Sunshine Coast Council Corporate Plan 2024-2028 Snapshot

December 2023

Acknowledgement of Traditional Custodians

Sunshine Coast Council acknowledges the Sunshine Coast Country, home of the Kabi Kabi peoples and the Jinibara peoples, the Traditional Custodians, whose lands and waters we all now share. We recognise that these have always been places of cultural, spiritual, social and economic significance. The Traditional Custodians' unique values, and ancient and enduring cultures, deepen and enrich the life of our community.

We commit to working in partnership with the Traditional Custodians and the broader First Nations Aboriginal (and Torres Strait Islander) communities to support self-determination through economic and community development.

Truth telling is a significant part of our journey. We are committed to better understanding the collective histories of the Sunshine Coast and the experiences of First Nations peoples. Legacy issues resulting from colonisation are still experienced by Traditional Custodians and First Nations people.

We recognise our shared history and will continue to work in partnership to provide a foundation for building a shared future with the Kabi Kabi and the Jinibara peoples. We wish to pay respect to their Elders – past, present and emerging, and acknowledge the important role First Nations people continue to play within the Sunshine Coast community.

Together, we are all stronger.

Message from the Mayor

Mark Jamieson
Mayor

Our Corporate Plan continues to advance our vision for the Sunshine Coast as Australia's most sustainable region – Healthy. Smart. Creative.

Our direction for the next five years will see Council continue to work with our residents and local businesses to build a strong community, maintain and enhance our liveability and natural assets, build the strength of our economy and increase our community's resilience and agility to respond to change.

The future continues to hold an array of opportunities for our Sunshine Coast and securing the Brisbane 2032 Olympic and Paralympic Games provides a signature catalyst for the future prosperity, liveability and reputation of our region. As a key delivery partner for Brisbane 2032, Council will be establishing a clear legacy plan that captures opportunities right across our community; for those with a disability, for our First Nations peoples, for local industries, businesses and suppliers, and for our children and young people – who are our foundations for the future.

Our Council has a well-established record of being an innovator and getting things done. Projects such as: the development of the new Maroochydore City Centre and the activation of the Caloundra Central Business District; investing in the international broadband submarine cable and growing our digital economy; and the expansion of the Sunshine Coast Airport and building our export capabilities – are all examples of Council's forward thinking which creates a more resilient economy delivering jobs,

opportunities, access to services and major events.

Of critical importance as our region grows, is securing State and Federal government investment on a desperately needed efficient, reliable and sustainable public transport network for the Sunshine Coast. This is a key priority for our Council to maintain the liveability of the region and our efforts to secure these commitments from the other tiers of government will not diminish. Equally important, is our stewardship of the region's outstanding natural assets, which are a core facet of the liveability of the Sunshine Coast and which Council is committed to maintaining and enhancing. Our Council shares our community's passion and dedication to maintaining our region's environmental credentials and preserving the rich biodiversity for which the Sunshine Coast is renowned.

Our energetic focus is on expanding our conservation estate (arguably the largest owned by a local government in South East Queensland); improving the health of our waterways; preserving the Regional Inter-urban Break shared between the Moreton Bay region and the Sunshine Coast in perpetuity; securing new opportunities for our nation-leading Blue Heart Sunshine Coast project; and supporting the implementation of the UNESCO Biosphere across our region are of intergenerational significance and provide enduring foundations for the future liveability of our Sunshine Coast.

As a coastal region, one of our greatest challenges now and in the years ahead is our response to a changing climate. In November 2021, Council recognised a climate emergency exists and that there is a need for sustained effort to achieve zero net emissions for our organisation. Our Council is already taking significant action towards reducing greenhouse gas emissions and we are developing and implementing a range of new initiatives to better prepare our community, our region and our infrastructure for the impacts of a changing climate.

Our focus over the life of this Corporate Plan will also resolutely remain on the important role that Council plays as the guardian of the wellbeing of our community. Whether that be through our ongoing support for the invaluable work of community organisations; our continuing high levels of investment in sport, recreation, cultural and community facilities; strengthening our reputation as an inclusive community through our work with First Nations peoples and support for new migrants to the region; or better enabling our residents to stay connected, keep informed, access new opportunities and get involved. Our contract with our community is one of shared aspirations anchored in strong social justice principles – equity of access, the efficacy of human dignity and a level playing field - so everyone can benefit as the region grows.

What we all recognise however, is that our fantastic natural assets and outstanding lifestyle continues to attract new residents to our region. In less than 20 years our population will reach more than 500,000 people and as we grow, we are presented with both opportunities and challenges. Our Council and our community are well positioned to take advantage of these opportunities through well-considered planning so our Sunshine Coast is better positioned to meet the needs of those who live here now and those people who will do so in the future.

An important part of this approach is the development of the new Sunshine Coast Planning Scheme. The current scheme has been in place since 2014 and, in consultation with the community, Council is drafting a new planning scheme to shape land use and development across the region for the next decade and beyond.

