

Brisbane Road Upgrade

Stage 2, Zone A

Mooloolaba Transport Corridor Upgrade

Project number: H3747

Night works including partial, temporary Brisbane Road closures

Sunday 15 August – Thursday 26 August (inclusive) 8pm – 6am

All works weather and site conditions permitting

About these works

As part of the Brisbane Road upgrade, some activities must be completed outside of normal construction hours.

These out-of-hours activities are required due to construction methodology and to reduce the impacts to motorists of lane closures and for the safety of the community and workers.

Between August 15 - 26, from 8pm to 6am, night works will take place on Brisbane Road near the Brisbane Road/Walan Street/Hancock Street intersection and on the Tarcoola Avenue/Brisbane Road roundabout.

Please see the map on page 2 for the location of these works.

What to expect during these works?

Construction activity will involve installing new underground electrical conduits near the Brisbane Road/Walan Street/Hancock Street intersection for upgrading power infrastructure.

Vegetation removal will take place at the Tarcoola Avenue/Brisbane Road roundabout as part of early works for the new four-way signalised (traffic lights) intersection. See the intersection plan on page 2.

The completed project will include 234 new trees and 11,326 plants to be planted in the project area.

We will be sharing more details about landscaping in the project in future updates.

During night works, nearby residents and businesses can expect intermittent, medium-high level noise. The construction team will work hard to mitigate noise impacts wherever possible.

Temporary lighting and large machinery fitted with audible reversing beepers will be operating. These measures are required for the safety of the community and workers.

Temporary changes to traffic conditions

During this period some changes to traffic conditions will take place along Brisbane Road, Walan Street, Hancock Street and Tarcoola Avenue. Detours will be operating as required.

Traffic control and signage will help to ensure the safety of pedestrians, motorists and construction workers.

Access will remain available to local residences and businesses with the assistance of traffic control.

All roads will return to normal conditions at the completion of each night's work.

Please allow an extra 10 minutes of travel each evening.

Contact the project team

For further information, you can contact the project team on 1800 531 597 (during office hours, Monday to Friday 8.30am – 5pm) or email mtcu@sunshinecoast.qld.gov.au
