Project number: H3732

13 October 2026

Caloundra Transport Corridor Upgrade

Improving connectivity and travel choice

Temporary changes to pedestrian pathways and trails, select vegetation clearing and erection of road signs.

Wednesday 14 October through to November 2026. Day works 7am to 5pm.

Nicklin Way, Arthur Street, Third Avenue, Second Avenue, Oval Avenue, Omrah Avenue, Olm Street, Ben Bennett Bushland Park and Bicentennial Park.

Construction workers, vehicles and machinery on site.

About the CTCU

SEE Civil has commenced construction of the Caloundra Transport Corridor Upgrade (CTCU) project, a new 1.6-kilometre transport corridor, improving access into the Caloundra CBD, reducing congestion and supporting the future growth of the region.

The project is anticipated for completion by mid-2028, weather and site conditions permitting.

To learn more about the project and subscribe for emailed updates, please visit Council's website.

Current works

During October and November 2026 construction will take place in multiple locations, simultaneously along the new transport corridor.

Works will include:

- The start of the new intersection and road works linking Nicklin Way to Third Avenue.
- Road works along Oval Avenue, Arthur Street and Olm Street.

For our community's safety, some temporary and permanent changes to vehicle and pedestrian traffic movements will apply during construction.

Please refer to the information below and *Figure 1* on page 2 of this notice.

We thank our community for your cooperation during construction.

What to expect during these works

Construction crews and equipment operating

- Contractors on site with specialist equipment operating. The project team will aim to minimise disruption to our community, including residents and businesses where possible.

Nicklin Way, Arthur Street, Third Avenue, Second Avenue, Oval Avenue, Omrah Avenue, Olm Street

- Signage installed along the CTCU route.

Ben Bennett Bushland Park

- Temporary changes to some walking tracks. Access will remain via alternative tracks.
- Select vegetation clearing and mulching. Fauna spotters on site during clearing.

All information contained in this communication is accurate at the time of distribution however works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control.

Construction Notification

Bicentennial Park

- Temporary changes to some pedestrian pathways. Access will remain via alternative pathways.
- Select vegetation clearing and mulching. Fauna spotters on site during clearing.

Please refer to *Figure 1* below for the location and dates of these works (weather and site conditions permitting).

Environmental considerations

The project has undergone extensive environmental assessment and has received *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) approval with conditions designed to avoid, minimise and manage environmental impacts.

As part of our commitment to sustainability, our Natural Areas Management team will seek to salvage natural materials like hollow logs and use them to create fauna

An experienced fauna spotter-catcher will be in attendance to manage and supervise all terrestrial fauna management activities prior to and during tree removal works.

More information is available on the project's web page.

Contact the project team

The project team will continue to keep our community informed as the CTCU project progresses.

- Visit Council's website (search CTCU)
