Caloundra Transport Corridor Upgrade (CTCU)

Vegetation clearing and ground preparation works

Thursday 1 October to Friday 2 October. Day works 7am to 5pm

Energex Easement, between end of West Terrace and Nicklin Way, Caloundra

Workers on site. No interruptions to power expected. Changes to walking tracks access where required for community safety.

About these works

As part of the Caloundra Transport Corridor Upgrade (CTCU) works and in conjunction with Energex's ongoing maintenance schedule, some select vegetation clearing and ground works will take place from Thursday 1 to Friday 2 October inclusive (weather and site conditions permitting).

These works will be undertaken in the existing Energex easement between the end of West Terrace and Nicklin Way, Caloundra. Refer Figure 1.

These works are required as part of the electrical infrastructure upgrades associated with the CTCU.

The CTCU project has undergone extensive environmental assessment and has received *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) approval with conditions designed to avoid, minimise and manage environmental impacts.

Environmental management measures, including fauna protection, habitat salvage and environmental offset requirements, will be implemented throughout construction to protect surrounding environmental and cultural heritage values.

What to expect during these works

- **Temporary changes to walking tracks.** For our community's safety some walking tracks will be temporarily restricted. Signs will be in place to advise walkers of track closures and to seek alternative routes.
- **Vegetation clearing and mulching**
- **Intermittent construction noise**
- **Staff and machinery and staff on site.** Contractors will be on site with specialist equipment operating. Fauna spotters will be present during vegetation removal.

All information contained in this communication is accurate at the time of distribution however works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control.

Construction Notification

The project team will aim to minimise disruption to surrounding residents where possible.

We thank our community for your patience as we undertake these important works.

Contact the project team

The project team will continue to keep the community informed as the CTCU Project is progressed.
