Monday to Friday, 7am to 5pm, day works only. Saturday 8am to 3pm as required.
All works weather permitting.

Various locations – Oval Avenue, Third Avenue, Second Avenue, Caloundra

Traffic control in operation as required

Works overview

As part of the Caloundra Transport Corridor Upgrade (CTCU) project, early works for Section One of the two section project are taking place.

Section One is funded by Council and includes the upgrading of Omrah Avenue to Arthur Street. You can view each section on the project webpage (search 'CTCU project' on Sunshine Coast Council's website).

Early works include the relocation of underground services such as power, water and telecommunications, and the demolition of properties required to accommodate this important road and active transport corridor.

Council has been liaising with the relevant property and business owners since February 2019 and now owns all required properties.

Demolition works are being conducted in stages to minimise impacts to our community. The first stage of demolition is taking place from October 2023 to March 2024.

The second and final stage of demolition works is scheduled to take place from week commencing Monday 8 January to early April 2024. See page 2 of this notice to view this stage of demolition works as shaded in **ORANGE**.

What to expect during these works

Following further tender assessment, Murphy Builders has been appointed as the demolition contractor for the demolition works. This local company is highly experienced in all areas of construction, including demolition.

All relevant permits are in place and tests have been undertaken on the land and buildings as required, including for the presence and safe handling of asbestos.

Properties will be fenced off. Specialist equipment and machinery, along with construction vehicles will be in operation.

Moderate to high levels of intermittent noise can be expected during the day.

All information contained in this communication is accurate at the time of distribution however works and dates are subject to change due to circumstances outside of Sunshine Coast Council's control.

Dust suppression methods will be used and air quality monitoring in place where required.

Traffic control will be used as required and is expected to have minimal impact on our community. Where necessary for safety reasons, pedestrians may be diverted to alternate routes. Signage will be in place.

Access will remain available to local residences and businesses.
