

## **Brisbane Road Upgrade**

**Stage 2, Zone A**  
**Mooloolaba Transport Corridor Upgrade**

Project number: H3747

### **Oversize vehicles delivery, Brisbane Road and Bindaree Crescent**

**Tuesday 17 August 5am – 9am**  
**All works weather and site conditions permitting**

#### **About these works**

As part of the Brisbane Road upgrade and construction of the new four lane bridge over Mayes Canal, large vehicles and specialist construction machinery must be used.

On Tuesday 17 August, between 5am and 9am two large cranes of up to 350-tonne capacity will be delivered to the construction site on Bindaree Crescent, Mooloolaba.

The cranes will be in place for approximately one week.

Please see the map for the cranes' location.

#### **What to expect during these works?**

State Government regulations dictate the movements of oversize vehicles on the Queensland road network. For safety reasons and to minimise impacts to motorists, the cranes must be delivered to site in the early morning.

Traffic control will be in operation for the duration of these works to assist with the cranes' delivery and redirecting pedestrians and motorists.

Intermittent noise can be expected, including vehicle reversing beepers and whistles used by construction workers to communicate with the crane driver in accordance with workplace health and safety regulations.

Once delivered, the 'arms' of the cranes will be erected on site, over a period of hours.

Access will **remain available** for local residents and businesses.

#### **Contact the project team**

For further information, you can contact the project team on 1800 531 597 (during office hours, Monday to Friday 8.30am – 5pm) or email [mtcu@sunshinecoast.qld.gov.au](mailto:mtcu@sunshinecoast.qld.gov.au)
