following features:- (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing; (b) articulated, pitched, skillion or curved roof forms; (c) open or transparent balustrades; and (d) landscaping integrated into the building design.					
		AO1.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.					
		AO1.3	Development provides for existing mature trees and stands of melaleuca and					

Perform	nance Outcomes	Acceptable	Outcomes
			wallum heath to be retained and incorporated into the design of development.
PO2	Development contributes to the establishment of attractive and coherent streetscapes and gateways to reflect and enhance the sense of entry to, and the beachside character of, the Maroochy North Shore local plan area.	AO2.1	Development adjacent to an identified primary streetscape treatment area or gateway/entry point identified on Figure 7.2.18A (Maroochy North Shore local plan elements):-  (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the beachside character of, the local plan area, and emphasise corner locations; and  (b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO2.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can
			be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO3	Development provides for the retention and enhancement of key landscape elements including significant views and vistas to and from Mount Coolum from the David Low Way and Sunshine Motorway, existing character trees, wetlands and other areas of significant vegetation including melaleuca and	AO3.1	Development protects and emphasises, and does not intrude upon, the important sightlines and views to and from Mount Coolum, particularly from David Low Way and the Sunshine Motorway identified on Figure 7.2.18A (Maroochy North Shore local plan elements).
	wallum heath contributing to the setting, character and sense of place of the Maroochy North Shore local plan area.	AO3.2	Development provides for the retention and enhancement of existing mature trees, stands of melaleuca and wallum heath.
PO4	The major open space links and scenic qualities offered by Mount Coolum National Park, the foreshore park and reserve system along the coastline, the Maroochy River Conservation Park and wetland areas and remnant vegetation	AO4.1	Development protects and enhances the greenspace link along the coastal foreshore where identified on the Figure 7.2.18A (Maroochy North Shore local plan elements).
	along the Maroochy River are protected and enhanced.	AO4.2	Development provides for the retention and enhancement of wallum heath, wetland areas and other native vegetation including adjacent to the foreshore, and the Maroochy River.
PO5	Development provides for the Twin Waters Golf Course to be retained as an important sport and recreation facility and open space area contributing to the character and identity of the local plan area.	AO5	No acceptable outcome provided.

	the Maroochy River facilitates the provision of a local ecological linkage as identified on Figure 7.2.18A (Maroochy North Shore local plan elements).		Editor's note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
P07	Development in the local plan area is sited and designed in a manner which is responsive to local flooding and drainage constraints.	A07	No acceptable outcome provided.  Editor's note—Section 8.2.7 (Flood hazard overlay code) sets out requirements for development on flood prone land.
PO8	Development in the local plan area does not compromise the current or potential future role of the Sunshine Coast Airport or adversely impact on the existing or future operational needs of the Airport.	AO8	No acceptable outcome provided.
Develop	nent in the Community Facilities Zone i	n Precinct MI	NS LPP-1 (Sunshine Coast Airport)
PO9	Development in the Community facilities zone in Precinct MNS LPP-1 (Sunshine Coast Airport) identified on Local Plan Map LPM21:-  (a) occurs in an integrated manner in accordance with the approved Sunshine Coast Airport Master Plan:	AO9	No acceptable outcome provided.
	(b) provides for uses and activities which support, and are consistent with, the efficient operation of the Sunshine Coast Airport as an international airport and aviation precinct;		
	(c) is of a nature, scale and intensity that does not compromise the Sunshine Coast Aactivity Gentre Anetwork, with retail activities limited to small scale uses directly serving passengers;		
	(d) incorporates a high standard of urban design and landscaping that creates attractive terminal facilities, buildings, streets and entrance roads that promote a sense of arrival and departure and provide a favourable impression for tourists travelling to and from the airport;		
	(e) provides for airport related business uses and other uses to be co-located to maximise urban efficiency and contribute to an integrated land use outcome;		
	(f) provides a high level of amenity and effectively manages the potential for land use conflict with existing and likely future surrounding development; and (g) encourages public transport accessibility and use.		
Develop	nent in the Local Centre Zone		·

## Figure 7.2.18A Maroochy North Shore local plan elements

# 7.2.19 Maroochydore/Kuluin local plan code

#### 7.2.19.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Maroochydore/Kuluin local plan area as shown on Map ZM22 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Maroochydore/Kuluin local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.19.3 (Purpose and overall outcomes);
  - (b) Table 7.2.19.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.19A (Maroochydore/Kuluin local plan elements).

## 7.2.19.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Maroochydore/Kuluin local plan code.

The Maroochydore/Kuluin local plan area is located centrally in the eastern part of the Sunshine Coast and takes in a land area of approximately 1,450 hectares.

The local plan area includes the established urban neighbourhoods of Maroochydore and Cotton Tree, the suburban neighbourhoods of Maroochy Waters and Kuluin, the emerging community of Sunshine Cove as well as business and industry areas along Maroochydore Road, Wises Road, Sugar Road, Maud Street and Fishermans Road.

A significant part of the local plan area is taken up with the Maroochydore Principal Regional Activity Centre. The Maroochydore City Centre is a priority development area subject to the Economic Development Act 2012 whilst the remainder of the Maroochydore Principal Regional Activity Centre (outside of the city centre) is a declared master planned area subject to Part 10 (Other Plans). Neither of these areas form part of this local plan code.

Most of the local plan area is situated on a coastal lowland plain that meets the banks of the Maroochy River and the Maroochydore beachfront. The Maroochy River and the Maroochydore beachfront are major environmental and character elements that define the coastal setting and character of the local plan area. Except for some small remnants of native vegetation retained in parks and reserves, the local plan area has been largely cleared of native vegetation to accommodate coastal urban development.

Owing to its low lying topography a significant part of the local plan area is potentially at risk from acid sulfate soils and coastal hazards, including river flooding and storm surge.

A range of residential forms are represented in the local plan area ranging from the medium and high intensity tourist accommodation and mixed use development located along the Maroochydore beachfront to the low density predominantly permanent residential housing of Maroochy Waters and Kuluin.

Sunshine Cove, located immediately to the west of the Maroochydore Principal Regional Activity Centre, is an emerging residential community set around a man-made waterway system connecting to Cornmeal Creek. When complete, this development will accommodate a variety of housing types as well as community facilities and public open space.

A number of local centres are distributed throughout the local plan area, primarily at Cotton Tree, Maroochy Waters and Kuluin but also at several other locations. Cotton Tree, and in particular the associated foreshore area and beaches, is also a renowned and popular tourist destination.

The local plan area includes a range of community, sport and recreational facilities including Maroochydore State High School, Maroochydore State School, Kuluin State School, Maroochydore Multisports Complex, Cotton Tree Park and a number of tourist parks.

A sewage treatment plant is located north of Commercial Road and an existing quarry to the south of Commercial Road has potential for reuse once quarry operations have ceased.

The Sunshine Motorway and Maroochydore Road are the principal transport routes within the local plan area. Other major roads include Bradman Avenue, Aerodrome Road, Duporth Avenue, Sugar Road, the Esplanade, Sixth Avenue, Main Road and Fishermans Road. The local plan area, and in particular the Maroochydore Principal Regional activity Centre, is planned to be serviced by key public transport infrastructure including the Dedicated Public Transport Corridor (CAMCOS) and the CoastConnect Priority Public Transport and Bicycle Corridor.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

### 7.2.19.3 Purpose and overall outcomes

- (1) The purpose of the Maroochydore/Kuluin local plan code is to provide locally relevant planning provisions for the assessment of development within the Maroochydore/Kuluin local plan area.
- (2) The purpose of the Maroochydore/Kuluin local plan code will be achieved through the following overall outcomes:-
  - (a) The Maroochydore/Kuluin local plan area is a diverse coastal urban area comprising a number of urban and suburban residential neighbourhoods, high intensity visitor accommodation areas, business and industry areas and major community and sport and recreation facilities.
  - (b) Urban development in the Maroochydore/Kuluin local plan area is limited to land within the urban growth management boundary so as to protect environmental areas and landscape values.
  - (c) Cotton Tree and areas adjacent to Maroochydore Beach are cosmopolitan and vibrant places with visitor accommodation and small scale shops, cafés and restaurants at street level that enliven the public realm and enhance the role and image of this area as a tourism focus area.
  - (d) Kuluin and Maroochy Waters are established, predominantly low density residential neighbourhoods that offer a quiet, relaxed lifestyle in locations close to the beach and the services offered by the Maroochydore Principal Regional Activity Centre.
  - (e) The Specialised centre zone adjacent to Wises Road, Sugar Road and Maroochydore Road provides for the large floor plate, bulky goods retail activities required to support the core retailing activities accommodated within the Maroochydore Principal Regional Activity Centre.
  - (f) Industrial areas at Kuluin and north of Wises Road provide a range of low to medium impact industry uses.
  - (g) Development supports the role and function of Maroochydore as the principal regional activity centre for the Sunshine Coast.
  - (h) Development in the local plan area recognises and reinforces the natural attributes within and adjoining the local plan area by creating buildings, landscapes, a network of open space and pedestrian/cycle linkages that emphasise the outdoor lifestyle and the strong affinity that residents have with 'living on or near the coast'. Development on land adjacent to the Maroochy River foreshore between Cornmeal Creek and Picnic Point Esplanade provides for a continual public pedestrian and cycle link along the foreshore, as an extension of the Coastal Path System.
  - (i) Development contributes to the establishment of landscaped boulevards along major transport routes and attractive gateways to enhance the sense of entry to the local plan area and the Maroochydore Principal Regional Activity Centre.
  - (j) Development provides appropriate landscape buffering to the Sunshine Motorway in order to visually screen built form elements and maintain the visual amenity of the Motorway.

- (k) Development in the Local centre zone supports the role and function of the local business areas as local (not full service) activity centres servicing the convenience needs of residents and visitors to the local plan area.
- (I) With the exception of the two local business areas situated on the corner of Maroochydore Road and Main Road and Maroochydore Road and Turner Street that are not intended to increase their building footprint or gross floor area, development in the Local centre zone provides for the expansion and enhancement of business uses.
- (m) Development in the Local centre zone provides for small scale uses, active street *frontages* and other urban elements that create vibrant streets and places.
- (n) Development in the Specialised centre zone provides for the progressive refurbishment of sites along Wises Road and Sugar Road with buildings, landscaping and integrated signage that improve the visual appearance and the continuity of the *streetscape* along these *major* roads.
- (o) Development in the High density residential zone in Precinct MAR LPP-1 (Evans Street), along the western side of Evans Street between Maroochydore Road and Millwell Road, provides land required for the widening of Evans Street to extend the dual carriageway configuration of Maroochy Boulevard to Maroochydore Road.
- (p) Development in the High density residential zone in Precinct MAR LPP-2 (Wharf Street) provides for predominantly high density residential uses. Limited *office* uses may be established in the precinct as part of mixed use premises, where the residential amenity of the area is maintained.
- (q) Development in the Low density residential zone in Precinct MAR LPP-3 (Maud Street/Sugar Road) provides for the establishment of business uses (being offices) in existing dwellings in a manner that maintains the amenity of existing residential uses and improves the visual appearance and continuity of the streetscape along these major roads.
- (r) Development in the Low density residential zone on Lot 2 on SP223022 at 3-7 Fishermans Road, Kuluin, provides for a new public road link between Martins Drive and Fishermans Road.
- (s) Development in the Emerging community zone provides for the continued development of Sunshine Cove as an integrated residential community, providing a mix of dwelling types and live/work buildings in a waterside setting, supported by large areas of open space, a walkable waterfront and extensive cycle and pedestrian pathway networks connecting the development to the Maroochydore Principal Regional Activity Centre and other adjoining neighbourhoods.
  - Editor's note—development at Sunshine Cove is currently regulated in accordance with an approved master plan and plan of development.
- (t) The existing *tourist park* sites located at Cotton Tree and Maroochydore Beach are maintained as *tourist parks* to provide short term, affordable visitor accommodation to complement Maroochydore's role as a tourism focus area.
- (u) Development does not compromise or adversely impact upon the operation or functional efficiency of the major transport corridors within or adjoining the local plan area including the Dedicated Public Transport Corridor (CAMCOS) and CoastConnect Priority Public Transport and Bicycle Corridor.

# 7.2.19.4 Assessment criteria Performance outcomes and acceptable outcomes

####

	the retail core (Principal centre zone and priority development area) as the primary focus for business and community activities within the principal	1	
PO2	Development provides for buildings, structures and landscaping that are consistent with, and reflect the coastal urban character of, the Maroochydore/Kuluin local plan area.	AO2.1	Development for a residential, business or community activity provides for building design which incorporates the following features:-  (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing;  (b) articulated, pitched, skillion or curved roof forms;  (c) open or transparent balustrades; and  (d) landscaping integrated into the building design.
		AO2.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.
PO3	Development provides for the retention and enhancement of key landscape elements including significant views and vistas and existing character <i>vegetation</i> contributing to the setting, character and sense of place of the	AO3.1	Development protects and emphasises, and does not intrude upon, important views to the Maroochy River, beaches and other areas where identified on Figure 7.2.19A (Maroochydore/Kuluin local plan elements).
	Maroochydore/Kuluin local plan area.	AO3.2	Development provides for the retention and enhancement of existing mature trees and character vegetation contributing to the setting and character of the local plan area including:-  (a) vegetation adjacent to the Maroochy River foreshore and Maroochydore beach foredunes;  (b) significant vegetation on the northern side of the Sunshine Motorway at the gateway intersection of Maroochy Boulevard; and  (c) other character vegetation identified on Figure 7.2.19A (Maroochydore/Kuluin local plan elements).
			of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO4	Development:-  (a) presents an attractive streetfront address to the major road corridors of Maroochydore Road, Aerodrome Road, Wises Road, Sugar Road/Maud Street and Bradman Avenue; and  (b) provides a wide, vegetated buffer to the Sunshine Motorway to visually screen and soften built form elements.	AO4.1	Development on a site adjacent to Maroochydore Road, Aerodrome Road, Wises Road, Sugar Road/Maud Street and Bradman Avenue provides a frontage treatment, including building siting and design, landscaping, fencing and signage, that contributes to a coherent streetscape and enhances the appearance and visual amenity of these major road corridors.  Development provides a 10 metre wide
	form elements.	AO4.2	Development provides a 10 metre wide mounded landscaped buffer along the

Performa	ance Outcomes	Acceptable	Outcomes
		·	Sunshine Motorway road frontage of a site where identified on Figure 7.2.19A (Maroochydore/Kuluin local plan elements).
PO5	Development:-  (a) provides for the establishment of landscaped boulevards along Bradman Avenue, Sixth Avenue, the Esplanade, Aerodrome Road and Alexandra Parade; and  (b) contributes to the establishment of attractive and coherent streetscapes and gateways that enhance the sense of arrival to, and coastal urban character of, Maroochydore/Kuluin.	AO5.1	Development adjacent to a primary streetscape treatment area or gateway/entry point where identified on Figure 7.2.19A (Maroochydore/Kuluin local plan elements):-  (a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the beachside character of, the local plan area and emphasise corner locations; and  (b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.
		AO5.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO6	Development with <i>frontage</i> to Aerodrome Road or Alexandra Parade minimises direct vehicle <i>access</i> and gives priority to pedestrians and the CoastConnect Priority Public Transport and Bicycle Corridor.	AO6	Development on a site with frontage to Aerodrome Road or Alexandra Parade:-  (a) provides for no additional vehicle access from these streets; and  (b) rationalises existing vehicle access points wherever practicable.
PO7	Development on land adjacent to the Maroochy River foreshore, between Cornmeal Creek and Picnic Point Esplanade, provides for a continuous public pedestrian and cycle link along the Maroochy River foreshore as an extension to the coastal walk.	A07	No acceptable solution provided.
PO8	Development on land with frontage to Eudlo Creek facilitates the provision of a local ecological linkage as identified on Figure 7.2.19A (Maroochydore/Kuluin local plan elements).	AO8	No acceptable outcome provided.  Editor's note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO9	Development does not compromise the provision and operation of <i>transport networks</i> including:-  (a) the Dedicated Public Transport Corridor (CAMCOS), linking the North Coast Rail Line at Beerwah to Caloundra, Kawana Waters and Maroochydore;  (b) the Sunshine Motorway and any	AO9	No acceptable outcome provided.

