

The power to save
money and the planet,
in your hands.

ENERGYFLEX.COM.AU

Garry Harding
CEO and Founder
EnergyFlex

A great head for radio!

But First...

- Who pays more than \$300 per month for electricity?
- Who pays less than \$100 per month for electricity?
- Who has Solar PV at their home?

...and some thoughts:

- Do you want to buy an EV?
- Could you use a battery?
- Could you change your usage?

...or are you

- Simply confused by bills, tariffs and rising prices?
- Struggling to decide what to do next?

We are here to help!!

Let's cut to the Chase!

P/A Savings 2024

\$1000

ELECTRICITY cost reductions

P/A Reductions 2024

1.15t

SCOPE 2 emissions reduction

P/A Increase 2024

+18%

Renewables consumed

So, what does a tonne
of **Carbon Emissions**
look like?

Reduces energy bills through small changes in **WHEN** and **HOW** you use energy.

HOW IT WORKS:

- ✓ **MEASURES** your energy usage and carbon output
- ✓ **MANAGES** behaviour change through simple guided actions
- ✓ **MONETISES** your energy usage and flexibility

Where did this
idea come
from?

OK - Let's
consider how
you buy petrol?

Let's Compare

Petrol Price

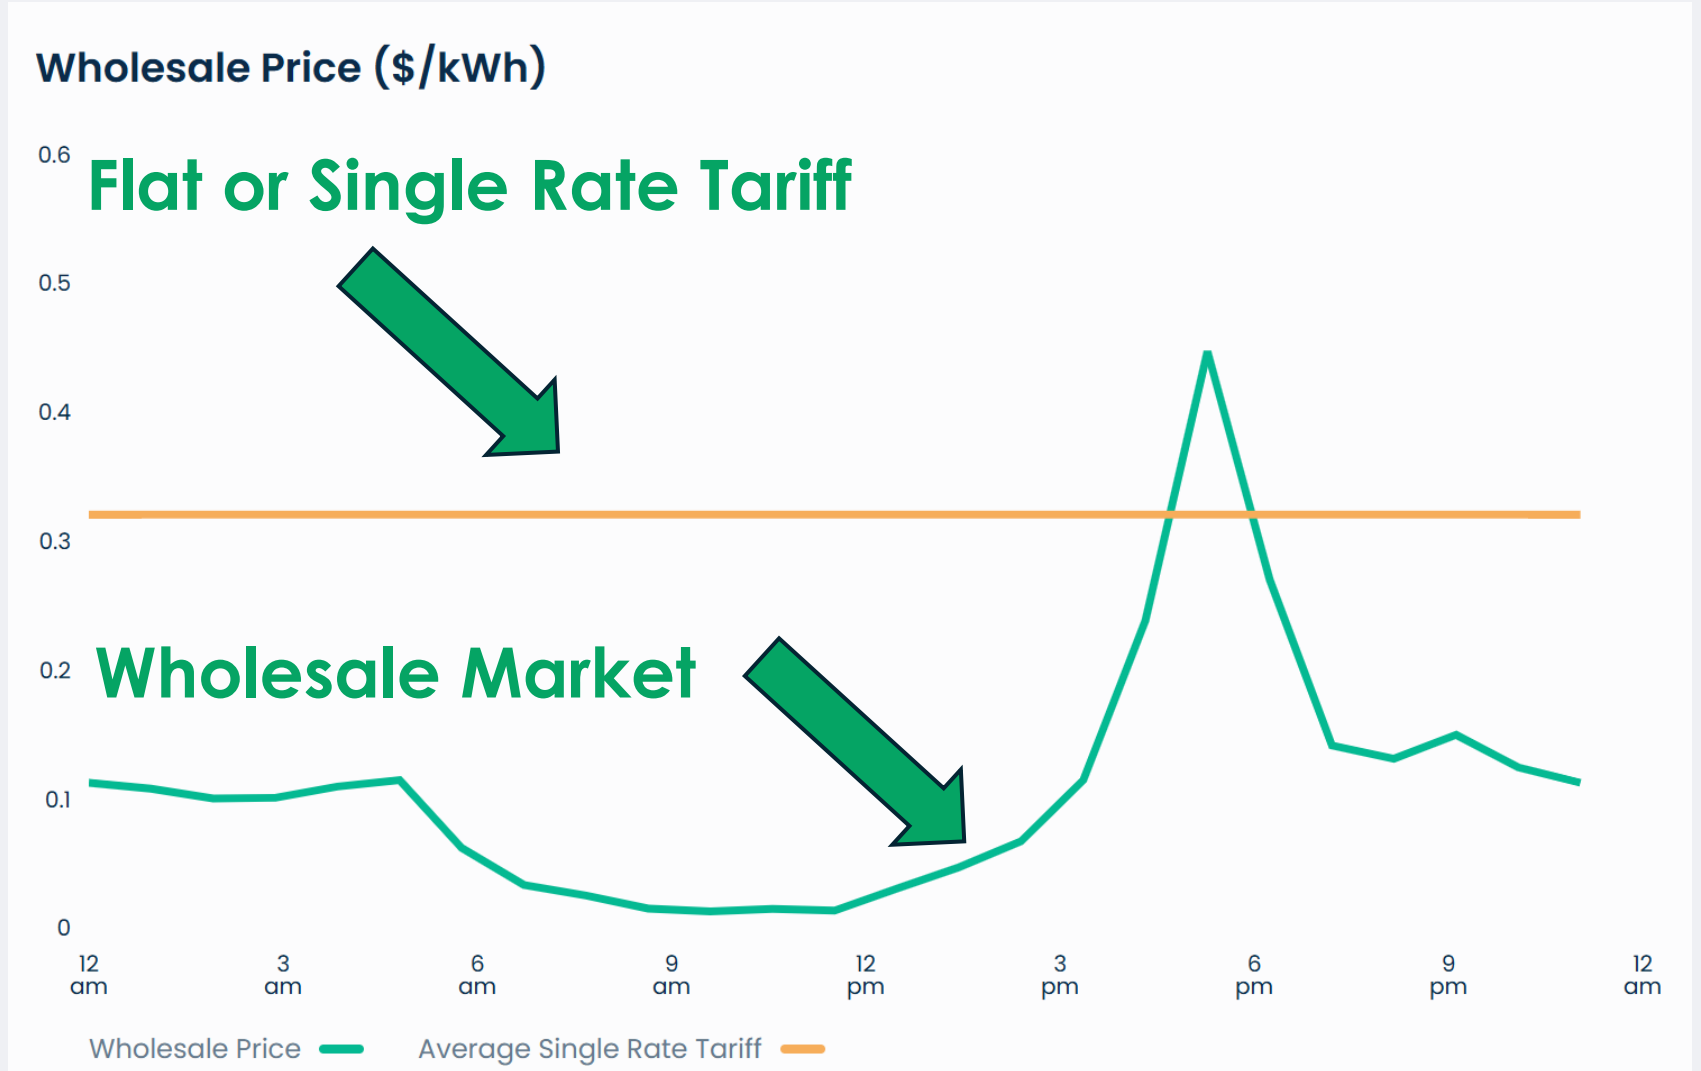

- Unleaded \$1.70 to \$2.30 litre.
- 6 price cycles per year.
- \$30 per time.
- Get it wrong 3 times = \$90.

