

Kids in Action

Little by Little Song Lyrics

2025 Kids in Program

To understand the land we live on
All the animals and plants around us
Need to listen and learn what it really means to care for
Country
We're leaving memories everywhere we go
So walk softly on the ground below
There are traditions that exist that show us how to care for
Country

Little by little we're carrying on
Generations of knowledge for everyone
We're teaching and learning as we all sing along
Step by step we're making a change
Raising awareness a little each day
We are Kids in Action
Together we are standing strong

To leave our world a little better each day
There are things that we can do to sustain
Reduce, reuse, upcycle, be green, and go steady
Lead the way with a curious mind
Start in your backyard and you will find
Bushtucker, ecosystems, and saving habitat for wildlife

Little by little we're carrying on
Generations of knowledge for everyone
We're teaching and learning as we all sing along
Step by step we're making a change
Raising awareness a little each day
We are Kids in Action
Together we are standing strong

If you care for Country it will care for you
Listen with your heart you will know what to do
Take a deep breath and connect to the energy around you
We are part of something that is bigger than us
So let's raise our voices and do what we must
To respect and protect and cherish this world we love

Leaving only footprints for generations to come

Little by little we're carrying on
Generations of knowledge for everyone
We're teaching and learning as we all sing along
Step by step we're making a change
Raising awareness a little each day
We are Kids in Action
Together we are standing strong
We are Kids in Action
Together we are standing strong

Acknowledgement:

The 'Little by Little' Song was created through the 2025 Kids in Action Program. Participating students contributed to the lyric development with their ideas, messages, sentiments and reflections towards the 2025 theme 'Walking Country – Where will our footprints lead.' The song was co-written by Derek Foster (Eco Music / Foster Facilitations), Andrea Kirwin (Peace Run Records) Spencer Hitchen (Save Our Sunrise Glossies), and Mandy Botterell (Kids in Action Team), and recorded and performed by Andrea Kirwin (Peace Run Records). This song may be used for educational purposes and must acknowledge all involved.

How to Use and Acknowledge for Education Purposes:

You may use the song in educational settings, such as classrooms or school events.

Whenever the song is played, shared, or referenced, include the full acknowledgement statement above. If space is limited (e.g., on a slide or handout), at minimum, credit the 2025 Kids in Action Program, the participating students, and the co-writers and performer.

Please always –

- *Display the acknowledgement on materials (e.g., lyric sheets, presentations, lesson plans).*
- *Verbally acknowledge the contributors before or after playing the song.*
- *If publishing online or in print, include the full statement and mention that the song is used with permission for educational purposes.*
