Mooloolaba Foreshore Revitalisation Final Stage 1 Northern Parkland Update

Mooloolaba

**Northern Parkland OPEN**

Mooloolaba Foreshore Festival POSTPONED

**NO Temporary changes to traffic conditions - Saturday 2 July**

Northern Parkland now OPEN

The new Northern Parkland has certainly proved a hit with our community in the past seven days (and nights) since opening!

Thousands of people of all ages and abilities have been exploring and enjoying the new boardwalk, open green space, barbecues, adventure playground, permanent umbrellas, viewing decks, wedding and event area and landscaped gardens.

The convenience of having new public toilets in this location has also been appreciated.

Please see some photographs on page two of people enjoying the new parkland.

Mooloolaba Foreshore Festival POSTPONED

Due to the forecast wet weather this weekend, the Mooloolaba Foreshore Festival, scheduled for this Saturday, July 2, has been postponed. The difficult decision was made so that event organisers could advise local businesses, stallholders and ride operators as soon as possible.

With school holidays in progress and major events such as the Sunshine Coast Marathon taking place in Mooloolaba over the next few months, the festival will be rescheduled at an undetermined, future date. Watch this space!

The festival's previously planned changes to traffic conditions will not take place this weekend. Mooloolaba Esplanade and the lower Beach Terrace car park will now remain OPEN.

A big thank you to our community

With construction now complete, this will be our last construction notification for the Northern Parkland.

On behalf of the project team, we would like to thank our community, with a special mention to local residents and businesses, for your patience and cooperation during construction.

Keep up to date on the foreshore's revitalisation

Keep updated about the project, including Stage Two, the Central Meeting Place, via the project website here [Mooloolaba Foreshore Revitalisation Project](#)
