

Project number: H3732

Caloundra Transport Corridor Upgrade Night Works Deliveries

Section One - Delivery of quarry materials by truck to stockpile area

Wednesday, 5 August, 6pm to 11pm

All works weather and site conditions permitting.

Hardstand area in vacant properties on corner Oval Ave and First Ave, Caloundra

Minor traffic control at property entry on First Ave

Works overview

As part of the upcoming Caloundra Transport Corridor Upgrade (CTCU) works, construction materials will be delivered to the stockpile area shown in Figure 1 over the page.

What to expect during these works

Council's construction teams will deliver and unload road profiling materials. Materials are being sourced directly from a nearby project to minimise material waste and costs associated with purchasing new materials.

Residents may notice:

- Increased truck movements in the area;
- Reversing alarms and vehicle movements;
- Minor construction noise associated with unloading material;
- Temporary lighting required to safely complete the deliveries.

Every effort will be made to minimise noise and disturbance.

Access will remain available to local residences and businesses.

Register for project updates and/or contact the project team
