Thanks for your patience

We realise these closures impact the local community, and we thank you for your co-operation and support.

It is very important to us to control the event activities and minimise the local impact. Participants in our event are required to have registered vehicles and register with us to attend the event inside the noted ZONES and understand the code of conduct that is required. Burnouts and similar behaviour is not part of our event philosophy, if you see something, please note the vehicle registration and notify us. Our Event Security Team Leader is involved in all our activities and has the task of investigating reports.