None of our efforts would be possible however, without a determination to ensure our organisation is financially sustainable, has a strong fiscal outlook and offers a safe, supportive working environment for our team. Our continuing efforts to be an outstanding organisation, through strong governance, empathetic leadership and a sustainable resourcing model will remain a hallmark of our performance as a Council and

ensure we maintain the capabilities to deliver on the expectations of our community. Our Council continues to be one of the highest performing and financially strong councils in Queensland - and this is in no small part due to the prudent management of our resources and targeted investment in regional assets that best position our residents and our region for the future.

Our partnerships across communities and across the region will continue to be of inestimable value. Without them, the goals we set for ourselves would not be attainable. Our success over the next five years – as a Council and as a community – will be testament to the strength, durability and productivity of our relationships with our partners and the outcomes we are able to realise from working together on behalf of the Sunshine Coast.

As a Council, we have always maintained a clear and balanced vision for the future that shapes all our decisions. Our Corporate Plan helps to translate the vision into action and to provide a blueprint for doing so. Never before has the need for agility and adaptability been more crucial – and these attributes are embedded in our approach to how we service our community. After all, that is what being healthy, smart and creative is all about.

Advancing our vision

This corporate plan outlines the goals, pathways, strategic priorities and progress indicators for 2024-2028 as we advance towards our vision – Australia’s most sustainable region. Healthy. Smart. Creative.

The community, environment and liveability, and economic regional goals are clearly focused on:

- social inclusion, connectivity and a strong community
- the preservation and enhancement of the natural environment and liveability credentials
- the transformation of the regional economy to ensure ongoing economic resilience and prosperity.

Community engagement during development of the regional strategies and during the review of the Sunshine Coast Planning Scheme consistently reinforced how much the community values the region’s natural assets and wants to preserve the distinct character and liveability of the Sunshine Coast. Our community also recognises the need to diversify the economy, access new market opportunities, and create jobs for the future and they want to be part of a strong community that is connected, engaged and inclusive.

Our community is aware the region’s projected population growth brings exciting opportunities for a resilient economy, more jobs, and better infrastructure. However, population growth also increases demand for services and infrastructure and creates challenges around protecting the lifestyle we wish to retain. This corporate plan responds to this challenge by striking balance between economic opportunities, environmental values and our community wellbeing.

Balance also underpins Council’s principles-based approach to shape urban growth. Council will continue to protect and enhance the region’s natural assets and green spaces. We are constantly looking to the future and securing the land required for our community to enjoy in the decades ahead.

We will integrate land use, transport, economic and community planning to contain and serve the urban footprint. This balanced approach has successfully supported the liveability of our region to date, and

Council is intent on continuing to maintain and enhance the liveability of our region in the future.

Importantly, well planned and suitably sequenced infrastructure is essential to the retention of the region’s liveability as it continues to grow. However Council is not solely responsible for the delivery of this infrastructure - the State and Federal governments provide critical elements such as highways, motorways and arterial roads, rail and public transport and social infrastructure. They also shape the legislative and regulatory context for securing a sustainable future. We will continue to partner with all the relevant stakeholders to secure timely commitments for necessary infrastructure to support the region’s growth and as part of our preparations as a host partner of the Brisbane 2032 Olympic and Paralympic Games.

This corporate plan advances Council’s recognition of the need to respond to the climate emergency. We are planning for climatic changes by protecting vulnerable pockets of the region and converting landscape constraints into environmental assets that will support our ongoing resilience. We are also building capacity in our community to respond to local issues and be resilient to natural disasters and emergencies.

Greater connectivity is essential for the digital era and our region is in a good position having secured the fastest direct telecommunications and data link to Asia and having a new international airport runway that accommodates larger aircraft to and from new markets and links our people and products to the world and further our economic resilience. We will focus on capitalising on this connectivity to leverage opportunities to further our economic resilience.

Connectivity is also critical within our growing region. Our efforts to advance an integrated transport solution for the region will focus on planning quality transport options, serving developing communities and centres, locating population growth closer to employment opportunities, and promoting sustainable public and active transport options.

Our service excellence and outstanding organisation goals are the platforms to ensure Council’s capability and capacity to deliver the

corporate plan. These two goals not only deliver on our statutory responsibilities to be accountable, effective and efficient, but place a clear focus on continually improving our day-to-day services to deliver sustainable outcomes that put our community at the centre of everything we do.

Service excellence is integral to our purpose – the critical lens to how we deliver our community, environment and liveability, and economic goals. We will seek to ensure community value defines the experiences of our customers and visitors. We will deepen our service-oriented culture across the entire business, further embed service improvement planning, develop new and innovative

ways to service our community, and continue to engage our community to maintain a clear understanding of what our community values as the region evolves.

Our outstanding organisation seeks to ensure we can continue our proud history of being innovative through having the right people, a great workplace culture, fit for purpose systems, good governance and accountable leadership. We will ensure effective community engagement informs our activities and will partner with our community to present outcomes that meet their needs and position the region for the future.
