

The Resident

Stage 4 Road Upgrade - Camp Flat Road, Bli Bli

Project summary

Sunshine Coast Council is committed to the ongoing improvement of local road networks within our region.

Council has received partial funding from the Department of Transport and Main Roads through the Transport Infrastructure Development Scheme to continue the upgrade along Camp Flat Road, Bli Bli.

Stage 4 will resume from the previous section of Camp Flat Road completed in 2021 and will also include the Whitecross Road intersection.

See figures 1 and 2 overleaf for details.

Start date

The construction of a masonry block retaining wall on the north-east corner of Camp Flat and Whitecross roads is planned to commence Monday 4th September 2023.

The retaining wall is part of the early works package to allow for Energex and NBN relocations. The works are expected to be completed within six to eight weeks, weather and site conditions permitting.

The main road construction is expected to commence between late 2023 and early 2024.

Further information will be provided prior to this main construction phase.

Traffic management

To facilitate safe and efficient delivery, Council will implement a single lane closure throughout construction of the retaining wall to ensure the safety of all road users and minimise the duration, cost and environmental footprint of this project.

Temporary traffic lights will be in place at the Camp Flat and Whitecross roads intersection to control traffic movements and maintain the safety of all road users.

We thank you in advance for your patience and cooperation while we deliver these works.

Further information

For further information about this project, please contact Council's project officer Clint Jones via the details below (please quote project number K2723).

A note from your local councillor

The upgrade to this section of Camp Flat Rd will result in improved safety outcomes for the community. Additional upgrades to the remainder of Camp Flat Rd will continue to be implemented over future years. Allow extra travel time during the construction phase. Thank you for your understanding.
