Important Visitor Notice

Overnight electricity upgrade works - Mooloolaba Beach and Esplanade

Overnight electricity upgrade works will take place along the Mooloolaba beachfront and Esplanade from **1 November for approximately four weeks**. However, dates and times may change due to weather or unexpected site conditions.

Work will generally be carried out overnight between **9pm and 5am** to minimise impacts on visitors, businesses and traffic during the day. We understand this may affect your stay and apologise for the disruption.

What guests can expect

- Temporary overnight noise from construction activities
- Bright work lighting in some areas
- Machinery and vehicle movements overnight
- Temporary changes to some footpaths, parking and property access
- Signed pedestrian detours around work areas

Every effort will be made to minimise disruption; however, guests staying near the work area should expect some overnight noise, lighting and construction activity while the works are underway.

Please take care near work areas and follow any signs and directions from traffic controllers.

Helpful suggestions for overnight comfort

- Close windows and balcony doors where possible.
- Consider using earplugs, headphones or a white noise app on your mobile phone.

Please make sure you can still hear smoke alarms and emergency alerts.

Again, we apologise for the disruption and appreciate your understanding while this important work is completed.
