

Have you noticed Bunyas with Dieback ?

Share your observations in our *iNaturalist Project* so we can collect data to better understand the extent of damage and plan action to support this important species.

Adding an Observation in iNaturalist Bunya Dieback Project

1. WHAT DID YOU SEE?

Araucaria bidwillii /
Bunya Pine

2. WHERE WERE YOU?

Either add the address or use the map to locate the area. Ensure the red icon is on the location of the tree/s.

How to get involved...

3. ADD YOUR PHOTO

Upload your image/s. Try to take photos of the canopy and include landscape .

4. FILL OUT THE PROJECT OBSERVATION FIELDS

Plant location, number of individuals (bunya only) etc

5. LOOK FOR EVIDENCE OF DISEASE

This will look like canopy die-back and possibly brown/black marks on the trunk

Thanks so much for your observation,
care and respect for these iconic and
culturally important trees.