Electricity Price

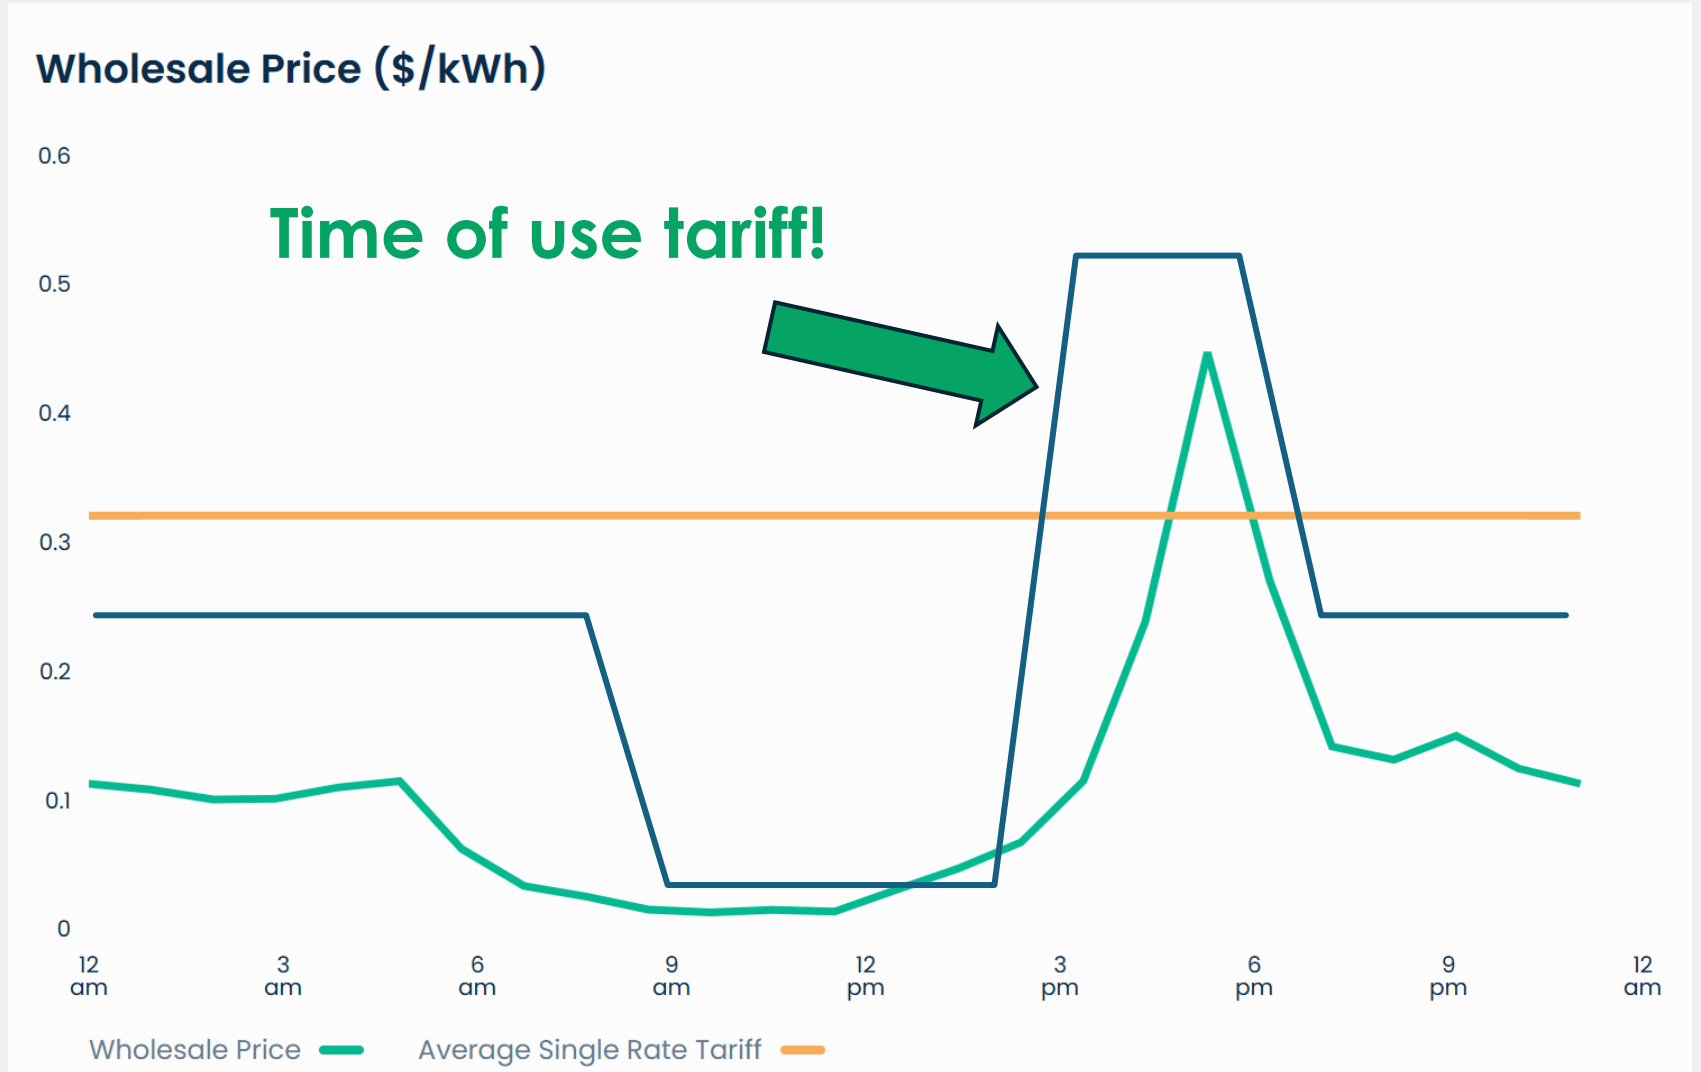

- -\$1.00 to \$17.50 kWh.
- Dishwasher - 1 cycle per day.
- 3c p/day or 45c at night.
- Day = \$11 or **Night \$164 a year.**

That's just one small change!

That doesn't look like a duck!

Pay for the way
you use
electricity!

Why does timing matter?

Using renewable generated energy means cheaper running costs and less emissions.

Did someone say Smart Meter?

**We can get you
one for free!**

Smart Meter Facts!

1. Enable you to pay the least for electricity?
2. Transmit data every hour – in a millisecond!
3. Don't enable others to turn you off!
4. Don't help companies sell your data!
5. Will be installed by 2030, either way.

Show me the Money!

Change your AC temperature

Adjust your pool pump timer

**Run the dishwasher in the
morning**

...and modify **your**
habits!

**Change your fridge and
freezer temperature**

Clean your rangehood filters

Keep your feet warm

...did someone say awards?

*'EnergyFlex is revolutionising consumer engagement, embodying the spirit of Australian innovation in clean tech.
You've significantly improved how households and businesses can optimise their energy use.'*

The advertisement features the EnergyFlex logo at the top left. The background shows a family (a man, a woman, and a child) smiling. In the foreground, a hand holds a smartphone displaying the EnergyFlex app interface. The app screen shows a '2.9' energy wellness score with a green progress bar, a '0.3%' increase, and a 'Key Alexander, let's work on your energy wellness' message. Below this, there are sections for 'Timing is everything' and 'Compare and save'. At the bottom of the app screen, there's a 'Complete your property profile' button. The advertisement text reads: 'The power to save money and the planet, in your hands.' At the bottom, there are links to download the app on the App Store and Google Play, and the website URL 'ENERGYFLEX.COM.AU'.
