## Brisbane Road Upgrade

Stages 2 and 3

Mooloolaba Transport Corridor Upgrade

 Night works – stormwater and sewer works Thursday 24 November, 6pm to 6am Foote Street, Mooloolaba Some changes to traffic conditions as works dictate

### Construction overview

Construction is continuing on Stages 2 and 3 of the Brisbane Road Upgrade project with completion of all major road works on Brisbane Road remaining as late 2022/early 2023 (weather and site conditions permitting).

As part of these works underground infrastructure is being upgraded, including stormwater and sewer connections.

On Thursday 24 November Unitywater and Hall Contracting will be undertaking construction in Foote Street and across the Foote Street and Brisbane Road intersection.

Night works are necessary as large trenches must be dug across and under the road surface. Night works also ensure that traffic flow can be maintained on busy Brisbane Road and surrounding streets during peak daytime periods.

The project team will continue to liaise directly with adjacent residents and businesses prior to and during construction.

Please see the following information for further detail.

### Temporary and permanent changes to traffic conditions

Foote Street will be closed to all through traffic with detours in place via Hancock Street. Traffic control will be operating.

For local Foote Street residents, access will remain available with the construction team and traffic control assisting where necessary.

Where construction activity crosses driveways, some areas of the footpath and driveways may be temporarily inaccessible. The construction team will liaise directly with residents about access as required.

Bus stops and bus services will be retained in conjunction with TransLink. Some bus routes and stops will be temporarily relocated to nearby locations. Signage will redirect passengers to the temporary stops.

### What to expect during these works?

The construction team will make every effort to minimise impacts to the community.

Nearby residents and businesses can expect intermittent construction noise including the operation of heavy machinery and large vehicles including vacuum trucks.

All information contained in this communication is accurate at the time of distribution however works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control.

Temporary lighting and reversing beepers must be used for safety reasons during night works.

For residents sensitive to noise or light, please consider closing blinds and windows and using fans or air conditioning.

Please allow an extra five - ten minutes of travel time during these works.

### Register for project updates and/or contact the project team

To register for construction updates, email your details to [mtcu@sunshinecoast.qld.gov.au](mailto:mtcu@sunshinecoast.qld.gov.au)

For further information, you can contact the project team on 1800 531 597 (during office hours, Monday to Friday 8.30am – 5pm) or email [mtcu@sunshinecoast.qld.gov.au](mailto:mtcu@sunshinecoast.qld.gov.au)
