

Brisbane Road Upgrade

Stage 3, Zone E

Mooloolaba Transport Corridor Upgrade

Project number: H3747

26 Brisbane Road, Mooloolaba

Early works - Brisbane Road/Walan Street/Hancock Street intersection upgrade

From Tuesday 3 August 2021

All works weather and site conditions permitting

About these works

As part of the Brisbane Road upgrade, the intersection of Brisbane Road/Walan Street/Hancock Street is being upgraded.

The intersection will include four lanes of traffic in each direction with provision for cyclists, new pedestrian pathways and future undergrounding of power.

From Tuesday 3 August 2021 the temporary car park at 26 Brisbane Road (on the corner of Walan Street) will be permanently removed to accommodate early works ahead of construction of the upgraded intersection.

These works include Telstra and Unitywater underground service relocations.

To minimise the movement of construction vehicles along Brisbane Road and Walan Street, the site will also be used to store construction materials and machinery.

Nearby parking is available at the new ParknGo Mooloolaba Central car park and in local streets.

What to expect during these works?

For safety reasons the site will be fenced and screened.

Nearby residents and businesses can expect intermittent, medium level noise including delivery vehicles and the operation of construction vehicles and machinery.

Any temporary service outages will be advised directly by the relevant service authority, for example, Telstra or Unitywater.

Temporary and permanent changes to traffic conditions

Traffic control will be in place as required to accommodate the safe delivery of materials and machinery.

Pedestrians will be redirected to alternative pathways as required.

When the intersection upgrade is complete, this area will form part of the new intersection and include new pedestrian pathways and provision for cyclists.