## Figure 7.2.19A Maroochydore/Kuluin local plan elements

# 7.2.20 Mooloolaba/Alexandra Headland local plan code

#### 7.2.20.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Mooloolaba/Alexandra Headland local plan area as shown on Map ZM34 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Mooloolaba/Alexandra Headland local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.20.3 (Purpose and overall outcomes);
  - (b) Table 7.2.20.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.20A (Mooloolaba/Alexandra Headland local plan elements).

## 7.2.20.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Mooloolaba/Alexandra Headland local plan code.

The Mooloolaba/Alexandra Headland local plan area is located centrally in the eastern part of the Sunshine Coast to the south of Maroochydore and includes the coastal area from Alexandra Headland to Mooloolaba extending west to the Sunshine Motorway. The local plan area takes in a diverse range of land uses including tourist accommodation and associated services and events, business centres, marine industries, a variety of residential areas, as well as a range of community and sport and recreation uses. The local plan area has a land area of approximately 536 hectares.

The Mooloolaba/Alexandra Headland local plan area is a renowned and popular tourist destination and is characterised by its frontage to a spectacular natural coastline, which includes Alexandra Headland, Mooloolaba Beach, Mooloolaba Spit and the Mooloolah River. Extensive foreshore parklands include surf lifesaving clubs, playgrounds, barbeque facilities, tourist parks and the Coastal Path. Impressive water views are available from foreshore areas and particularly from Alexandra Headland.

Business and commercial uses are concentrated in the Mooloolaba District Centre focussed on Brisbane Road and Walan Street. This area provides a range of retail, business and entertainment venues at the main entry road into Mooloolaba. A range of local businesses extend along the southern part of Brisbane Road, providing local convenience shopping and business activities for the surrounding residential community.

The beachfront areas are characterised by medium rise residential development catering for visitor and permanent accommodation. These uses are supported by small scale boutique shopping, cafes, restaurants and tourist and entertainment facilities located at key nodes along Alexandra Parade and Mooloolaba Esplanade and at Underwater World/Mooloolaba Wharf. Other low to medium rise multiple dwellings are located around the activity centres. Traditional low rise residential areas are located on the slopes to the west of Alexandra Headland and around Mooloolaba Waters.

The Mooloolaba marina, boat ramp and Yacht Club are popular recreational boating facilities within the local plan area. The Mooloolaba State Boat Harbour caters for commercial fishing operations and associated marine industries, including seafood retail and wholesale operations. Community services such as Air Sea Rescue and the Coast Guard also operate in the Mooloolaba State Boat Harbour.

Pedestrian and cycle pathways are located along the foreshore and along major roads. The CoastConnect Priority Public Transport Corridor is intended to travel along Brisbane Road, Walan Street, Mooloolaba Esplanade and Alexandra Parade providing opportunities for transit oriented redevelopment. Alexandra Parade, Brisbane Road and Buderim Avenue provide the major road links into the local plan area.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

#### 7.2.20.3 Purpose and overall outcomes

- (1) The purpose of the Mooloolaba/Alexandra Headland local plan code is to provide locally relevant planning provisions for the assessment of development within the Mooloolaba/Alexandra Headland local plan code.
- (2) The purpose of the Mooloolaba/Alexandra Headland local plan code will be achieved through the following overall outcomes:-
  - (a) Mooloolaba/Alexandra Headland local plan area is a diverse coastal urban area with a strong focus on tourism. The local plan area comprises a number of urban and suburban residential areas and high density visitor accommodation areas supported by a district activity centre at Mooloolaba, community and sport and recreation facilities, a harbour and associated waterfront and marine uses.
  - (b) Urban development in the Mooloolaba/Alexandra Headland local plan area is limited to land within the urban growth management boundary so as to protect the environmental and landscape value of foreshore areas and the Mooloolah River.
  - (c) Development in the local plan area is sited and designed to protect significant environmental areas and retain the key landscape elements that contribute to the setting, character and identity of Mooloolaba and Alexandra Headland, including beaches and dunal systems, foreshore parkland, Alex Forest Conservation Area, Mooloolaba environmental reserve, Nelson Park, Charles Clarke Park, character vegetation along the foreshore and views either to or from important landscape features.
  - (d) Development recognises and reinforces the beachside location of the local plan area by providing for high quality, contemporary sub-tropical building and landscape design that emphasises the casual, outdoor lifestyle. Development is of a scale and form which protects and enhances the existing character and identity of established parts of the local plan area.
  - (e) Development on land with frontage to Alexandra Parade, Brisbane Road, Mooloolaba Esplanade and River Esplanade achieves a high standard of urban design and contributes to streetscape, landscape, public art and public space improvements which enhance gateway locations, create attractive boulevards along these roads and promote the beachside character of the local plan area.
  - (f) Development in the District centre zone contributes to the Mooloolaba Town Centre's role as a district activity centre providing a range of business, community and residential uses to service the needs of residents and visitors. Mixed uses and uses which enhance the tourism focus and district level role and function of the Mooloolaba Town Centre are encouraged.
  - (g) Development in the District centre zone contributes to the economic vitality of Mooloolaba Town Centre through the provision of improved streetscape and landscape treatments, active street frontages and improved public spaces.
  - (h) Development in the District centre zone on Key Site 1 (Brisbane Road Carpark) provides for an integrated, high quality mixed use development incorporating a range of centre activities and residential accommodation. Development provides for significant streetscape and landscape improvements to all frontages, strong pedestrian connections to the adjoining tourist accommodation area, a new road link between Smith Street and Brisbane Road to improve accessibility, and a well-designed and integrated public carpark.
  - (i) Development in the Tourist accommodation zone reinforces these areas, and in particular the frontage to Mooloolaba Esplanade, as the primary tourism focus areas with vibrant and pedestrian friendly active street frontages providing a range of small-scale boutique retail and outdoor dining experiences with residential accommodation above, and strong visual and pedestrian linkages with the foreshore areas and surrounding residential, business and community activities.
  - (j) Development in Precinct MAH LPP-1 (Mooloolaba Hospitality Area) provides a range of entertainment activities including *food and drink outlets*, *function facilities*, *bars* and *hotels* that may operate after hours and include live music which creates a vibrant atmosphere.
  - (k) Development in the Tourism area zone on Key Site 2 (Underwater World/Mooloolaba Wharf) provides for an integrated, high quality *mixed use development* which complements the existing range of tourism facilities on the site and contributes to the vitality and attractiveness

- of Mooloolaba, and in particular Underwaterworld/Mooloolaba Wharf, as a visitor and entertainment destination, whilst maintaining the operation of the marina and protecting the amenity of surrounding residences. Development provides for Hancock Street to be enhanced with streetscaping, landscaping and public art to create an improved entrance from River Esplanade into the *site*, and includes an accessible, safe and integrated public parking facility.
- (I) Redevelopment of Key Site 2 (Underwater World/Mooloolaba Wharf) provides for a pedestrian friendly, activated village square or plaza which links to the Mooloolaba Town Park and provides improved pedestrian and visual connections through to the Mooloolah River.
- (m) Development in the Local centre zone along Brisbane Road functions as a local (not full service) activity centre servicing the local convenience needs of nearby residents and visitors. Development in this area supports the role of the Mooloolaba Town Centre (District centre zone) as the district activity centre for the local area and contributes to the establishment of a vibrant centre and entry boulevard to Mooloolaba.
- (n) Development in the Low density residential zone maintains the traditional beachside residential character of these parts of local plan area.
- (o) Development in the Medium density residential zone in Alexandra Headland respects the existing topography and contributes to a high level of residential amenity and design quality consistent with the scale and character of the *streetscape* and surrounding development.
- (p) Development in the Waterfront and marine industry zone provides for the continued operation of Mooloolaba State Boat Harbour and associated industries and small-scale complementary business uses, to support the ongoing viability of the commercial fishing operations at Mooloolaba.
- (q) The existing tourist park sites located on Mooloolaba Esplanade and Parkyn Parade are maintained or redeveloped as tourist parks to provide short term, affordable visitor accommodation to complement Mooloolaba's role as a tourism focus area.
- (r) The State government uses at Mooloolaba Spit are rationalised and provide for low key government functions which are dependent on water access, with a limited number of small scale business uses which contribute to the activation of the area and the attractiveness and safety of Mooloolaba Spit as well as improved access to adjoining parkland.
- (s) Development in the Sport and recreation zone at the Yacht Club and boat ramp contributes to tourism opportunities in Mooloolaba by providing for enhanced recreational boating opportunities and associated business uses and improving public access between Parkyn Parade and the Mooloolah River.
- (t) Development provides strong pedestrian and visual links to the coastal foreshore and Mooloolah River including through block pedestrian connections, and facilitates safe and convenient pedestrian and cycle connections to and between other key destinations within the local plan area. The coastal foreshore area provides an important continuous pedestrian, cycle and open space link from the mouth of the Mooloolah River north along the full length of the local plan area.
- (u) Development adjacent to the CoastConnect Priority Public Transport Corridor is for transit oriented development which is fully integrated with the corridor, in particular through the protection and provision of land required for major *infrastructure* in the corridor and the provision of works to minimise vehicle *access* points to roads in the corridor.
- (v) Development in the High density residential zone in the vicinity of Muraban Street and Naroo Court, Mooloolaba, provides for a future road link between Muraban Street and Naroo Court to improve local connectivity.

#### 7.2.20.4 Assessment criteria Performance outcomes and acceptable outcomes

#### 

Performance Outcomes		Acceptable Outcomes		
Development in the Mooloolaba/Alexandra Headland Local Plan Area Generally (All Zones)			n Area Generally (All Zones)	
PO1	Development provides	for buildings,	AO1.1	Development for a residential, business
	•	<b>U</b> ,		<u> </u>

Performand	ce Outcomes	Acceptable	Outcomes
	structures and landscaping that are consistent with and reflect and enhance the coastal urban character of Mooloolaba and Alexandra Headland in terms of form, composition and use of materials.	AO1.2	or community activity provides for building design which incorporates the following features:-  (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing;  (b) articulated, pitched, skillion or curved roof forms;  (c) open or transparent balustrades; and  (d) landscaping integrated into the building design.  Development uses understated colour
		7.01.2	schemes and low-reflective roofing and cladding materials.
PO2	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the sense of entry to, and the beachside character of, Mooloolaba and Alexandra Headland, including boulevard treatments along Alexandra Parade, Brisbane Road, Mooloolaba Esplanade and River Esplanade.	AO2.1	Development adjacent to a primary streetscape treatment area, boulevard treatment area or gateway/entry point identified on Figure 7.2.20A (Mooloolaba/Alexandra Headland local plan elements):-  (a) provides landscaping, public art and public space improvements;  (b) incorporates a high standard of urban design and architectural and landscape treatments which enhance the sense of arrival to, and the beachside character of, Mooloolaba and Alexandra Headland, and emphasise corner locations; and  (c) incorporates design elements such as varied roof forms, changes in materials, and variations of projected and recessed elements and facades.
		AO2.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can be referenced from the Council's Infrastructure and Guideline Standards for each centre as required.
PO3	Development provides for the retention and enhancement of significant views and vistas contributing to the setting, character and sense of place of Mooloolaba and Alexandra Headland.	AO3	Development on sites fronting Mooloolaba Esplanade, Alexandra Parade and Parkyn Parade are designed to minimise the impact on significant views to and from important landmark sites and landscape features including Alexandra Headland Beach,

Performanc	ce Outcomes	Acceptable	
PO4	Development protects and enhances	AO4.1	Alexandra Headland, Mooloolaba Beach, Mooloolaba Spit, Point Cartwright, the Pacific Ocean and elevated parts of the local plan area including where identified on Figure 7.2.20A (Mooloolaba/Alexandra Headland local plan elements).  Development protects and enhances
P04	the major open space links and scenic qualities offered by the foreshore park and reserve system, Alex Forest Conservation Area, Mooloolaba environmental reserve, Nelson Park,	AO4.1	the greenspace links identified on Figure 7.2.20A (Mooloolaba/ Alexandra Headland local plan elements).
	Charles Clarke Park and the character vegetation along the foreshore area.	AO4.2	Development provides for the retention and enhancement of character vegetation along the foreshore and Mooloolah River.
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO5	Development is fully integrated with the CoastConnect Priority Public Transport Corridor, including through the protection and provision of the land required for the major infrastructure corridor that is located on the premises and the provision of works to minimise vehicular access points to roads in the corridor.	AO5.2	Development on sites identified on Figure 7.2.20B (Brisbane Road upgrade) as subject to road widening provides for:-  (a) development to be sufficiently set back to accommodate the protection of the major infrastructure corridor located on the premises that is required for road widening to service the Sunshine Coast; and  (b) land to be provided as required to accommodate the protection of the major infrastructure corridor located on the premises that is required for road widening to service the Sunshine Coast.  Development provides for integrated vehicular access which minimises the
			number of access points to Brisbane Road, Mooloolaba Esplanade, Alexandra Parade, Hancock Street, Walan Street and Venning Street in the CoastConnect Priority Public Transport Corridor.
PO6	ent in the District Centre Zone Generally	AO6	D 1
1 00	Development in the District centre zone:-  (a) contributes to the creation of a contemporary, subtropical coastal built form and streetscape;  (b) provides for any new or extended large floor plate retail uses to be sleeved and located behind smaller scale, fine grain built form elements;  (c) creates vibrant and active streets and public spaces;  (d) provides a continuous pedestrian friendly facade including all weather protection	A00	Development in the District centre zone:-  (a) provides primary active street frontages, built to boundary, where identified on Figure 7.2.20A (Mooloolaba/Alexandra Headland local plan elements);  (b) provides for any residential uses to be effectively integrated with business uses;  (c) has building openings overlooking the street;  (d) provides all weather protection in the form of continuous awnings and/or light verandah structures over footpath areas with mature or

Figure 7.2.20B Brisbane Road upgrade

# 7.2.21 Mooloolah local plan code

### 7.2.21.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Mooloolah local plan area as shown on Map ZM41 contained within **Schedule 2** (Mapping); and
  - (b) identified as requiring assessment against the Mooloolah local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.21.3 (Purpose and overall outcomes);
  - (b) Table 7.2.21.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.21A (Mooloolah local plan elements).

# 7.2.21.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Mooloolah local plan code.

The Mooloolah local plan area is located in the southern part of the Sunshine Coast on the North Coast Rail Line between Landsborough and Eudlo. The local plan area comprises the small rural town of Mooloolah and adjacent urban and rural residential areas. The local plan area has a land area of approximately 790 hectares.

The Mooloolah local plan area is framed to the west by the Blackall Range, to the south by the tall eucalypts of the Dularcha National Park, Mooloolah Forest Reserve and Tunnel Ridge and to the north by the Mooloolah Range. The local plan area is traversed by the Mooloolah River and South Mooloolah River and their tributaries and has a generally flat to gently undulating landform reflecting its location adjacent to the Mooloolah floodplain. Steeper parts are found on the edges of the local plan area where the land rises around the adjacent ranges.

The Mooloolah local plan area derives its character from its picturesque rural and natural landscape setting, village character and strong community feel. Mooloolah Connection Road provides a physical and visual gateway to the town, with a distinct sense of arrival provided by striking views to the Blackall Range, and the current railway crossing and traditional style pedestrian overpass. The town has a strong horse riding community with a pony club and riding school both located in close proximity to the town centre. Riders often travel through the town, adding to the rural character.

