

Project number: P-H4602

Woombye Streetscape Project

Footpath, underground services, drainage and landscaping works

Tuesday 14 February to mid-March 2023

Day construction works, various times
All works weather and site conditions permitting

Blackhall Street, Woombye

Underground service relocations, footpath works and landscaping

Construction overview

As part of the Woombye Streetscape project, underground service relocations and footpath upgrades continue to take place.

From Tuesday 14 February to mid-March 2023 the footpath area from the Hill Street-Blackall Street intersection along Blackall Street, past the School of Arts Hall and Library and through to Frankie's Cafe will be under construction. Underground services will be relocated and a new concrete footpath poured.

Pedestrian access will remain available via pathways alongside the shop/building frontages while allowing space for new drainage, feature seating walls and gardens to be constructed between the pathways and the road.

Please refer to **Figure 1** in this notice to see the location of these works.

What to expect during these works

Community access will **remain available** to the hall, library and all businesses during construction via alternative pedestrian pathways and/or ramps.

Large trucks and machinery will be operating including the use of concrete saws, jackhammers, and concrete trucks.

While the construction team will try to mitigate noise as much as possible, intermittent noise is to be expected. Dust mitigation measures will be in place.

Please share this information with customers, clients, staff, suppliers, delivery drivers, friends and family as required.

Temporary changes to traffic conditions

Partial lane closures and traffic control

Traffic flow will be retained along Blackall Street and adjacent roads. Some partial lane closures and traffic control may be required when machinery is operating.

On-street parking

For safety reasons some on-street carparks and footpath areas will be temporarily closed off during construction.

Please follow the instructions of traffic controllers and obey signage.

All information contained in this communication is accurate at the time of distribution however works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control.

Thank you for your patience

We thank our community for your ongoing patience and understanding.

Please continue to support local businesses during the construction period.
