## Brisbane Road Upgrade

Stages 2 and 3

Mooloolaba Transport Corridor Upgrade

Temporary asphalt (bitumen) works

Night works, Wednesday 13 April, 11pm – 4am (weather permitting)

Brisbane Road/Foote Street/Tarcoola Avenue roundabout, Mooloolaba

Traffic control in attendance. Access remains to all streets

### Construction overview

As part of the Brisbane Road upgrade the roundabout at Brisbane Road/Foote Street/Tarcoola Avenue will be upgraded to a signalised intersection.

The current roundabout will temporarily remain to assist with maintaining traffic flow along Brisbane Road until the new intersection is constructed.

As part of these works, the roundabout will be asphalted on Wednesday evening, 13 April between 11pm and 4am.

The new asphalt will allow additional space for vehicles to use the road network during the upcoming road widening construction works.

These works cannot be undertaken during the day due to the high levels of traffic along Brisbane Road.

These works have been timed to take advantage of the availability of materials and construction staff, and ahead of the peak Easter period.

Access to residences and businesses will remain available with traffic control in attendance.

### What to expect during these works?

There will be no excavation or saw cutting of the road surface.

Medium level, intermittent construction noise can be expected including the operation of machinery and large vehicles with reversing beepers. Temporary lighting must be used during nightworks for safety reasons.

Access to businesses and residences will remain available with the construction team assisting where necessary. Alternative footpaths will be in place.

Please allow an extra five-ten minutes of travel time on Wednesday evening.