The Mooloolah Town Centre provides important commercial, community, social, and recreational facilities to service the local level needs of its resident population as well as the needs of the surrounding rural residential and rural communities. The town centre is currently divided into two parts by the North Coast Rail Line, with the western side of the rail line focussed on Bray Road and Jones Street, and the eastern side predominantly along Mooloolah Connection Road. The open level crossing provides good connectivity between the two sides of the town centre and functions as a gateway to the town.

Although the buildings in the centre are relatively new, they comprise characteristics of traditional rural towns, particularly on the western side of the railway. The town centre is complemented by the open space reserves of the Village Green and Martin Rungert Park. A number of community facilities are located within the local plan area including a local State primary school, community centre, public hall and recreation reserve (pony club). The Mooloolah railway shelter is of local heritage significance.

The local plan area consists of small residential lots focused on Jones Street and the northern side of Paget Street with the remaining residential areas of the town characterised by dwelling houses on larger sized lots.

The rural residential and rural lands surrounding the town are constrained by flooding, sloping topography and native vegetation which also contribute to the scenic amenity and character of the local plan area.

The North Coast Rail Line is planned to be subject to realignment and duplication. As part of the duplication, provision has been made for a potential road overpass and closure of the current open level crossing. Closure of the open level crossing will physically and visually segregate the town and has the potential to impact significantly on the character and functionality of the town centre. If this option is pursued, maintaining connectivity for pedestrians, cyclists and horse riders will be critical.

Mooloolah Road/Connection Road is the major road link within the local plan area. Other important local road links include Neil Road, Bray Road and King Road. Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

### 7.2.21.3 Purpose and overall outcomes

- (1) The purpose of the Mooloolah local plan code is to provide locally relevant planning provisions for the assessment of development within the Mooloolah local plan area.
- (2) The purpose of the Mooloolah local plan code will be achieved through the following overall outcomes:-
  - (a) Mooloolah remains a small rural town with an intimate rural character and identity, primarily servicing the local community and visitors to the area. Some expansion of local business, residential and rural residential uses is provided for.
  - (b) Urban and rural residential development within the Mooloolah local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect and reinforce the character and identity of Mooloolah, provide for the efficient provision of infrastructure and services, avoid constrained land and protect the character and productivity of surrounding rural land.
  - (c) Development retains the key landscape, built form and natural environment elements that contribute to the setting, character and identity of the Mooloolah local plan area as a rural town with a strong sense of place and associations with the past.
  - (d) The Mooloolah Town Centre functions as a local (full service) activity centre providing a range of convenience goods and services to residents of the local plan area and surrounding rural and rural residential areas and provides a focus for small scale retail, commercial and community activity.
  - (e) Whilst the retail and commercial functions of Mooloolah centre may expand and be enhanced, the town centre remains compact and focused on the western side of the railway, with any expansion limited to land included within the Local business zone. Residents of Mooloolah continue to rely upon larger centres such as Beerwah, Sippy Downs or Caloundra to fulfil higher order business and industry needs.
  - (f) The 'rural town' feel, traditional built form and *streetscape* character of the Mooloolah Town Centre is retained and reinforced with Bray Road, Jones Street and Mooloolah Road enhanced as wide, attractive and pedestrian friendly main streets. Development in the Local centre zone addresses the street and complements and enhances the traditional *streetscape* and building form established on the western side of the railway line.
  - (g) Development in the Local centre zone on Lot 2 on RP8474 and Lots 1 and 2 on RP8476, Mooloolah Road, provides for the establishment of a *hotel* (tavern) and *short-term accommodation*. Such development is configured, designed and operated in a manner which minimises impacts on local residential amenity and *adjoining premises*.
  - (h) Development is designed and sited to protect significant views from Mooloolah Connection Road and the Mooloolah Town Centre to the Blackall Range.
  - (i) Development in the Medium density residential zone provides for the establishment of medium density housing which contributes to a high level of residential amenity and design quality consistent with the rural character of the Mooloolah local plan area, the scale and character of the *streetscape* and surrounding development.
  - (j) Development in the Low density residential zone and Rural residential zone, including road and lot layouts and *streetscape*, reflects traditional rural town residential qualities such as low rise detached housing on large lots, open *streetscape* and mature street trees. Development is designed and sited to sensitively respond to the physical characteristics of the land including

flooding and slope constraints, and provides for the retention and enhancement of native *vegetation* and appropriate riparian buffers to the Mooloolah River, South Mooloolah River and tributaries. Where applicable, development provides for the effective treatment and disposal of effluent on-site.

- (k) Home based business, bed and breakfast accommodation and other complementary uses support local employment and take advantage of the comparatively large lot size and the town's picturesque rural and natural setting. These complementary uses are located and designed to protect the local environment and the amenity of surrounding areas.
- (I) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections to, between and around key destinations within the local plan area.
- (m) Development does not compromise or adversely impact upon the future provision or operation of the North Coast Rail Line realignment and duplication and preserves the option for an associated road overpass and pedestrian and cycle connections.

### 7.2.21.4 Assessment criteria Performance outcomes and acceptable outcomes

Porforms	ance Outcomes	Acceptable	Outcomes
	ment in the Mooloolah Local Plan Area G		
PO1	Development provides for buildings,	AO1.1	Buildings and structures incorporate
	structures and landscaping that reflects and enhances the rural town character of Mooloolah in terms of form, composition and use of materials.	AOI.I	traditional external building materials, such as timber cladding and corrugated iron roofs.
	composition and use of materials.	AO1.2	Roof forms use simple, traditional Queensland style roof designs including gable, hip, pitched or multiple gable roof forms.
		AO1.3	Development uses understated colour schemes and low-reflective roofing and cladding materials.
PO2	Development provides for the retention and enhancement of key landscape elements including historical structures, significant views and vistas, existing character trees and areas of significant	AO2.1	Development provides for the retention or relocation and adaptive re-use of, the Mooloolah railway shelter and pedestrian overpass.
	vegetation contributing to the setting, character and sense of place of Mooloolah.	AO2.2	Development protects and emphasises, and does not intrude upon, the important views to the Blackall Range, particularly from Mooloolah Road and the town centre, and other views to surrounding rural and natural areas including Dularcha National Park and adjacent ranges where identified on Figure 7.2.21A (Mooloolah local plan elements).
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation that contribute to the streetscape character and vegetated backdrop to the town including:-  (a) character vegetation in Martin Rungert Park and the Village Green where identified on Figure 7.2.21A (Mooloolah local plan elements); and
			(b) riparian <i>vegetation</i> along the Mooloolah River and South

Performa	nce Outcomes	Acceptable	Outcomes
			Mooloolah River and their tributaries.
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO3	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the sense of entry to, and the rural town character of, Mooloolah.	AO3.1	Development adjacent to the primary streetscape treatment area or the identified gateway/entry point within the town centre on Figure 7.2.21A (Mooloolah local plan elements) incorporates architectural and landscape treatments and other design elements which:-  (a) enhance the sense of arrival to, and the rural town character of, Mooloolah; and (b) emphasise corner sites and locations.
		AO3.2	Development adjacent to the gateway/entry point on Mooloolah Road at the South Mooloolah River identified on Figure 7.2.21A (Mooloolah local plan elements) provides for the retention and enhancement of riparian vegetation and maintains the dominance of natural features over built features in order to maintain the natural character of this gateway/entry point.
		AO3.3	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO4	Development for a food and drink outlet does not:-  (a) provide for the establishment of a high volume convenience restaurant; or  (b) incorporate a drive-through facility.	AO4	No acceptable outcome provided.
PO5	Development on land with frontage to	AO5	No acceptable outcome provided.
	Mooloolah River, or on land otherwise identified as a local ecological linkage on Figure 7.2.21A (Mooloolah local plan elements), facilitates the provision of the local ecological linkage.		Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO6	Development does not compromise the future provision and operation of	AO6	No acceptable outcome provided.
	high volume convenience restaurant; or  (b) incorporate a drive-through facility.  Development on land with frontage to the Mooloolah River and South Mooloolah River, or on land otherwise identified as a local ecological linkage on Figure 7.2.21A (Mooloolah local plan elements), facilitates the provision of the local ecological linkage.  Development does not compromise the		Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.

Performa	ance Outcomes	Acceptable	Outcomes
			to South Mooloolah River.
	ment in the Low Density Residential Zon		Residential Zone
PO12	Reconfiguring a lot in the Low density residential zone and Rural residential zone provides for lot sizes and a configuration of lots that:-  (a) is sympathetic to the rural town character and identity of the Mooloolah local plan area; and  (b) where applicable, provides for safe and effective treatment and disposal of effluent on site.	AO12.1 AO12.2	Development in the Low density residential zone provides for lots which are a minimum of 1,000m² in area.  Development in the Rural residential zone provides for lots which are a minimum of 4,000m² in area, or larger where required to provide for adequate on-site effluent disposal.
PO13	Reconfiguring a lot within the Low density residential zone and Rural residential zone:  (a) provides for an interconnected system of local roads, pedestrian, cycle and open space links with adjoining land;  (b) avoids flood prone land and responds sensitively to areas with slope and landslide constraints;  (c) protects native vegetation areas and provides appropriate riparian buffers to Mooloolah River, South Mooloolah River and their tributaries; and  (d) provides an open feel and transition between the town and adjoining rural residential and rural areas.	A013	Reconfiguring a lot:-  (a) incorporates an interconnected internal road system, pedestrian, cycle and open space links including where identified on Figure 7.2.21A (Mooloolah local plan elements);  (b) avoids land subject to flooding, slope and landslide constraints;  (c) protects native vegetation and dedicates land for ecological purposes along waterways, where identified as a local ecological linkage on Figure 7.2.21A (Mooloolah local plan elements), that links to existing land in the Open space zone or Environmental management and conservation zone; and  (d) provides for larger lot sizes adjoining land in the Rural zone or Rural residential zone.

### Figure 7.2.21A Mooloolah local plan elements

<Figure to be inserted>

### 7.2.22 Nambour local plan code

### 7.2.22.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Nambour local plan area as shown on Map ZM18 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Nambour local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.22.3 (Purpose and overall outcomes);
  - (b) Table 7.2.22.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.22A (Nambour local plan elements).

### 7.2.22.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Nambour local plan code.

The Nambour local plan area is located in the central hinterland of the Sunshine Coast on the North Coast Rail Line and west of the Bruce Highway. The local plan area takes in the town centre and surrounding urban areas of Nambour, which is the largest rural town on the Sunshine Coast. The local plan area has a land area of approximately 1,990 hectares.

The local plan area has a picturesque setting, framed by surrounding hills and hillside vegetation. The local plan area itself is characterised by variable topography with steeper slopes around the margins of the area and undulating land in the central parts. Petrie Creek, Paynter Creek, Whalleys Creek and Tuckers Creek are the main waterways that traverse the local plan area, with central parts of the local plan area, including the fringes of the town centre, being subject to periodic flooding.

Areas of significant riparian vegetation, open space and natural bushland are contained within the local plan area, with Petrie Creek and tributaries providing an important ecological and open space spine. Bushland parks such as Koala Park and Cilento Bushland Conservation Reserve contain high quality remnant vegetation and contribute to the visually attractive setting of Nambour. Nambour also enjoys significant vistas to the Blackall Range in the west and east along the Petrie Creek floodplain to the coast.

Nambour serves an important role as a major regional activity centre providing higher order retail, employment and service needs of its resident population and surrounding hinterland areas, including the nearby rural towns of Woombye, Palmwoods, Montville, Mapleton and Yandina.

These services are mainly provided by the traditional town centre of Nambour focused around Currie Street and Howard Street. A number of smaller local business centres provide for the convenience needs of residential neighbourhoods within the local plan area.

The local plan area also accommodates industrial uses and development, including established industrial estates located in and around Windsor Road, Daniel Street and Rigby Street. The north-eastern corner of the local plan area, focused around the Bruce Highway/Bli Bli Road interchange, includes large extractive industry operations as well as major municipal uses including a regional waste management facility and wastewater treatment plant.

A range of State and Commonwealth Government services are provided in the town and Nambour is also the centre of local government administration for the Sunshine Coast Council. Nambour is also the main regional hub for health and medical services on the Sunshine Coast accommodating two major hospitals, being Nambour General Hospital and the Nambour Selangor Private Hospital. The local plan area contains a range of educational facilities, including a number of primary and secondary schools as well as the Sunshine Coast Institute of TAFE, which is one of the key centres for learning in the region.

A range of cultural and sport and recreation facilities are also located in the local plan area, including the Nambour Civic Centre, police citizens youth club, indoor sports centre, Nambour Showgrounds and numerous other clubs and societies that provide a valuable community focus for the surrounding hinterland and the wider Sunshine Coast.

Nambour provides a mix of residential types to meet community needs, including several retirement communities. However, housing remains predominantly detached in character. Significant consolidation and redevelopment opportunities are available in the local plan area, particularly within walking distance to the town centre and railway station. The older residential parts of the local plan area contain pockets of character housing in the traditional Queensland style. Consolidation is intended to be undertaken in a manner which is sympathetic to the established character of these areas, including the retention of existing character buildings within the development design.

The main north-south road access through the local plan area is via Nambour Connection Road. Bli Bli Road and Petrie Creek Road provide the main road connections between the local plan area and the coastal urban area to the east. Nambour-Mapleton Road provides the main road connection between the local plan area and rural towns and communities to the west. The Bruce Highway passes through the north-eastern corner of the local plan area.

Nambour provides a key transit hub connecting the passenger rail system from Brisbane to the Sunshine Coast's public transport (bus) network. The proposed realignment and duplication of the North Coast Rail Line north to Nambour will further enhance opportunities for transit oriented development in and around the town centre.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

### 7.2.22.3 Purpose and overall outcomes

- (1) The purpose of the Nambour local plan code is to provide locally relevant planning provisions for the assessment of development within the Nambour local plan area.
- (2) The purpose of the Nambour local plan code will be achieved through the following overall outcomes:-
  - (a) Nambour is progressively developed as a major regional activity centre, providing a broad range of higher order uses and activities capable of servicing its resident population as well as surrounding rural towns, villages, rural residential and rural communities.
  - (b) Significant urban consolidation and redevelopment opportunities are provided for within Nambour, with a focus on transit oriented development in and around the town centre and railway station.
  - (c) Urban development within the Nambour local plan area is limited to land within the urban growth management boundary so as to protect and reinforce the separate identity of Nambour, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the landscape character and productivity of surrounding rural lands.
  - (d) A broad range of higher order retail, commercial, community, cultural, health, entertainment and employment generating uses that support the role and function of Nambour as the dominant major regional activity centre for the central Sunshine Coast hinterland are provided to service the needs of Nambour and surrounding areas including Woombye, Palmwoods, Montville, Mapleton and Yandina.
  - (e) Development in the Major centre zone provides for mixed use premises incorporating residential uses above the ground storey so as to provide greater vitality and causal surveillance within the town centre and achieve residential densities that support centre functions and public transport. Whilst the retail and commercial functions of Nambour Town Centre will increase in scale and intensity, the town centre remains compact, with any expansion consolidated and contained to land included within the Major centre zone.
  - (f) Development in Precincts NAM LPP-1 (Nambour Hospitality Area) and NAM LPP-2 (Former Mill Site and Hospitality Area) provides a range of business uses and entertainment activities including food and drink outlets, function facilities, bars, hotels and nightclub entertainment

