COUNCILLOR COMMENT:

During the council lead Master Planning process for the Maleny Community Precinct, a proposed site was identified for the Maleny Indoor Aquatic Centre. This site was further investigated and found to have construction difficulties due to the underground rock formation. The site was then removed from the Master Plan through a council resolution. Considerable time has been spent in identifying other locations which have included council, state and privately owned land. One of those sites investigate was the Maleny State School, this required an infrastructure upgrade in the vicinity of \$6 million, a parcel on Coral Street was investigated along with a few other centrally located plots however all proved cost prohibitive due to the ownership of the land or was not supported by the Maleny Indoor Aquatic Centre.
