Operating Net Result

Council's financial results at 29 February 2012 show the organisation with a \$7.7 million better than forecasted operating position against the year to date budget.

The 29 February 2012 operating surplus variation of \$7.7 million is made up of higher than expected revenue of \$2.1 million and lower than anticipated operating expenses of \$5.7 million.

Operating Revenue

The favourable revenue variance of \$2.1 million or 0.6% is made up of favourable variances in interest revenue of \$855,000, internal revenues of \$1.5 million and community services fees and charges of \$480,000. These favourable variances have been offset by an unfavourable variance in development application fees of \$1.1 million

Operating Expenses

The favourable variance in operating expenses of \$5.6 million or 2.6% is made up a lower than budgeted spend on material & services of \$5.7 million. There has been a catch up on spend on materials and services in February with the favourable variance reducing from \$6.7 million at the end of January.

Operating Revenue

As at 29 February 2012 operating revenues are favourable to budget by \$2.1 million of 0.6%

Development application fees remained steady in the month of February, and are continuing to show a year to date unfavourable variance of \$1.1 million

Interest received from investments continues to show a favourable variance of \$885,000, although this variance may be impacted in the coming months due to the decrease in interest rates.

Internal revenue continues to show a positive trend due to higher than budgeted internal recoveries to capital works.

Operating Expenses

At 29 February 2012, operating expenses were \$5.6 million or 2.6% under budget due to an underspend in materials and services of \$5.7 million.

The year to date labour variance is showing an unfavourable variance of \$483,000.

The underspend on materials and services continues, with a year to date favourable variance of \$5.6 million. This favourable variance is across 3 departments with favourable variances of \$3 million for Infrastructure Services, \$1.8 million for Finance and Business and \$500,000 for Regional Strategy and Planning.

Of the favourable materials and services variance, approximately \$1.2 million relates to grants or levy expenditure, which if not spent by end of year will be transferred to reserves. \$276,000 relates to legal appeals which will be settled before the end of the year and \$840,000 relates to an underspend in Building & Facilities, which could potentially relate to purchase orders not being receipted on time.

As at 29 February 2012 \$1.5 million worth of savings have been identified against the value and success targets.

There are no other operating expenditure issues at 29 February 2012.