- facilities that may operate after hours and include live music which creates a vibrant atmosphere.
- (g) Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) consolidates Nambour's role as a major regional activity centre and integrates the site with the traditional town centre through a permeable pedestrian and street network. Building form and urban design on the site provides for an outwardly focussed, main street development which is sympathetic to Nambour's traditional built form and streetscape character.
- (h) The State heritage-listed Mill Houses form part of a courtyard setting for passive recreation and social interaction. The heritage significance of the Mill Houses is maintained and development provides for the retention and re-use of these buildings for business, community, cultural, entertainment and catering uses.
- (i) Development in Precinct NAM LPP-3 (Town Centre Frame) provides for mixed use development with retail business uses at a scale and intensity less than in other parts of the Major centre zone in accordance with Table 7.2.22.4.2 (Nambour local plan supplementary table of consistent uses and potentially consistent uses in the Major centre zone). Development in Precinct NAM LPP-3 also provides for low intensity, small scale industry uses where adverse amenity impacts to surrounding uses are avoided. Physical and visual accessibility from the town centre frame to Nambour's transit hub and town centre core is maximised.
- (j) Development within the Nambour Town Centre provides for visually interesting building elements which respond to and respect the established patterns of development in Nambour and are created to provide high levels of pedestrian comfort and convenience, meaningful architectural expression and interesting urban forms.
- (k) Development within the local plan area protects and retains the established character areas of Nambour and buildings identified as having cultural heritage or streetscape significance as important elements of local character and identity.
- (I) Development retains key landscape character and natural environment elements and protects significant views contributing to the character and landscape setting of Nambour including the prominent vegetated hills, escarpments and ridgelines surrounding the town.
- (m) Development in Precinct NAM LPP-4 (Nambour Health Hub) provides for the consolidation of a sub-regional employment opportunity area, focussed around the Nambour General Hospital and Nambour Selangor Private Hospital. Development in the Local centre zone in the vicinity of the hospitals provides for the establishment of a range of health-related business uses and allied and compatible uses which are sympathetic to the residential amenity and character of the area in accordance with Table 7.2.22.4.3 (Nambour local plan supplementary table of consistent uses and potentially consistent uses in the Local centre zone). Development in this area does not detract from the role and function of Nambour's town centre as the key focus for office and retail activities.
- (n) Development in the Medium density residential zone provides for a mix of housing types and densities with *dwellings* that are generally of a domestic scale or are provided in small groups so as to reduce the perceived scale and mass of development relative to its surrounds.
- (o) Reconfiguring a lot in the Low density residential zone and Emerging community zone incorporates road and lot layouts which sensitively respond to site characteristics and are consistent with the established subdivision pattern of the town, characterised by regular shaped lots, grid street layout, open streetscape and mature street trees. Development occurs in an integrated manner and provides an interconnected network of roads, pedestrian and cycle paths and open space and buffering to surrounding rural lands.
- (p) Development is designed and sited to protect significant environmental and riparian areas and to sensitively respond to the physical characteristics and constraints of land in the local plan area, including flooding, steep slopes and ecologically important areas.
- (q) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitate safe and convenient pedestrian and cycle connections to, between and around key destinations within the local plan area.
- (r) Development does not compromise or adversely impact upon the planned realignment and duplication of the North Coast Rail Line.

#### 7.2.22.4 Assessment criteriaPerformance outcomes and acceptable outcomes

Table 7.2.22.4.1 Criteria-Performance outcomes and acceptable outcomes for assessable development

	assessable development					
Perforr	nance Outcomes	Acceptable	Outcomes			
Develo	pment in the Nambour Local Plan Area G	enerally (All )	Zones)			
PO1	Development provides for visually interesting building elements which:  (a) respond to and respect the traditional streetscape and architectural character of Nambour in terms of scale, siting, form, composition and use of materials; and  (b) facilitate high levels of pedestrian comfort, meaningful architectural expression and interesting urban forms.	AO1	No acceptable outcome provided.			
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas, existing character trees and areas of significant vegetation contributing to the character, setting and sense of place of Nambour.	AO2.1	Development provides for the retention of old stone retaining walls, historical landmarks, memorials and monuments.  Development protects and emphasises, and does not intrude upon, important view lines to the Blackall Range and other views to surrounding rural and natural areas where identified on Figure 7.2.22A (Nambour local plan elements).			
		AO2.3	Development retains and protects existing mature trees and character vegetation contributing to the vegetated backdrop setting and streetscape character of the local plan area including:- (a) riparian vegetation adjacent to Petrie Creek, Paynter Creek, Whalleys Creek, Tuckers Creek and tributaries; (b) native vegetation areas along ridgelines and on prominent hillsides and escarpments framing the town; and (c) other character vegetation identified on Figure 7.2.22A (Nambour local plan elements).  Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.			
PO3	Development provides for the retention and possible future operation of the former sugar cane train railway along the Mill Street/Howard Street route between the former mill site and the former marshalling yards off Howard Street, for the purpose of tourism, transportation, connectivity and retention of heritage values.	AO3	No acceptable outcome provided.			
PO4	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the contemporary rural town character of, and sense of entry and arrival to, Nambour.	AO4.1	Development adjacent to a primary streetscape treatment area or identified gateway/entry point on Figure 7.2.22A (Nambour local plan elements) incorporates architectural and landscape treatments and other design elements			

			which enhance the sense of entry and arrival to, and contemporary rural town character of, Nambour, and emphasise corner locations.
		AO4.2	Development adjacent to the gateway/entry point on Nambour Connection Road at Panorama Drive, identified on Figure 7.2.22A (Nambour local plan elements) provides for the retention and enhancement of significant views and maintains the dominance of natural features over built features in order to maintain the natural character of this gateway/entry point.
		AO4.3	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of <i>streetscapes</i> and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO5	Development on land with frontage to Petrie Creek, Paynter Creek, Whalleys	AO5	No acceptable outcome provided.
	Creek and Tuckers Creek, or on land otherwise identified as a local ecological linkage on Figure 7.2.22A (Nambour local plan elements), facilitates the provision of the local ecological linkage.		Editor's Note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO6	Development protects prominent hillsides, ridgelines and escarpments in the local plan area through sensitive and innovative lot layouts and building siting and design.	AO6	No acceptable outcome provided.
P07	Development improves local connectivity by providing pedestrian and cycle connections to and between key destinations including, but not limited to, those connections identified conceptually on Figure 7.2.22A (Nambour local plan elements).	AO7	No acceptable outcome provided.
PO8	Development does not compromise the provision and operation of <i>transport networks</i> , including the proposed realignment and duplication of the North	AO8	No acceptable outcome provided.
Develor	Coast Rail Line.  Coment in the Major Centre Zone Generally	/	
PO9	Development in the Major centre zone provides large scale and mixed uses that:-  (a) support Nambour's role and function	AO9	No acceptable outcome provided.
	as the dominant major regional activity centre for the central Sunshine Coast hinterland, subservient only to the

			<ul> <li>(i) provides all weather protection along active street frontages in the form of continuous cantilevered awnings and/or lightweight verandah structures with no load bearing posts over footpath areas in conjunction with mature or semi-mature shade trees planted along the site frontage;</li> <li>(j) provides for the continuation of existing laneways and pedestrian and cycle linkages where identified on Figure 7.2.22A (Nambour local plan elements); and</li> <li>(k) provides for on-site car parking at the rear or below ground level of the development.</li> </ul>
P011	Development in the Major centre zone facilitates pedestrian movement and connectivity by providing pedestrian through-block links that:-  (a) are located to connect key activity nodes, including the Nambour transit hub, and pedestrian crossings of streets;  (b) provide a safe alternative to the street-based movement network; and  (c) provide a comfortable pedestrian environment in terms of access, width, shelter, materials and function.	AO11	No acceptable outcome provided.
	oment in the Major Centre Zone in Pro		LPP-1 (Nambour Hospitality Area) and
	t NAM LPP-2 (Former Mill Site and Hospi		No acceptable outcome provided
PO12	Development in Precinct NAM LPP-1 (Nambour Hospitality Area) and NAM LPP-2 (Former Mill Site and Hospitality Area) identified on Local Plan Map LPM18 provides for a range of entertainment/catering business uses and other business uses including food and drink outlets, function facilities, bars, hotels and nightclub entertainment facilities that may operate after hours and include live music which creates a vibrant atmosphere.	AO12	No acceptable outcome provided.
Develor	oment in the Major Centre Zone in Precin	ct NAM I PP-:	2 (Former Mill Site and Hospitality Area)
PO13	Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) identified on <b>Local Plan Map LPM18</b> provides for a proportional share of the total commercial business and retail business floor space for the Nambour town centre through the establishment of only one <i>full line supermarket</i> or discount department store, with a gross leasable floor area not exceeding 4,000m <sup>2</sup> .	AO13	No acceptable outcome provided.
PO14	Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) provides for any large floor plate retail use to be located to the north of the Bury Street extension and on the western side of the Mill Lane extension identified on Figure 7.2.22A (Nambour local plan elements).	AO14	No acceptable outcome provided.

Perform	nance Outcomes	Acceptable	Outcomes
PO15	Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area):- (a) provides for the establishment of an outwardly focused, active main street format; and (b) visually and physically integrates with the established town centre of Nambour and the State heritage-listed Mill Houses.	AO15	Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) is provided in a main street configuration and ensures that:- (a) any large floor plate retail use is separated from the street by sleeving; (b) sleeving comprises active retail business uses or catering business uses located at ground level with residential uses and commercial business uses located on upper building levels; (c) sleeving extends to the Bury Street and Mill Street boundaries and is provided adjacent to the Mill House Courtyard; (d) a civic space (mini plaza) is provided opposite the Mill House Courtyard; (e) site interpretative features, such as public artwork, are provided; and (f) service lanes and loading bays are appropriately screened and are located adjacent to the rail line corridor in areas of least visibility.
P016	Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) provides a functional and permeable street network that:- (a) is integrated with the street network in the Nambour Town Centre; (b) is in the configuration identified on Figure 7.2.22A (Nambour local plan elements); and (c) incorporates the following road network and intersection improvements:- (i) the widening and extension of Mill Lane to connect to Mill Street adjacent to the Mill Houses; (ii) the extension of Bury Street into the Former Mill Site; (iii) the extension of Mitchell Street into the Former Mill Site; (iv) intersections upgraded at Mill Street/Mill Lane; and (v) a new intersection located at the Bury Street and new Mill	AO16	No acceptable outcome provided.
P017	Lane extension.  Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) ensures that the State heritage listed Mill Houses:-  (a) are sensitively reused for a range of business, community and cultural activities; and  (b) form part of a courtyard setting for passive recreation and social interaction as part of the overall redevelopment of the Former Mill Site.	AO17	Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) provides for the establishment of a 'Mill Houses Courtyard' that:- (a) is in the location identified on Figure 7.2.22A (Nambour local plan elements); (b) is designed and constructed in accordance with a detailed master plan; and (c) provides for the following:- (i) adaptive reuse of the buildings for a range of business and community activities that are sympathetic with cultural heritage values;

			(vi) public art works and signage elements that celebrate the Mill Houses' heritage values; (vii) public accessibility at all times; (viii) clear sight lines and visibility corridors to the Mill Houses; and
			(ix) compliance with disability access and CPTED principles and standards.
PO18	Development in Precinct NAM LPP-2 (Former Mill Site and Hospitality Area) on or adjacent to the 'Mill House Courtyard':- (a) clearly displays its physical relationship to the Mill Houses and the Mill Houses Courtyard; and (b) enhances the heritage values associated with the Mill House Courtyard through its use, form and	AO18	No acceptable outcome provided.
Dovola	function.  ppment in the Major Centre Zone in Precin	C+ NAM I DD-	3 (Town Centre Frame)
PO19	Development in the Major centre zone in Precinct NAM LPP-3 (Town Centre Frame) identified on Local Plan Map LPM18 provides for:-  (a) mixed use development that incorporates medium to high density residential uses;  (b) a range of commercial and entertainment/catering business uses;  (c) retail business uses at a scale and intensity less than in other parts of the Major centre zone;  (d) showrooms; and  (e) low intensity and small scale industry uses, provided that there are no adverse amenity impacts on	AO19	No acceptable outcome provided.
PO20	surrounding uses.  Development in the Major centre zone in Precinct NAM LPP-3 (Town Centre Frame) identified on Local Plan Map LPM18 provides for:-  (a) a use listed as a consistent use in Column 1 of Table 7.2.22.4.2 (Nambour local plan supplementary table of consistent uses and potentially consistent uses in the Major centre zone) to occur in the precinct; and  (b) a use listed as a potentially consistent use in Column 2 of Table	AO20	No acceptable outcome provided.

# 7.2.23 Palmwoods local plan code

### 7.2.23.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Palmwoods local plan area as shown on Map ZM28 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Palmwoods local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.23.3 (Purpose and overall outcomes);
  - (b) Table 7.2.23.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.23A (Palmwoods local plan elements).

# 7.2.23.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Palmwoods local plan code.

The Palmwoods local plan area is located in the central part of the Sunshine Coast on the North Coast Rail Line immediately south of Nambour and Woombye. The local plan area comprises the rural town of Palmwoods and adjacent residential and rural residential areas. It takes in a land area of approximately 496 hectares.

The local plan area is set within a picturesque rural and natural landscape on the foothills of the Blackall Range. Paynter Creek forms part of the western boundary of the local plan area and a number of other smaller water courses traverse the local plan area generally in a north-south direction. The local plan area is characterised by an undulating and gently sloping topography and is surrounded by large areas of productive rural land.

Palmwoods is a moderate sized rural town with a small town centre that services the local needs of its resident population as well as the needs of rural and residential communities immediately surrounding the town.

The Palmwoods Town Centre is based along Main Street and Margaret Street and has a traditional main street character with a number of older buildings that provide a strong sense of history and links to the past. The town centre meets the local shopping and convenience needs of Palmwoods and residents of nearby rural and rural residential areas whilst also providing tourist services to visitors. A small light industry area extends along Main Street south of the town centre, and a substantial food processing facility is located on Palmwoods-Montville Road.

The existing historic buildings in Palmwoods, especially fronting Main Street, and other heritage elements, such as the old stone retaining walls, contribute significantly to the character and identity of the town. The Palmwoods Hotel at the corner of Main and Church Streets is an important local landmark and heritage building.

The residential parts of Palmwoods are characterised by predominantly dwelling houses on large suburban lots.

The Palmwoods local plan area is dissected by a number of open space corridors that contain significant areas of remnant vegetation. The local plan area also contains a number of existing sporting facilities and notable parks, such as Kolora Park, with its duck ponds and playground facilities.

The North Coast Rail Line is planned to be subject to re-alignment and duplication, with the proposed new alignment through Palmwoods shifting the rail line and station to the east and freeing up existing rail land for alternative uses and potential improvements to the town centre. The realignment of the rail line also impacts upon opportunities for residential expansion in northern and southern parts of the local plan area with these

areas intended to be predominantly retained for rural uses until the upgrade is completed and associated infrastructure and access issues can be resolved.

