

Scholars Drive Link

Project Completion | Sippy Downs

- ☑ Construction and commissioning of the Scholars Drive Link is now complete, and the Link is planned to be operational from Wednesday 27 July 2022.

Operation of the Link

Vehicle access to Scholars Drive Link will be available during school pick-up and drop-off times only – between 7am and 9am and 2pm and 4pm initially on school days.

The opening times are controlled by boom gates and will depend on traffic use. The Link could operate for as little as 30 minutes, morning and afternoon if congestion eases quickly. This will be monitored by Sunshine Coast Council's Traffic and Transportation team; and boom gate opening times adjusted accordingly.

Scholars Drive Link will not be accessible for vehicles outside these times or during school holidays. The link will only be open to pedestrians and cyclists outside the school peak times.

Pedestrian access

Pedestrians are encouraged to observe and abide by the permanent prohibition signage and to utilise the pre-existing access paths that connect Scholars Drive, Columbia Street and USC campus during school pick-up and drop-off times.

The link will be accessible to pedestrians at all other times.

Message from the project team

The project team would like to thank you for your patience and understanding while this important work was being carried out.

For further information, please call: (07) 5475 7272 and reference P-H4223 or visit Council's website.
