

To The Resident

Stormwater Improvement – Blackall Terrace and Petrie Park Road, Nambour

Project summary

Sunshine Coast Council is committed to improving the stormwater infrastructure networks across our region.

Following an inspection of the stormwater network along Blackall Terrace, Nambour, the drainage lines near the Petrie Park Road intersection were identified as requiring replacement and upgrading.

Start date

Work is scheduled to start the week of 20 November 2023 and anticipated to be finished January 2024 (weather conditions permitting).

Work hours will be between 7am and 5pm, Monday to Friday.

Construction will pause between 21 December and resume 8 January 2024.

Property access and parking

On-street parking will be restricted from 32 Blackall Terrace to Petrie Park Road.

Residential accesses will remain open throughout construction with minor interruptions when work is directly in front of property accesses.

A Council representative will contact residents if there is any interruption to property access and minimise disruption where possible.

Traffic management

Traffic management measures and temporary road closures will be in place to ensure the safety of pedestrians and motorists.

When works are occurring on Blackall Terrace, a detour will be in place via Petrie Park Road and Brookes St, Bradley St and Sapphire Dr. While works are occurring on Petrie Park Rd, a detour will be in place via Elder St and Webster Rd.

These temporary closures will significantly reduce the duration and cost of construction, minimise impact to on-street parking and remove the need for ongoing stop-go traffic control. See figure 1 overleaf for location of works and detours.

Message boards will be in place to advise of upcoming road closures. Pedestrians will be detoured around the works site via adjacent paths. The temporary closure will not be in place for the full duration of construction.

Thank you in advance for your patience and understanding during the construction phase.

Further information

For further information about the project contact council's project officer Stephen Dukes via the details below (please quote K1555 Blackall Terrace Stormwater Upgrade project).

A note from your local councillor

This important renewal work will ensure the stormwater network continues to operate properly. I apologise for the inconvenience created during the construction period.

Cr David Law