Major road links within the local plan area include Palmwoods-Montville Road, Woombye-Palmwoods Road, Eudlo Road and Chevallum Road.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

### 7.2.23.3 Purpose and overall outcomes

- (1) The purpose of the Palmwoods local plan code is to provide locally relevant planning provisions for the assessment of development within the Palmwoods local plan area.
- (2) The purpose of the Palmwoods local plan code will be achieved through the following overall outcomes:-
  - (a) Palmwoods remains a moderate sized rural town with a distinct heritage character, primarily servicing the local needs of its resident population and immediately surrounding rural communities.
  - (b) Urban development within the Palmwoods local plan area is limited to land within the urban growth management boundary so as to protect and reinforce the separate identity of Palmwoods, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the landscape character and productivity of surrounding rural lands.
  - (c) Development retains important built form, *streetscape*, landscape character and natural environment elements that contribute to the character, setting, and identity of Palmwoods as a rural town with a strong sense of place and associations with the past.
  - (d) Development in the Local centre zone supports the role and function of the Palmwoods Town Centre as a local (full service) activity centre, providing a wide range of convenience goods and services to meet the needs of its resident population and immediately surrounding rural communities.
  - (e) The "country town" feel, traditional main street built form and heritage and *streetscape* character of the Palmwoods Town Centre is retained and reinforced, with Main Street and Margaret Street enhanced as attractive and pedestrian friendly streets. Development addresses the street, complements the traditional *streetscape* and building form and retains historical buildings and landmarks contributing to the character and identity of the town.
  - (f) Development provides for centre uses to be consolidated along Main Street, with development along Margaret Street limited to small scale, low intensity business uses with low traffic generation.
  - (g) Redevelopment of disused rail land fronting Main Street in the vicinity of Church Street:-
    - provides for community activities and/or business activities and, in particular, a supermarket;
    - (ii) does not compromise or adversely impact upon the current or future operation of the North Coast Rail Line:
    - (iii) retains existing heritage buildings and features;
    - (iv) provides for safe and convenient pedestrian access to the railway station;
    - provides an attractive and active streetfront address to Main Street and the future pedestrian link to the railway station;
    - (vi) retains public parking servicing the railway station integrated within the development design; and
    - (vii) is designed such that opportunities for possible future expansion are retained following realignment of the rail line.
  - (h) Development in the Low density residential zone and Emerging community zone protects and is sympathetic to the traditional rural town character and identity of Palmwoods, typified by low-rise dwelling houses in generous landscaped grounds. Reconfiguring a lot in the Low density residential zone and Emerging community zone incorporates road and lot layouts which sensitively respond to site characteristics and are consistent with the established subdivision pattern of older parts of the town, characterised by regular shaped lots, grid or

- modified grid layout, open *streetscape* and mature street trees. Development in these zones provides an interconnected network of roads, pedestrian and cycle paths and open space.
- (i) Development in the Medium density residential zone is sympathetic to the traditional rural town character and heritage values of Palmwoods and is of a bulk and architectural scale that does not dominate the *streetscape* or the hillside, is compatible with surrounding development and provides strong pedestrian links to the town centre.
- (j) Development in the Low impact industry zone and Medium impact industry zone provides a range of small to medium scale industry uses compatible with a rural town setting. Industry uses are located, designed and operated in manner that does not adversely impact upon environmental values or the amenity of nearby residential land.
- (k) Development provides for the establishment of a linked system of open space focussed on continuous vegetated corridors along Paynter Creek and the major drainage lines which traverse the local plan area.
- (I) Development is designed and sited to protect significant environmental and riparian areas and to sensitively respond to the physical characteristics and constraints of land in the local plan area, including flood prone land, steep slopes and native *vegetation*.
- (m) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections to, between and around key destinations within the local plan area.
- (n) Development does not compromise or adversely impact upon the operation or future upgrading of the North Coast Rail Line. Rural land located within the urban growth management boundary is not developed for urban purposes prior to the re-alignment of the North Coast Rail Line.
- (o) In the event that the North Coast Rail Line is re-aligned within the life of the planning scheme, the pattern of land use and the provision of transport and other *infrastructure* in the Palmwoods local plan area is adapted to:-
  - appropriately utilise surplus railway land to consolidate and provide for improvements to the Palmwoods town centre, particularly in terms of the provision of community facilities and urban open space, with some expansion of business uses provided for;
  - (ii) provide for the development of rural land within the urban growth management boundary that has been identified as being potentially suitable for urban purposes but that cannot be efficiently integrated within the town fabric prior to the realignment of the North Coast Rail Line.
- (p) Development of surplus railway land and rural land within the urban growth management boundary that becomes available as a consequence of the re-alignment of the North Coast Rail Line occurs in a logical manner, consistent with the availability of *infrastructure* and services. Development that brings forward a requirement for new *infrastructure* only occurs if that *infrastructure* is provided as part of the development.
- (q) Development of surplus railway land and rural land within the urban growth management boundary that becomes available as a consequence of the re-alignment of the North Coast Rail Line is master planned.

### 7.2.23.4 Assessment criteria Performance outcomes and acceptable outcomes

#### 

	es
Development in the Palmwoods Local Plan Area Generally	
structures and landscaping that is consistent with and reflects the traditional streetscape and built form and rural town character of Palmwoods.  and rural town character of Palmwoods.	oment provides for the retention adaptive re-use, with limited ation, of buildings which have heritage or character significance.  note—Section 8.2.9 (Heritage and er areas overlay code) sets out

Torrornic	ince outcomes	Acceptable	requirements for development on heritage
			places and in character areas.
		AO1.2	Buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.
		AO1.3	For residential, business and community activities, roof forms are simple, traditional Queensland-style roof designs including gable, hip, pitched or multiple gable roof forms.
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas, existing	AO2.1	Development provides for the retention of old stone retaining walls, historical landmarks, memorials and monuments.
	character trees and areas of significant vegetation contributing to the character, setting, and sense of place of Palmwoods.	AO2.2	Development protects and emphasises, and does not intrude upon, important view lines to the Blackall Range and other views to surrounding rural and natural areas where identified on Figure 7.2.23A (Palmwoods local plan elements).
		AO2.3	Development protects and enhances existing mature trees and character vegetation including:- (a) riparian vegetation along Paynter Creek and the major drainage lines running north from Rifle Range Road across Palmwoods School Road and Dunning Street; (b) vegetation in Kolora Park identified on Figure 7.2.23A (Palmwoods local plan elements); (c) bushland along Woombye-Palmwoods Road, Eudlo Road and Palmwoods-Montville Road; and (d) other character vegetation identified on Figure 7.2.23A (Palmwoods local plan elements).
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO3	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the rural town character of, and sense of entry and arrival to, Palmwoods.	AO3.1	Development adjacent to a primary streetscape treatment area or identified gateway/entry point on Figure 7.2.23A (Palmwoods local plan elements) incorporates architectural and landscape treatments and other design elements which enhance the sense of entry and arrival to, and rural town character of, Palmwoods, and emphasise corner locations.
		AO3.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.

Performance Outcomes

Performa	ince Outcomes	Acceptable	Outcomes
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO4	Development provides through block pedestrian linkages which:  (a) are located to reflect the desire lines of pedestrian movement between major points of attraction and public spaces;  (b) provide a safe alternative to the street based pedestrian and cycle movement network; and  (c) provide a comfortable pedestrian environment in terms of access, width, shelter, materials and function.	AO4	Development provides visible, safe, comfortable and attractive through block pedestrian linkages where identified on Figure 7.2.23A (Palmwoods local plan elements).
PO5	Development is sited and designed in a manner which sensitively responds to local topography.	AO5	Development on sloping sites provides for building form that steps down the slope and minimises the extent of cut and fill required to accommodate development.
PO6	Development on land with frontage to Paynter Creek and the major drainage lines running north from Rifle Range Road across Palmwoods School Road and Dunning Street, or on land otherwise identified as a local ecological linkage on Figure 7.2.23A (Palmwoods local plan elements), facilitates the provision of the local ecological linkage.	AO6	No acceptable outcome provided.  Editor's note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
P07	Development does not compromise or adversely impact upon the operation or future upgrading of the North Coast Rail Line.	A07	No acceptable outcome provided.
PO8	Development for a food and drink outlet does not:-  (a) provide for the establishment of a high volume convenience restaurant; or  (b) incorporate a drive-through facility.	AO8	No acceptable outcome provided.
Develop	ment in the Local Centre Zone		
PO9	Development in the Local centre zone provides for small scale uses and mixed uses that:-  (a) support Palmwoods' role and function as a local (full service) activity centre; and  (b) provide a wide range of goods and services to meet the convenience needs of Palmwoods' resident population and immediately surrounding rural community.	AO40	No acceptable outcome provided.
PO10	Development in the Local centre zone provides for:-  (a) Main Street to be retained as the primary focus for centre activities; and  (b) development along Margaret Street to be limited to small scale, low intensity business uses with low	AO10	No acceptable outcome provided.

Performa	ance Outcomes	Acceptable	Outcomes
	traffic generation.	_	
PO11	Development in the Local centre zone:  (a) is sympathetic to the rural town character and identity of Palmwoods;  (b) addresses the street;  (c) complements the traditional built form and streetscape;  (d) creates vibrant and active streets and public spaces;  (e) provides continuous weather protection for pedestrians;  (f) uses traditional building materials; and  (g) provides functional and integrated access, car parking and servicing areas which preserve the integrity of existing stone retaining walls and do not dominate the street.	AO11	Development in the Local centre zone:  (a) provides for Main Street and Margaret Street to be maintained and enhanced as attractive and pedestrian friendly main streets;  (b) provides for primary active street frontages, built to the front boundary, where identified on Figure 7.2.23A (Palmwoods local plan elements);  (c) maintains the appearance of finegrained shopfronts addressing the street;  (d) respects the layout, scale (including height and setback) and character of existing buildings;  (e) provides all-weather protection for pedestrians in the form of continuous awnings and/or light verandah structures with decorative (non-load bearing) posts over footpath areas in conjunction with mature or semimature shade trees planted along the site frontage adjacent to the kerbside;  (f) has simple, traditional Queensland-style roof designs such as hipped or gabled and parapet walls of various shapes facing the street;  (g) has building openings overlooking and addressing the street;  (h) incorporates vertical proportions on the front façade and well defined shopfronts and entry doors;  (i) uses traditional building materials (timber cladding and corrugated iron roofing);  (j) uses understated colour schemes and low-reflective roofing and cladding materials;  (k) ensures that signage is integrated with the building;  (l) includes provision of landscaping, shaded seating and consistent and simple paving materials on footpaths;  (m) provides for vehicular access to be from the rear of sites where required to preserve old stone retaining walls; and  (n) retains on-street car parking and provides for on-site car parking behind buildings at the rear of the development.
PO12	Redevelopment of disused railway land adjacent to Main Street in the vicinity of Church Street:-  (a) provides for the development of community activities and/or business activities, in particular, a supermarket (where not otherwise established in the local plan area);  (b) does not compromise or adversely impact upon the current or future operation of the North Coast Rail Line;  (c) provides for the retention and/or	AO12	No acceptable outcome provided.

<Figure to be inserted>

# 7.2.24 Peregian South local plan code

# 7.2.24.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Peregian South local plan area as shown on Map ZM10 contained within **Schedule 2 (Mapping)**; and
  - (b) identified as requiring assessment against the Peregian South local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.24.3 (Purpose and overall outcomes);
  - (b) Table 7.2.24.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.24A (Peregian South local plan elements).

# 7.2.24.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and assists in the interpretation of the Peregian South local plan code.

The Peregian South local plan area is located in the central eastern part of the Sunshine Coast, west of Peregian Beach and immediately west of the Sunshine Motorway. The local plan area includes the emerging communities of Peregian Springs/Coolum Ridges comprising a number of residential neighbourhoods, a local (full service) activity centre, a number of smaller local centres, schools and large areas of open space including the Peregian Springs Golf Course and several environmental parks. The local plan area has a land area of approximately 597 hectares.

The local plan area is located on coastal lowlands within the core conservation area of the National Wallum Estate and is bounded on three sides by adjuncts of the Noosa National Park. The protection of the extensive environmental parks and interconnected system of remnant vegetation corridors protecting and linking key natural conservation areas present in and surrounding the local plan area is an important factor in supporting the long-term viability of these state and national reserves.

The established residential parts of the local plan area are characterised by dwelling houses on residential lots of varying sizes surrounding a large private golf course. The local plan area also includes a State school and a private school (St Andrews Anglican College).

Major road links within the local plan area include the Sunshine Motorway, Emu Mountain Road and Peregian Springs Drive.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

# 7.2.24.3 Purpose and overall outcomes

- (1) The purpose of the Peregian South local plan code is to provide locally relevant planning provisions for the assessment of development within the Peregian South local plan area.
- (2) The purpose of the Peregian South local plan code will be achieved through the following overall outcomes:-
  - (a) The Peregian South local plan area is a discrete master planned residential area providing a mix of dwelling types in a number of residential neighbourhoods and supported by a local (full service) activity centre and several smaller local (not full service) activity centres providing convenience shopping and local commercial uses, as well as a range of community facilities and large areas of open space.

- (b) Urban development with the Peregian South local plan area is limited to land within the urban growth management boundary so as to protect significant environmental areas and landscape values and provide for the efficient provision of *infrastructure* and services.
- (c) Development is sited and designed to protect and enhance the natural environmental and scenic values of the Peregian South local plan area and adjacent areas including wetland, wallum heathland, paperbark and open eucalypt bushland vegetation communities, and provides for the establishment, protection and enhancement of a system of interconnected ecological and open space linkages.
- (d) Development adjacent to the Noosa National Park or other conservation areas incorporates appropriate measures to protect the long-term viability of these areas.
- (e) Development in the Local centre zone at the corner of Peregian Springs Drive and Ridgeview Drive supports its role and function as a local (full service) activity centre providing a wide range of business uses and community facilities to service the local level needs of residents within the local plan area.
- (f) A number of smaller local (not full service) activity centres are also located throughout the local plan area servicing the basic convenience needs of nearby residents. With the exception of areas already zoned for local centre purposes and additional small local centres to be located within the emerging community areas at Coolum Ridges and Old Emu Mountain Road, no additional local business centres are established within the local plan area. Residents continue to rely upon larger centres such as Noosa Business Centre or Maroochydore to fulfil higher order business and industry needs.
- (g) Development within the Low density residential zone, Medium density residential zone and Emerging community zone is effectively integrated with existing subdivision patterns and provides for walkable neighbourhoods with good pedestrian and cycle connectivity to local centres, community and sport and recreation facilities and open space, as well as a diverse range of lot sizes and housing choices.
- (h) Development provides for the Peregian Springs Golf Course to be retained as an important sport and recreation facility and valuable area of private open space contributing to the character and identity of the local plan area.
- (i) Development provides a network of open space to meet the needs of the local community and an integrated, legible and permeable road, cycle and pathway network which connects residential neighbourhoods to local centres, community and sport and recreation facilities and open space.
- (j) Development along the Sunshine Motorway and Emu Mountain Road protects the visual amenity of these roads as scenic routes and provides a wide, densely vegetated landscape buffer to effectively screen development from the road.
- (k) Development occurs in a logical sequence and provides for the efficient and timely provision of *infrastructure* and services.

Editor's note—development at Peregian Springs, Coolum Ridges and Old Emu Mountain Road is currently regulated in accordance with an approved master plan and plan of development.

## 7.2.24.4 Assessment criteria Performance outcomes and acceptable outcomes

## 

Performance Outcomes		Acceptable	Outcomes
Develop	ment in the Peregian South Local Plan A	rea Generall	y
P01	Development provides for buildings, structures and landscaping that are consistent with and reflect the coastal urban character and natural landscape setting of the Peregian South local plan area.	AO1.1	Development provides for building design which incorporates the following features:-  (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing;  (b) articulated, pitched, skillion or curved

	establishment of attractive and coherent streetscapes and gateways to:  (a) enhance the sense of entry to the local plan area; and  (b) enhance the landscape and visual amenity of the Sunshine Motorway.		gateway/entry points, where identified on Figure 7.2.24A (Peregian South local plan elements), provides dense landscaping which effectively screens development from the Sunshine Motorway and enhances the natural landscape character of the local plan area.
		AO2.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
PO3	Development on land adjacent to the Sunshine Motorway or Emu Mountain Road incorporates a landscape buffer to visually screen built form elements and maintain and enhance the visual amenity of these roads as scenic routes.	AO3	Development provides a minimum 20 metre wide densely vegetated <i>landscape buffer</i> along the Sunshine Motorway and Emu Mountain Road <i>frontage</i> , where identified on Figure 7.2.24A (Peregian South local plan elements).
PO4	Development provides for the Peregian Springs Golf Course to be retained as an important sport and recreation facility and open space area contributing to the character and identity of the local plan area.	AO4	No acceptable outcome provided.
PO5	Development provides for the retention and enhancement of key landscape elements including <i>wetlands</i> , wallum heathland, bushland and other areas of significant <i>vegetation</i> contributing to the setting and character of the local plan area.	AO5	Development provides for the retention and enhancement of existing mature trees, stands of paperbarks, eucalypt, wallum heath and wetlands.
PO6	Development facilitates the provision of local ecological linkages connecting remnant <i>vegetation</i> areas within the local plan area to surrounding	AO6	No acceptable outcome provided.  Editor's note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological

<Figure to be inserted>

## Sippy Downs local plan code 7.2.25

### 7.2.25.1 **Application**

- This code applies to assessable development:
  - within the Sippy Downs local plan area as shown on Map ZM33 contained within Schedule 2 (Mapping); and
  - identified as requiring assessment against the Sippy Downs local plan code by the tables of (b) assessment in Part 5 (Tables of assessment).4.
- The following provisions of the code are assessment benchmarks for applicable assessable development:
  - section 7.2.25.3 (Purpose and overall outcomes);
  - Table 7.2.25.4.1 (Performance outcomes and acceptable outcomes for assessable development in the Sippy Downs local plan area generally);
  - Table 7.2.25.4.2 (Additional performance outcomes and acceptable outcomes for assessable development in Precinct SID LPP-1 (Sippy Downs Town Centre)); and
  - Figure 7.2.25A (Sippy Downs local plan elements).

