

Project number: B-4741

Mooloolaba Foreshore Revitalisation Stage 1 Northern Parkland, March Update

Mooloolaba

March 2022 Construction (weather and site conditions permitting)

Monday to Friday 6.30am – 6pm

Some Saturday works between 7am – 1pm

Temporary pedestrian footpaths in place as required

Construction overview

With the extreme weather conditions experienced over the past few weeks, our thoughts are with those impacted by the flooding in South East Queensland and beyond.

While thankfully the construction site was not seriously impacted by the rain, the ongoing effects of the prolonged wet weather, combined with the impacts of the pandemic, are continuing to create challenges for the construction industry. These challenges include the delivery and availability of materials, and access to construction staff.

The project team is working hard to progress all Northern Parkland works as quickly as possible. Weather permitting, more elements of the parkland will be opened in April 2022, with the remainder expected for completion by mid-2022. A community celebration will be held to officially open the completed parkland.

Some roadworks along Mooloolaba Esplanade, will be required throughout March and April. We will advise you in advance of these works and avoid key events such as the Mooloolaba Triathlon and Easter holidays.

Please see the map on page 2 for some progress photographs and the location of construction works throughout March.

Details of March works (Zone B)

- Footpath works
- Kerb and drainage works
- New public amenities building construction
- New BBQ shelter construction
- Vegetation pruning (understory pruning)
- Installation of soft-fall (soft flooring) under the Adventure Playground climbing net and swing set
- New access stairs from Mooloolaba Esplanade to the parkland
- Preparation works for new garden areas
- Lighting and electrical works

Contact the project team

For any questions about these works, contact council's customer service team on (07) 5475 7272 (Monday to Friday 8.15am – 5pm) or email mfr@sunshinecoast.qld.gov.au

All information contained in this communication is accurate at the time of distribution however works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control.
