Flood mapping and information
## Helping you understand flooding

How to view Land Use Planning Flood Maps

Council provides a range of flood mapping products and information to enable the community and industry professionals to make informed decisions for emergency preparedness and land use planning purposes.

If you have trouble finding or accessing the information you're looking for, please reach out to our team via email: floodmapping@sunshinecoast.qld.gov.au.

1. Navigate to Council's Flood Mapping and Information interactive map.
   - It can be accessed via several pages on Council's Flood mapping and information webpage (sunshinecoast.qld.gov.au/floodmapping).

   - It can also be accessed via our MyMaps page.

2. When you arrive at the Flood Mapping and Information interactive map, it should look like the following image.

   - The navigation buttons are located in the top left corner of the screen. You will see buttons for zooming in and zooming out and options to select a default extent or your current location.

   - There is also a search bar. You can use this to search an exact address.

3. Once you've searched for the address you want, you can start editing the flood mapping layers on display.

- The layer list can be accessed from the toolbar in the top right corner, using the second button from the left.

- Tick the check box next to Land Use Planning (Flood Mapping) and expand the list by clicking on the layer name.