### 7.2.25.2 Context and setting

This section is extrinsic material under section 15 of the Statutory Instruments Act 1992 and is intended to assist in the interpretation of the Sippy Downs local plan code.

The Sippy Downs local plan area is located in the central part of the Sunshine Coast, along the Sunshine Motorway, bordered to the west by the Bruce Highway, to the south by Sippy Creek and the Palmview declared master plan area and to the east by the Mooloolah River National Park. The local plan area includes the proposed Sippy Downs Town Centre, the University of the Sunshine Coast, the communities of Chancellor Park and Bellflower located to the south of the Sunshine Motorway and the Stringybark Road area north of the Sunshine Motorway. The local plan area takes in a land area of approximately 775 hectares.

The northern part of the local plan area is well vegetated and provides a bushland setting at the base of the Buderim escarpment and along Mountain Creek. The wallum heathland and open eucalypt woodlands of the Mooloolah River National Park, and remnant riparian vegetation along Sippy Creek provide an attractive landscape setting and natural edge to the local plan area in the east and south. The Chancellor Lakes system also provides an important open space link through the local plan area.

The proposed Sippy Downs Town Centre, located adjacent to the University of the Sunshine Coast, is a major regional activity centre and is intended to provide significant retail, commercial and community activities to service the needs of its resident population as well as the needs of surrounding communities, including the emerging community of Palmview located to the south of the local plan area. The proposed Sippy Downs Business and Technology Sub-precinct is located adjacent to the proposed Town Centre core and the University of the Sunshine Coast and is intended to support a broad range of science and technology based businesses and industries and maintain a strong nexus with the University.

The University of the Sunshine Coast is a regionally significant facility providing a focus for education, research and cultural activities on the Sunshine Coast. The University is intended to continue to grow and develop in conjunction with the new Town Centre. A number of schools are also located within the local plan area adjacent to the University including Chancellor State College primary and secondary campuses, Siena Catholic College and Siena Primary School and the Montessori International College.

The existing residential areas of the local plan area including the Chancellor Park and Bellflower estates comprise primarily single dwelling houses on suburban lots of varying sizes. Substantial retirement facilities are located within Chancellor Park and student accommodation is also provided adjacent to the University. Local centres at Chancellor Village Boulevard and Scholars Drive currently provide for the convenience needs of residents. Several showrooms are also located along Chancellor Village Boulevard.

The Stringybark Road area in the northern part of the local plan area, currently comprises a small local business area and primarily low density and rural residential development, with small areas of multi-unit residential development. Parts of this area are intended to be redeveloped for medium density dwellings and low density residential development, given its proximity to the proposed Sippy Downs Town Centre.

The Sunshine Motorway is the major road link within the local plan area, traversing the local plan area in an east-west direction. Other key local road links include Sippy Downs Drive, University Way, Crosby Hill Road, Claymore Road, Dixon Road and Stringybark Road.

The local plan area has high levels of accessibility due to its location at the juncture of the Sunshine Motorway and the Bruce Highway.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

## 7.2.25.3 Purpose and overall outcomes

- The purpose of the Sippy Downs local plan code is to provide locally relevant planning provisions for (1) the assessment of development within the Sippy Downs local plan area.
- (2)The purpose of the Sippy Downs local plan code will be achieved through the following overall outcomes:-
  - (a) The Sippy Downs local plan area is a diverse urban area comprising a number of residential neighbourhoods and the University of the Sunshine Coast, supported by a major regional activity centre at Sippy Downs Town Centre.
  - (b) Urban and rural residential development in the Sippy Downs local plan area is limited to land within the urban and rural residential growth management boundaries respectively so as to protect the environmental and natural landscape values of the Mooloolah River National Park, Sippy Creek and bushland areas at the base of the Buderim escarpment, and to ensure the efficient provision of infrastructure and services.
  - Development is sited and designed to protect and enhance the natural environmental and (c) scenic values of the lower Buderim escarpment, Mountain Creek and Sippy Creek and adjacent areas including wetland, wallum heathland, paperbark and open eucalypt bushland vegetation communities, and provides for the establishment, protection and enhancement of an interconnected system of ecological and open space linkages. Development in the Sippy Downs Town Centre provides a biodiversity offset for native vegetation cleared as part of the development.2
  - (d) Development provides for high quality, sub-tropical building and landscape design that emphasises the casual, outdoor lifestyle. In the Major centre zone and High density residential zone, development:-
    - (i) has a perimeter block form to maintain and define an active public realm and allow significant densities to be achieved without high rise buildings; and
    - achieves a comfortable pedestrian scale and quality in the public realm by providing (ii) buildings with a variety of heights to reduce the wall effects of development and create a varied skyline.
  - Development supports the role and function of the Sippy Downs Town Centre (Precinct SID (e) LPP-1) as a major regional activity centre, providing a broad range of higher order retail, commercial, community, entertainment and employment generating uses to service the needs of residential areas within the local plan area and surrounding areas, including residential areas south of Buderim and west of Mooloolaba and the emerging community of Palmview, as well as significant residential development to support transit oriented development outcomes.
  - (f) Development in the Sippy Downs Town Centre (Precinct SID LPP-1) does not detract from or have an adverse impact on the intended role and function of:-

Note—the clearing of native *vegetation* for the purposes of providing for the development of the Sippy Downs Town Centre Major Regional Activity Centre is considered to satisfy the community interests test set out in section 3.7.2.1(c) of the Strategic Framework. Notwithstanding this, vegetation is still to be retained in the specific circumstances required by this code. Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out the requirements for environmental offsets. Approval for clearing may still be required under State or Federal legislation.

- Maroochydore as the principal regional activity centre for the Sunshine Coast; or (i)
- (ii) nearby major regional activity centres at Nambour and Kawana.
- Development supports the role and function of the University of the Sunshine Coast and the (g) Sippy Downs Business and Technology Sub-precinct as regional employment opportunity areas which:-
  - (i) in the case of the University of the Sunshine Coast, provides a focus for tertiary education, training and research activities; and
  - in the case of the Sippy Downs Business and Technology Sub-precinct, provides a (ii) focus for science and technology related business and industries and has a strong nexus with the University of the Sunshine Coast.
- (h) Development in the Major centre zone in Sub-precinct SID LPSP-1a (Sippy Downs Town Centre Core):-
  - (i) provides the main retail, commercial and civic uses for the local plan area in accordance with Table 7.2.25.4.3 (Sippy Downs local plan supplementary table of consistent uses and potentially consistent uses in the Major centre zone);
  - (ii) results in the creation of a traditional main street based town centre rather than a shopping centre or internalised mall type of development;
  - (iii) incorporates medium to high density residential uses as part of mixed use developments<sup>3</sup>:
  - is characterised by its vibrant, active streets with high pedestrian activity and buildings (iv) with close street relationships;
  - results in a walkable centre characterised by wide tree lined streets and public spaces (v) marking prominent corners and provides expansive social space for community life and interaction;
  - (vi) provides a simple, grid-based urban form and movement network which ensures a high level of connectivity for pedestrians, cyclists and vehicles;
  - provides public open space in the form of a centrally located Town Square and a (vii) number of Mini Plazas at specific locations;
  - (viii) provides land for the establishment of a multi purpose, integrated community facility;
  - provides safe, efficient and legible pedestrian access to public transport infrastructure; (ix)
  - ensures retail uses are dispersed across the town centre core rather than being (x) consolidated in one area:
  - provides that all retail premises being a supermarket or a discount department store (xi) are separated by a street and are not developed as an indoor retail shopping mall; and
  - provides that all or most retail uses address and activate the street. (xii)
- Development in the Major centre zone in Sub-precinct SID LPSP-1b (Sippy Downs Business (i) and Technology Sub-precinct):-
  - (i) supports the creation of a 'knowledge-based' employment precinct that has a strong nexus with the University of the Sunshine Coast and provides opportunities to incubate and grow businesses;
  - (ii) comprises a range of commercial, educational, health care, government and some residential uses that support and complement the Town Centre Core (Sub-precinct SID LPSP-1a) and the University of the Sunshine Coast in accordance with Table 7.2.25.4.3 (Sippy Downs local plan supplementary table of consistent uses and potentially consistent uses in the Major centre zone);
  - provides for uses including research facilities, laboratories, research and technology-(iii) based industries, offices and consulting rooms, a conference centre, studios, media production facilities, community and education-related uses and tourist and conference accommodation;
  - provides for medium density mixed use developments incorporating residential and (iv) non-residential uses;
  - provides a simple grid-based urban form and movement network that links with (v) extensions of the Town Centre Core (Sub-precinct SID LPSP-1a) grid and extensions of the University of the Sunshine Coast grid;
  - (vi) provides public open space in the form of a Town Plaza and a number of Mini Plazas at specific locations; and
  - (vii) provides for a small local (not full service) activity centre that:-

Note—mixed use development in the Sippy Downs Town Centre may be staged such that initial stages of development do not include a residential component provided that:-

<sup>(</sup>a) it is clear how future stages of development will achieve a mixed use development outcome; and

<sup>(</sup>b) the early stages of development do not prejudice the delivery of a mixed use development outcome.

- (A) serves the local residents, businesses and employees of the immediate area;
- (B) is located in the 'Main Street' designated area on the southern side of the Town Plaza: and
- (C) has a total maximum gross leasable floor area for retail and catering uses that does not exceed 500m<sup>2</sup>.
- The Chancellor Park West local centre located on Chancellor Village Boulevard, functions as a (i) local (full service) activity centre servicing the local convenience needs of nearby residents. Development for retail premises in the Local centre zone and Specialised centre zone at Chancellor Park West does not expand beyond the specified maximum gross leasable floor area limit so as to protect the intended role and function of the Sippy Downs Town Centre.
- Other designated local centres at Stringybark Road and Scholars Drive are retained as local (k) (not full service) activity centres servicing the basic convenience needs of nearby residents.
- Development in the High density residential zone in Sub-precinct SID LPSP-1c (Sippy Downs (I) West Neighbourhood) provides for a high quality, walkable residential neighbourhood comprising a range of medium to high density housing types in close proximity to the Sippy Downs Town Centre and focussed around a large central public open space in the form of a forest park. Development is configured in a grid layout which ensures a high level of connectivity internally and externally, particularly to the Sippy Downs Town Centre Core, and maintains a perimeter block form of development with buildings overlooking the street, parks and other public spaces.
- (m) Residential expansion occurs in the Stringybark Road area as large lots are developed for a range of residential dwelling types and densities in accordance with allocated zones. Development in this area occurs in an integrated manner and provides a high level of permeability and connectivity including new road links between Toral Drive and Jorl Court, Jorl Court and Walgarri Drive and Stringybark Road and Dixon Road (via Goshawk Boulevard and Power Road).
- (n) Development in the Emerging community zone at 137 Crosby Hill Road, Tanawha, provides for:-
  - (i) business activities to be limited to small scale local convenience goods and services
  - a dedicated road link between Crosby Hill Road and Rainforest Sanctuary Drive; and (ii)
  - (iii) adequate and sensitive address of site constraints including flooding, vegetation, waterways and wetlands.
- Development in the Medium density residential zone, Low density residential zone, Emerging (o) community zone and Rural residential zone provides a network of open space to meet the needs of the local community and an integrated, legible and permeable road, cycle and pathway network which connects residential neighbourhoods to the Sippy Downs Town Centre, local centres, the University of the Sunshine Coast, local schools, community and sport and recreation facilities and open space.
- Development along the Sunshine Motorway and Bruce Highway protects the visual amenity of (p) these roads as scenic routes and provides a wide, densely vegetated landscape buffer to effectively screen development from these roads.
- The transport network is progressively upgraded to meet the needs of the local plan area and (q) provide increased connectivity and permeability. Development contributes to, and does not compromise the provision and operation of, proposed new roads within the Sippy Downs Town Centre and the Stringybark Road area, the Sunshine Motorway or the Bruce Highway.
- Development occurs in a logical sequence and provides for the efficient and timely provision of (r) infrastructure and services in a manner that does not compromise the future development of any adjoining lot or the planned ultimate development outcomes.
- Development provides telecommunications infrastructure and services such that the Sippy (s) Downs local plan area, and in particular the Sippy Downs Town Centre and the University of the Sunshine Coast, has best practice standard telecommunications capability.

## Table 7.2.25.4.1 Criteria Performance outcomes and acceptable outcomes for assessable development in the Sippy Downs local plan area generally

Assessment criteriaPerformance outcomes and acceptable outcomes

	assessable development	in the Sipp	y Downs local plan area generally
Performa	ance Outcomes	Acceptable	Outcomes
Develop	ment in the Sippy Downs Local Plan Area	a Generally (	
PO1	Development does not detract from the role and function of the Sippy Downs Town Centre (Major centre zone) as a major regional activity centre and the primary focus for retail, commercial and civic activities within the local plan area.	AO1	No acceptable outcome provided.
PO2	Development for a higher order business use is located in Sub-precinct SID LPSP-1a (Sippy Downs Town Centre Core), including the following:- (a) a full line supermarket; (b) a discount department store; and (c) a theatre.	AO2	No acceptable outcome provided.
PO3	Development provides for buildings, structures and landscaping that are consistent with and reflect and enhance the coastal urban character of the Sippy Downs local plan area.	A03.1	Development provides for building design which incorporates the following features:- (a) a mix of lightweight and textured external building materials, including timber finishes or masonry construction with variation provided in texture and detailing; (b) articulated, pitched, skillion or curved roof forms; (c) open or transparent balustrades; and (d) landscaping integrated into the building design.
		AO3.2	Development uses understated colour schemes and low-reflective roofing and cladding materials.
		AO3.3	Development provides for existing mature trees and stands of native <i>vegetation</i> to be retained and incorporated into the design of development.
PO4	Development provides for the retention and enhancement of key landscape elements including wetlands, wallum heathland, bushland and other areas of significant vegetation contributing to the setting, character and sense of place of the Sippy Downs local plan area.	AO4	Development retains, protects and enhances existing mature trees and character vegetation contributing to the setting and character of the local plan area including:-  (a) riparian vegetation along Mountain Creek and Sippy Creek;  (b) bushland areas at the base of the Buderim escarpment identified on Figure 7.2.25A (Sippy Downs local plan elements);  (c) bushland within the landscape buffer to the Sunshine Motorway; and  (d) other character vegetation identified on Figure 7.2.25A (Sippy Downs local plan elements).  Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
PO5	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance	AO5.1	Development adjacent to gateway/entry points where identified on Figure 7.2.25A (Sippy Downs local plan elements):-

