Attention: Mr. Brian Peebles

Dear Sir,

Re: Construction of Shepperson's Lane, Kin Kin

Further to our related discussions over the past 18 months on the re-construction of Sheppersons Lane, I wish to formally confirm my emailed advice of 12 September 2011, whereby Neilsens Quality Gravels Pty Ltd would be prepared to share the total costs of re-constructing Sheppersons Lane with the Sunshine Coast Regional Council (SCRC).

This offer is based on our initial discussions whereby it was proposed that the SCRC would undertake the Road Sealing works and that Neilsens would supply the Road Base materials, and that SCRC and Neilsens would then share the resultant net external Contractor's costs. I further advise that the 3 Tenders received for the construction works were based on the premise that Neilsens would supply and deliver the Road Base materials (some 3,140m³) to the site at its own cost.

I further qualified this undertaking by highlighting that as Neilsens has not yet obtained Department of Main Roads approval for its quarry products, that the quarry materials (mainly CBR80) will be supplied in accordance with the relevant Main Roads specifications, without the actual DTMR Quarry approval.

I trust that the above confirmation meets with your requirements, and if you need any additional information then please do not hesitate to contact me,

Regards,

28/10/11 Snowden
