Construction notification

Project number: ITT256

26 November 2026

First Avenue Upgrade, Maroochydore

Night works – electrical upgrade works

Thursday 26 November 5.30pm to 6am - Additional evening of night works

Zones B, C & D, First Avenue and The Esplanade, Maroochydore

Contractors and equipment on site. Traffic control as required. Intermittent noise

First Avenue open to southbound traffic. Access available to homes and businesses

About these works

Major electrical upgrades are taking place as part of the project. These works are required to future-proof the electricity supply for Maroochydore.

Although works were originally forecast to take place in Zones B, C and D on Monday to Wednesday (inclusive) an additional evening of night works is now required on Thursday 26 November (tonight).

We apologise for the extremely late notice but need to complete these essential works before the construction break over the Christmas-New Year.

Some businesses will have temporary interruptions to their power supply during these night works. The construction contractor, GRC Civil, will liaise directly with affected properties regarding any outages.

Nighttime trading businesses on First Avenue and in nearby streets will continue to trade and remain accessible during these works.

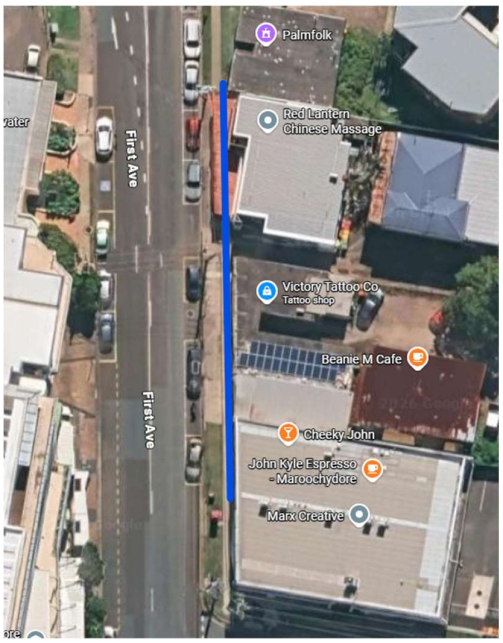

Access to residences on First Avenue and The Esplanade will remain available via traffic control.

The Route 600 Bus will continue to operate.

All information contained in this communication is accurate at the time of distribution. However, works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control, including weather and site conditions.

Zone B, C and D. First Avenue (from Red Lantern to John Kyle Espresso).

Thursday 26 November night works.