7.2.25.4

Performa	nce Outcomes	Acceptable	Outcomes
	the sense of entry to, and character of, the Sippy Downs local plan area.		<ul> <li>(a) incorporates architectural and landscape treatments which enhance the sense of arrival to, and the coastal urban character, of the local plan area, and emphasise corner locations; and</li> <li>(b) incorporates building materials such as varied roof forms, changes in materials and variations in projected and recessed elements and facades.</li> </ul>
		AO5.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of streetscapes and landscape design.  Note—Section 9.4.2 (Landscape code) sets
			out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required.
			Editor's note—Table 7.2.25.4.2 (Additional criteria for assessable development in Precinct SID LPP-1 (Sippy Downs Town Centre) sets out the requirements for streetscape improvements in Precinct SID LPP-1 (Sippy Downs Town Centre).
PO6	Development on land adjacent to the Sunshine Motorway or the Bruce Highway provides a wide densely vegetated landscape buffer to visually screen built form elements and maintain and enhance the visual amenity of	AO6	Development on land adjacent to the Sunshine Motorway or the Bruce Highway provides a minimum 20 metre wide densely vegetated landscape buffer.  Editor's note—Table 7.2.25.4.2 (Additional
	these roads as scenic routes.		criteria for assessable development in Precinct SID LPP-1 (Sippy Downs Town Centre) sets out the requirements for landscape buffers in Precinct SID LPP-1 (Sippy Downs Town Centre).
PO7	Development improves local connectivity by providing an integrated, legible and permeable road, cycle and pathway network which provides connections to and between key	AO7.1	Development complements and extends pedestrian and cycle linkages, including where identified on Figure 7.2.25A (Sippy Downs local plan elements).
	destinations including the Sippy Downs Town Centre, local centres, the University of the Sunshine Coast, existing and proposed transit stations and public transport stops, community facilities, schools, recreation facilities and open space.	AO7.2	Development provides a simple, grid-based road/street network which complies with and complements the proposed road/street network identified on Figure 7.2.25A (Sippy Downs local plan elements).
PO8	Development on land with frontage to Sippy Creek or Mountain Creek facilitates the provision of a local ecological linkage as identified on Figure 7.2.25A (Sippy Downs local plan elements).	AO8	No acceptable outcome provided.  Editor's note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO9	Development provides for, and does not compromise the future provision and operation of, transport networks	AO9	No acceptable outcome provided.

	centre as a local (full service) activity centre providing convenience goods and service to local residents; and (b) other local business areas as local (not full service) activity centres providing basic convenience goods and services to local residents.		
PO11	Development in the Local centre zone provides for the <i>gross leasable floor area</i> of commercial and retail business uses to not exceed:- (a) for the Chancellor Park West Local Centre, a total of 8,400m <sup>2</sup> ; and (b) for other local centres, a total of 1,000m <sup>2</sup> .	AO11	No acceptable outcome provided.
	Editor's note—Table 7.2.25.4.2 (Additional criteria for assessable development in Precinct SID LPP-1 (Sippy Downs Town Centre) sets out the requirements for local centres in Precinct SID LPP-1 (Sippy Downs Town Centre).		
PO12	Development in the Local centre zone provides for no more than one supermarket to be established so as to protect the role and function of the Sippy Downs Town Centre.	AO12	No acceptable outcome provided.
PO13	Development in the Local centre zone provides:-  (a) a coherent and attractive streetfront address and achieves a high level of visual amenity;  (b) vibrant and active streets and public spaces;  (c) a high level of comfort and convenience for pedestrians; and  (d) functional and integrated car parking and servicing areas which do not dominate the street.	AO13	Development in the Local centre zone:-  (a) respects the layout, scale and character of development on adjoining sites;  (b) has building openings overlooking the street;  (c) provides for primary active street frontages, built to the front boundary, where identified on Figure 7.2.25A (Sippy Downs local plan elements);  (d) provides all weather protection in the form of continuous awnings and/or light verandah structures over footpath areas with mature or semimature shade trees planted along the site frontage adjacent to the kerbside;  (e) includes provision of landscaping, shaded conting and aggritant and

	to the Council in freehold tenure; (d) is located in accordance with Figure 7.2.25B (Sippy Downs Town Centre Master Plan);		the Council in freehold tenure; and (d) is designed in accordance with the standards specified in the Planning scheme policy for Sippy Downs
	(e) provides a maintenance aisle adjacent to the <i>buffer</i> area capable of accommodating a small truck/ute and all services including sewer and stormwater treatment		Town Centre.
	functions;  (f) does not contain any type of above or below ground development or structure; and  (g) where no vegetation exists,		
	provides a densely vegetated area similar to Regional Ecosystems in the area.		
Landsca	ping and Environment		
PO22	Development provides for retained environmentally sensitive areas to be included in appropriately sized and located areas to ensure that protected or threatened communities or species can continue to grow and reproduce in the locality without being detrimentally impacted upon by adjacent land uses.	AO22	Development ensures that retained environmentally sensitive areas are:- (a) included in corridors linking these areas to nearby bushland remnants; (b) protected by an adequate buffer to avoid degradation as a result of edge effects; and (c) protected from nearby development that may negatively impact on the ability of plants to continue to grow and reproduce.
PO23	Development:-	AO23.1	Note—Figure 7.2.25F (Sippy Downs Town Centre Open Space, Pedestrian and Cycle Linkages) identifies an Environmentally Sensitive Area (Frog breeding and forage habitat).  Development retains existing vegetation,
	<ul> <li>(a) retains existing significant vegetation in parks and reserves; and</li> <li>(b) wherever reasonably practicable,</li> </ul>		in particular the understorey, in parks, drainage reserves, road reserves and on land with steep gradients.
	retains examples of healthy existing trees and incorporates them into the design of development.	AO23.2	Development retains existing healthy trees on development lots where they are a minimum of 10 metres from a building and 5 metres from other development.
			Note—the <b>Planning scheme policy for Sippy Downs Town Centre</b> provides guidance in relation to the retention of existing <i>vegetation</i> within the Sippy Downs Town Centre.
PO24	Development provides new planting which:-  (a) enhances the sub-tropical image and character desired for the Sippy Downs Town Centre; and  (b) includes mature trees which shade road and car parking areas.	AO24.1	Development provides soft and hard landscaping on premises, including but not limited to:- (a) feature planting areas along primary frontages; (b) shade trees in car parking areas; (c) screening of buffer planting areas; and (d) planting integrated with building forms.
		AO24.2	Where feature plantings are used in landmark locations, the following species are used:- (a) Archontophoenix cununinghamiana; or (b) Livistona australis.
PO25	Development provides on-site	AO25	No acceptable outcome provided.

	(Sippy Downs Town Centre Core) – 10% of the <i>site</i> ; and (b) in Sub-precinct SID LPSP-1b (Sippy Downs Business and Technology Sub-precinct) – 20% of the <i>site</i> .		
PO26	Development provides street trees which:-  (a) are appropriate to the context and setting of the development;  (b) provide continuity of species type along the full length of streets; and  (c) have large shady canopies which shade footpath, road and car parking areas and provide traffic calming by overhanging streets.	AO26	Development provides street trees in accordance with the species types and applicable street cross section detail specified in the Planning scheme policy for Sippy Downs Town Centre.
PO27	Development of premises with a frontage to:-  (a) Sippy Downs Drive, Stringybark Road, University Way and 'A' Street, provides attractive tree-lined streets with lighting, planting and street furniture;  (b) Local Access Streets incorporate lighting, landscaped verges and medians (where appropriate) and on-street car parking to provide flexibility for both commercial uses and residential uses; and  (c) other new streets, provide avenue tree planting on their verges.	AO27	Development provides for street lighting, planting, verges and street furniture in accordance with the standards specified in the Planning scheme policy for Sippy Downs Town Centre.
PO28	Development provides for footpaths which:-  (a) differentiate with the road/street types where identified in Figure 7.2.25D (Sippy Downs Town Centre Road / Street Designations);  (b) have a high level of presentation;  (c) are consistent in patterning with adjoining properties;  (d) in Sub-precinct SID LPSP-1a (Sippy Downs Town Centre Core) and Sub-precinct SID LPSP-1a (Sippy Downs Business and Technology Sub-precinct), cater for high pedestrian usage and outdoor dining; and  (e) in residential streets are concrete paved footpaths with turfed verges.	AO28	Development provides for footpaths in accordance with the standards specified in the Planning scheme policy for Sippy Downs Town Centre.
PO29	Development provides street furniture which:-  (a) is comfortable, functional, robust, attractive and safe to use;  (b) does not require high levels of maintenance;  (c) is in keeping with the landscape	AO29	Development provides for street furniture in accordance with the standards specified in the Planning scheme policy for Sippy Downs Town Centre.

fulfils the needs of the users.

# 7.2.26 Woombye local plan code

## 7.2.26.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Woombye local plan area as shown on Map ZM27 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Woombye local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.26.3 (Purpose and overall outcomes);
  - (b) Table 7.2.26.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.26A (Woombye local plan elements).

## 7.2.26.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Woombye local plan code.

The Woombye local plan area is located in the central hinterland of the Sunshine Coast immediately to the south of Nambour. Situated between the North Coast Rail Line and Nambour Connection Road, the local plan area includes Woombye's business centre and adjacent residential areas. The local plan area has a land area of approximately 230 hectares.

The local plan area is characterised by variable topography with the established urban areas in the north comprising gently undulating land and the developing southern area generally comprising steeper slopes, particularly adjacent to Pine Grove Road and Woombye-Palmwoods Road. Parts of the local plan area are subject to periodic flooding from Paynter Creek which is located immediately to the west and traverses the local plan area north of the town centre.

Woombye is a small, attractive rural town providing a range of business, community, social, and recreational facilities to service the local needs of its resident population as well as the needs of immediately surrounding rural and rural residential communities. Residential areas are characterised by dwelling houses on relatively large suburban lots.

Heritage buildings and places, primarily focused in Blackall Street, contribute to the character and historical values of the town. Set within a picturesque rural landscape, Woombye has a separate and distinct identity from nearby settlements, including Nambour.

The North Coast Rail Line, which forms the western boundary of the local plan area, is proposed to be realigned and duplicated. The planned upgrade includes provision for station improvements and a new road overpass extending from Blackall Street to Back Woombye Road. The preferred future use of surplus rail land arising from the proposed upgrade of the rail line will also be an important consideration.

Woombye's role as a public transport node will be improved by the planned rail line upgrade and new transit hub. The major vehicle access into Woombye is via Blackall Street from Nambour Connection Road in the east. Taintons Road provides access to the southern part of the local plan area via Woombye-Palmwoods Road.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

## 7.2.26.3 Purpose and overall outcomes

(1) The purpose of the Woombye local plan code is to provide locally relevant planning provisions for the assessment of development within the Woombye local plan area.

- (2) The purpose of the Woombye local plan code will be achieved through the following overall outcomes:-
  - (a) Woombye remains a small rural town, primarily servicing the local needs of its resident population and immediately surrounding rural communities.
  - (b) Urban development within the Woombye local plan area is limited to land within the urban growth management boundary so as to protect and reinforce the separate identity of Woombye, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the landscape character and productivity of surrounding rural lands.
  - (c) Development retains important built form, *streetscape*, landscape character and natural environment elements that contribute to the character, setting, and identity of Woombye as a rural town with a strong sense of place and associations with the past.
  - (d) Development in the Local centre zone supports the role and function of the Woombye Town Centre as a local (full service) activity centre, providing a wide range of small-scale convenience goods and services to meet the needs of its resident population and immediately surrounding rural communities. The town centre remains compact and consolidated, with any further expansion of business uses contained to land included in the Local centre zone.
  - (e) The "country town" feel, traditional main street built form and heritage and streetscape character of Woombye's Town Centre is retained and reinforced, with Blackall Street enhanced as a wide, attractive and pedestrian friendly main street. Development along Blackall Street addresses the street, complements the traditional streetscape and building form, and retains the mature street trees.
  - (f) Development in the Low density residential zone protects and is sympathetic to the traditional rural town character and identity of Woombye, typified by low-rise detached housing in generous landscaped grounds. Reconfiguring a lot in the Low density residential zone incorporates road and lot layouts which sensitively respond to site characteristics and are consistent with the established subdivision pattern of the town, characterised by regular shaped lots, grid or modified grid layout, open streetscape and mature street trees. Development in the zone provides an interconnected and permeable network of roads, pedestrian and cycle paths and open space and buffering to surrounding rural lands.
  - (g) Development in the Medium density residential zone is sympathetic to the traditional rural town character and heritage values of Woombye and is of a bulk and architectural scale that does not dominate the *streetscape* and is compatible with surrounding development.
  - (h) Development is designed and sited to protect significant environmental and riparian areas and to sensitively respond to the physical characteristics and constraints of land in the local plan area, including steeper slopes and remnant *vegetation* and other *ecologically important* areas.
  - (i) Development in the local plan area is supported by a network of open space to meet the needs of the local community, and facilitates safe and convenient pedestrian and cycle connections to, between and around key destinations within the local plan area.
  - (j) Development does not compromise or adversely impact upon the planned realignment and duplication of the North Coast Rail Line and the possible future provision of a grade separated crossing within the local plan area.
  - (k) In the event that the North Coast Rail Line is re-aligned within the life of the planning scheme, the pattern of land use and the provision of transport and other *infrastructure* in the Woombye local plan area is adapted to appropriately utilise surplus railway land, so as to consolidate and provide for improvements to Woombye's town centre, particularly in terms of the provision of community facilities and *public open space*.

#### 7.2.26.4 Assessment criteria Performance outcomes and acceptable outcomes

Table 7.2.26.4.1 Criteria-Performance outcomes and acceptable outcomes for assessable development

Porform	Performance Outcomes Acceptable Outcomes				
	Development in the Woombye Local Plan Area Generally (All Zones)				
PO1	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional <i>streetscape</i> and architectural character of Woombye in terms of scale, siting, form, composition and use of materials.	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage or, character significance.  Editor's note—Section 8.2.9 (Heritage and character areas overlay code) sets out requirements for development on heritage places and in character areas.		
		AO1.2	Buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.		
		AO1.3	For residential, business and community activities, roof forms are simple, traditional Queensland-style roof designs including gable, hip, pitched or multiple gable roof forms.		
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas existing	AO2.1	Development provides for the retention of old stone retaining walls, historical landmarks, memorials and monuments.		
	significant views and vistas, existing character trees and areas of significant vegetation contributing to the character, setting and sense of place of Woombye.	AO2.2	Development protects and emphasises, and does not intrude upon, important view lines to the Blackall Range and other views to surrounding rural and natural areas identified on Figure 7.2.26A (Woombye local plan elements).		
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character <i>vegetation</i> contributing to the vegetated backdrop and <i>streetscape</i> character of the local plan area, including where identified on Figure 7.2.26A (Woombye local plan elements).		
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.		
PO3	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the rural town character of, and sense of entry and arrival to, Woombye.	AO3.1	Development adjacent to a primary streetscape treatment area or identified gateway/entry point on Figure 7.2.26A (Woombye local plan elements) incorporates architectural and landscape treatments and other design elements which enhance the sense of entry and arrival to, and rural town character of, Woombye, and emphasise corner locations.		
		AO3.2	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of <i>streetscapes</i> and landscape design.		

