## Park Improvements – Tete Park Conondale

### Project summary

Sunshine Coast Council is committed to maintaining and improving our parks and recreational spaces across our region. As part of these ongoing improvement works, Tete Park in Conondale will receive necessary upgrades.

This includes replacing timber bollards with boulders, installing a new vehicle gate, new park entry sign and some minor tree planting.

### Start date

Works are scheduled to start in late February and will be completed within two weeks weather and site conditions permitting.

### Property access and parking

There will be temporary fencing around the work site to ensure the safety of workers and our community.

There will be no impact to access or parking, and the park facilities will remain open to the public.

Thank you for your patience while we deliver these important works.

### Further information

For further information contact council's project officer Terrence Bernard via the details at the bottom of the page (quote Project Number K4045 – Tete Park Conondale – Park Improvements).

### A note from your local councillor

I am very happy that this park improvement is being carried out soon. Further improvements may be carried out in future years and the community will be consulted prior to any further significant improvements.

Please be patient whilst these works are undertaken.

Cr Winston Johnston
