.....  
In response to question raised by Councillor Suarez, please note the following additional information for your consideration.

### Question:

Could further details be provided in relation to compliance regarding the Solar Farm?

### Response:

Large-scale generation certificates (LGC's) are created based on the amount of eligible renewable electricity produced by the power stations, and can be sold or traded to RET-liable entities, in addition to their sale of electricity to the grid. Liable entities have a legal obligation to buy and surrender LGC's to the Clean Energy Regulator on an annual basis each calendar year.

Energy acquisition statements and renewable energy shortfall statements for each assessment year are due on 14 February, the legislative annual deadline.