Perform	ance Outcomes	Acceptable	Outcomes
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.  Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.  Note—streetscape materials and palettes can be referenced from the Council's Infrastructure
			and Guideline Standards for each centre as required
PO4	Development does not compromise the provision and operation of <i>transport networks</i> , including:-  (a) the proposed realignment and duplication of the North Coast Rail Line; and  (b) the potential future grade separated rail line crossing in the vicinity of Woombye CWA Park.	AO4	No acceptable outcome provided.
PO5	Surplus rail land that may arise from the proposed realignment of the North Coast Rail Line provides for improvements to Woombye's Town Centre, particularly in terms of the provision of community facilities and urban open space.	AO5	No acceptable outcome provided.
PO6	Development on land with frontage to Paynter Creek, or on land otherwise identified as a local ecological linkage on Figure 7.2.26A (Woombye local plan elements), facilitates the provision of the local ecological linkage.	AO6	No acceptable outcome provided.  Editor's note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO7	Development for a food and drink outlet does not:-  (a) provide for the establishment of a high volume convenience restaurant; or  (b) incorporate a drive-through facility.	AO7	No acceptable outcome provided.
Develor	oment in the Local Centre Zone		
PO8	Development in the Local centre zone provides for small scale uses and mixed uses that:-  (a) support the role and function of Woombye Town Centre as a local (full service) activity centre; and  (b) provide a wide range of goods and services to meet the convenience needs of Woombye's resident population and immediately surrounding rural community.	AO8	No acceptable outcome provided.
PO9	Development in the Local centre zone:-  (a) is sympathetic to the rural town character and heritage values of Woombye;  (b) complements the traditional built form and streetscape;  (c) addresses the street;  (d) creates vibrant and active streets and public spaces;  (e) provides continuous weather protection for pedestrians; and  (f) provides integrated and functional parking and access arrangements that do not dominate the street.	AO9	(a) provides for Blackall Street to be maintained as a wide, attractive and pedestrian friendly main street; (b) provides for primary active street frontages, built to the front boundary, where identified on Figure 7.2.26A (Woombye local plan elements); (c) maintains the appearance of finegrained shopfronts addressing the street; (d) respects the layout, scale (including height and setback) and character of existing buildings;

# 7.2.27 Yandina local plan code

## 7.2.27.1 Application

- (1) This code applies to assessable development:-
  - (a) within the Yandina local plan area as shown on Map ZM8 contained within Schedule 2 (Mapping); and
  - (b) identified as requiring assessment against the Yandina local plan code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) The following provisions of the code are assessment benchmarks for applicable assessable development:-
  - (a) section 7.2.27.3 (Purpose and overall outcomes);
  - (b) Table 7.2.27.4.1 (Performance outcomes and acceptable outcomes for assessable development); and
  - (c) Figure 7.2.27A (Yandina local plan elements).

## 7.2.27.2 Context and setting

This section is extrinsic material under section 15 of the *Statutory Instruments Act 1992* and is intended to assist in the interpretation of the Yandina local plan code.

The Yandina local plan area is located in the central part of the Sunshine Coast and is traversed by the Bruce Highway and the North Coast Rail Line. The local plan area comprises the rural town of Yandina and adjacent urban areas as well as industrial estates in the northern and southern parts of the town. The local plan area has a land area of approximately 396 hectares.

Yandina is located on undulating land and set within a picturesque rural and natural landscape with the prominent Mount Ninderry to the east, Parklands Forest Reserve to the south and Wappa Dam and the Mapleton Forest Reserve in the west. The local plan area is traversed by the South Maroochy River in an east-west direction and bordered to the northeast by the North Maroochy River. The local plan area is surrounded by large areas of productive agricultural land.

The Yandina Town Centre is focussed on the traditional main street of Stevens Street, servicing the town and its surrounding rural and rural residential communities and providing a range of commercial, retail, industrial, community, sport and recreational activities.

The local plan area contains a range of community, sport and recreation facilities including Yandina State School, and Yandina Sports Complex. The local plan area also contains the Yandina Caravan Park which provides both permanent residential accommodation and temporary visitor accommodation.

The Yandina local plan area contains three main industrial estates providing employment for the central hinterland areas. An industrial estate is located in the northern part of the local plan area on the western side of the Bruce Highway. It comprises a range of industrial uses including the Ginger Factory which is also a premier tourist attraction on the Sunshine Coast. The industrial estate located in the northern part of the local plan area on the eastern side of the Bruce Highway is largely undeveloped. The southern industrial estate is located on the eastern side of the Nambour North Connection Road and consists of a range of industrial uses. A smaller industrial area is located on the eastern side of Farrell Street in the northern part of the local plan area.

Yandina's character is derived from its picturesque landscape setting, rural heritage, traditional main street, grid pattern road layout, historical building designs and laid back 'country town' atmosphere. The existing character areas and historic buildings, especially fronting Stevens Street and Farrell Street, significantly contribute to the character and identity of the town.

The residential areas in Yandina are predominantly traditional low density neighbourhoods of detached housing characterised by a grid pattern street layout in the older, inner parts of the local plan area and culde-sacs in the newer outer parts. Medium density residential areas are located to the west of the town centre with further expansion opportunities available.

The Yandina local plan area has good access to the Bruce Highway via Yandina Coolum Road and Flemming Street. Further connections to the east are provided by Ninderry Road, to the north by Ben Williams Road, to the west by Old Gympie Road and Cooloolabin Road and south by the Nambour North Connection Road.

Urban zoned land within the local plan area is connected, or has the ability to be connected, to reticulated water and sewerage.

## 7.2.27.3 Purpose and overall outcomes

- (1) The purpose of the Yandina local plan code is to provide locally relevant planning provisions for the assessment of development within the Yandina local plan area.
- (2) The purpose of the Yandina local plan code will be achieved through the following overall outcomes:-
  - (a) Yandina continues to develop as a small rural town, with a distinct heritage character, primarily servicing the local community and tourist industry and providing industrial employment opportunities. Some expansion of local business, industry and residential areas is provided for.
  - (b) Urban development within the Yandina local plan area is limited to land within the urban growth management boundary so as to protect and reinforce the character and identity of Yandina, provide for the efficient provision of *infrastructure* and services, avoid constrained land and protect the character and productivity of surrounding rural land.
  - (c) Development retains the key built form, landscape character and natural environment elements that contribute to the setting, character and identity of the Yandina local plan area as a rural town with a strong sense of place and associations with the past.
  - (d) Development is designed and sited to protect significant environmental areas and significant views either to or from important landscape features, and to reflect the physical characteristics and constraints of the land, including the protection of sensitive slopes, flood prone areas, native vegetation areas and views of the western foothills, South Maroochy River, North Maroochy River and Mount Ninderry, particularly from the Yandina Town Centre.
  - (e) The Yandina Town Centre functions as a local (full service) activity centre, meeting the needs of the local community and surrounding rural and rural residential areas and visitors to the area, and provides a focus for small scale retail, commercial and community activity.
  - (f) Whilst the retail and commercial functions of Yandina Town Centre may expand and be enhanced, the centre remains compact, with any expansion limited to land included within the Local centre zone. Residents of Yandina and surrounding areas continue to rely upon larger centres such as Nambour or Maroochydore to fulfil higher order business and industry needs.
  - (g) The "country town" feel, traditional built form, heritage and streetscape character of the Yandina Town Centre is retained and reinforced, with Stevens Street enhanced as an attractive and pedestrian friendly main street. Development within the Local centre zone addresses the street and complements the traditional streetscape and building form.
  - (h) Development in the Medium impact industry zone and High impact industry zone provides for the continued development of the three main industrial estates in Yandina in complementary rather than competing roles, so as to provide Yandina with a stronger and more-diversified industrial base.
  - (i) Development in the Yandina Industrial Estate (Central) provides for a range of industry uses, particularly those that promote linkages and synergies with, and are compatible with, the food processing industry and the creation of a manufacturing tourism node.
  - (j) Development in the Yandina Industrial Estate (East) accommodates a broad range of low to medium impact industrial uses, while protecting the environmental values of the North Maroochy River and views to Mount Ninderry.
  - (k) Development in the Yandina Industrial Estate (South) accommodates a range of medium to high impact industrial uses, while avoiding impacts on nearby residential areas. Development in the High impact industry zone protects the visual amenity of scenic routes through the local plan area.

- (I) Development in the Low impact industry zone accommodates a broad range of small scale industry and *service industry* uses, while avoiding impacts on nearby residential areas and protecting the visual amenity of scenic routes through the local plan area.
- (m) Development in the Low density residential zone, including road and lot layouts and streetscape, reflects traditional rural town residential qualities such as low rise detached housing on large lots, open streetscape and mature street trees.
- (n) Development in the Medium density residential zone:-
  - provides for a range of housing choices located with close and convenient access to the Yandina Town Centre, employment nodes, public transport and community facilities;
  - (ii) provides good pedestrian and cycle connectivity to the town centre; and
  - (iii) contributes to a high level of residential amenity and design quality consistent with the traditional rural character of Yandina, the scale and character of the streetscape and surrounding development.
- (o) Development in the local plan area is supported by a network of open space to meet the needs of the local community and facilitates safe and convenient pedestrian and cycle connections between and around key destinations within the local plan area.
- (p) Development provides appropriate landscape buffering to the Bruce Highway and the North Coast Rail Line in order to effectively visually screen built form elements and maintain the visual amenity of these scenic routes.

## 7.2.27.4 Assessment criteria Performance outcomes and acceptable outcomes

	Performance Outcomes Acceptable Outcomes				
	Development in the Yandina Local Plan Area Generally (All Zones)				
P01	Development provides for buildings, structures and landscaping that is consistent with and reflects the traditional rural town architectural character of Yandina in terms of form, composition and use of materials.	AO1.1	Development provides for the retention and/or adaptive re-use, with limited modification, of buildings which have cultural heritage or character significance.  Editor's note—Section 8.2.9 (Heritage and character areas overlay code) sets out		
			requirements for development on heritage places and in character areas.		
		AO1.2	For residential, business and community uses, buildings and structures incorporate traditional external building materials, such as timber cladding and corrugated iron roofs.		
		AO1.3	Development uses understated colour schemes and low-reflective roofing and cladding materials.		
		AO1.4	Roof forms use simple, traditional Queensland style roof designs, such as hipped or gabled.		
PO2	Development provides for the retention and enhancement of key landscape elements including historical landmarks, significant views and vistas, existing	AO2.1	Development provides for the retention of historical landmarks, memorials and monuments.		
	character trees and areas of significant vegetation contributing to the setting, character and sense of place of Yandina.	AO2.2	Development protects and emphasises, and does not intrude upon, the important views to the western foothills of Yandina and Mount Ninderry, particularly from the town centre, and to the South Maroochy River, North Maroochy River and other views to surrounding rural and natural

$\Box$

Perform	ance Outcomes	Acceptable	Outcomes
renomi	ance Outcomes	Acceptable	areas where identified on Figure 7.2.27A (Yandina local plan elements).
		AO2.3	Development provides for the retention and enhancement of existing mature trees and character vegetation that contributes to the streetscape character and vegetated backdrop to the town including:  (a) the tree covered hillsides of the western foothills;  (b) native vegetation along the North Maroochy River and South Maroochy River; and  (c) other character vegetation where identified on Figure 7.2.27A (Yandina local plan elements).
			Note—in some circumstances, the eradication of weed species and planting of locally native species that make a comparable contribution to local character may also satisfy the Acceptable Outcome.
		AO2.4	Development retains and revegetates the remaining gully systems in the Fleming Street and Scott Street area.
		AO2.5	Development retains and enhances the open space land west of Farrell Street to provide:-  (a) a green open space buffer between business uses and residential areas; and  (b) a green foreground to views west of the town centre.
PO3	Development contributes to the establishment of attractive and coherent streetscapes and gateways to enhance the sense of entry to, and the rural town character of, Yandina.	AO3.1	Development adjacent to the primary streetscape treatment area or identified gateway/entry point on Figure 7.2.27A (Yandina local plan elements) incorporates architectural and landscape treatments and other design elements which enhance the sense of entry and arrival to, and rural town character of, Yandina, and emphasise corner locations.
		AO3.2	Development along Yandina Coolum Road and Fleming Street, between the Bruce Highway and the town centre provides streetscape and landscaping works to enhance the visual amenity of the route as an entrance to the town.
		AO3.3	Development provides streetscape improvements and traffic calming at the Stevens Street and Farrell Street intersection to reinforce Stevens Street as the focus of the town centre.
		AO3.4	Development provides for streetscape improvements which complement existing or proposed streetscape works in the local area to ensure continuity of <i>streetscapes</i> and landscape design.
			Note—Section 9.4.2 (Landscape code) sets out requirements for streetscape landscapes including entry statement landscapes.

Perform	ance Outcomes	Acceptable	Outcomes
	unite outcomos		
			Note—a landscape master plan may provide further guidance regarding particular streetscape treatments in a local plan area.
			Note—streetscape materials and palettes can be referenced from the <i>Council's</i> Infrastructure and Guideline Standards for each centre as required
PO4	Development on land adjacent to the Bruce Highway incorporates a landscape buffer to visually screen and soften built form elements and maintain and enhance the visual amenity of the highway as a scenic route.	AO4	Development provides a minimum 10 metre wide densely vegetated landscape buffer along the Bruce Highway frontage where identified on Figure 7.2.27A (Yandina local plan elements).
PO5	Development on land with frontage to the North Maroochy River and South Maroochy River, or on land otherwise identified as a local ecological linkage on Figure 7.2.27A (Yandina local plan elements), facilitates the provision of the local ecological linkage.	AO5	No acceptable outcome provided.  Editor's note—Section 8.2.3 (Biodiversity, waterways and wetlands overlay code) sets out requirements for the provision of ecological linkages.
PO6	Development for a food and drink outlet does not:-  (a) provide for the establishment of a high volume convenience restaurant, or  (b) incorporate a drive-through facility.	AO6	No acceptable outcome provided.
PO7	Development in the Local centre zone	A07	No acceptable outcome provided.
	provides for small scale uses and mixed uses that:-  (a) support the role and function of Yandina Town Centre as a local (full service) activity centre; and  (b) provide a wide range of convenience goods and services to residents and visitors.		
PO8	Development in the Local centre zone:  (a) is sympathetic to the rural town character and identity of Yandina;  (b) addresses the street;  (c) complements the traditional built form and streetscape;  (d) creates vibrant and active streets and public spaces;  (e) provides continuous weather protection for pedestrians;  (f) uses traditional building materials; and  (g) provides integrated and functional car parking and access arrangements that do not dominate the street.	AO8	Development in the Local centre zone:-  (a) provides for Stevens Street to be maintained and enhanced as an attractive and pedestrian friendly main street;  (b) provides a fine scale built form with narrow building frontages and buildings built to the Stevens Street road boundary;  (c) respects the layout, scale (including height and setback) and character of development on adjoining sites;  (d) provides primary active street frontages, built to the front boundary, where identified on Figure 7.2.27A (Yandina local plan elements);  (e) provides all weather protection in the form of continuous cantilevered awnings and/or light verandah structures with non-load bearing posts over footpath areas in conjunction with mature or semimature shade trees planted along the site frontage adjacent to the kerb;  (f) provides for a mixture of original lowset timber framed buildings and compatible new buildings;  (g) has simple, traditional Queensland style roof designs, such as hipped or

Perform	ance Outcomes	Acceptable	
			gabled, and parapets facing the street;
			(h) has building openings overlooking the
			street, with the main entrance visually
			emphasised in the centre of the ground floor facade;
			(i) provides detailing and articulation for
			horizontal emphasis including
			awnings, parapet walls and first floor
			balconies; (j) uses traditional building materials
			(timber cladding and corrugated iron roofing);
			(k) uses understated colour schemes and low-reflective roofing and
			cladding materials; (I) ensures that signage is integrated
			with the building; (m) includes provision of landscaping,
			shaded seating, public art and consistent and simple paving
			materials on footpaths; and
			(n) retains on street parking and provides on-site car parking at the rear or to
			one side of the development.
PO9	Development provides for buildings on	AO9	No acceptable outcome provided.
	corner sites to be designed as focal points and contribute to defining the		
	street intersection, including use of		
	interesting or decorative features or		
	building elements and complementary landscape features.		
PO10	Reconfiguring a lot in the Local centre	AO10.1	Development for reconfiguring a lot in the
	zone does not result in the alienation of business zoned land.		Local centre zone provides for lots which are a minimum of 600m <sup>2</sup> in area.
		AO10.2	Development in the Local centre zone does not result in the creation of <i>rear lots</i> .
	ment in the Low Impact Industry Zone	1011	Development in the Levelopment industry
