## INTRODUCTION TO THE COMMUNITY STRATEGY 2019-2041: THE ACTION PLAN 2019-2024

A clear story of what a strong community means for the Sunshine Coast emerged from the insights our community shared with us. This shaped our vision: together we thrive and informed our commitment to five outcomes we seek to achieve by 2041. Those outcomes are:

- healthy and active communities
- vibrant communities
- inclusive communities
- connected and resilient communities
- creative and innovative communities.

The Community Strategy provides a framework for how council and our community will work together to advance

our shared goal for a strong community through to 2041. This framework says what we will (and can) do as a local government, and how we will go about doing it. The Community Strategy sets a vision, five outcome areas, guiding principles and methods for how the goal of a strong community will be achieved. The Community Strategy will be implemented through the delivery of the *Community Strategy Action Plan 2019-2024* (the Action Plan), which will in turn guide council's annual operational planning. The Community Strategy and the Action Plan are supported by the *Sunshine Coast Community Strategy 2019-2041* Background Paper.

## Purpose of the Action Plan

An Action Plan outlines who is going to do what in order to achieve strategic goals or outcomes. The purpose of the Community Strategy Action Plan is to identify a five-year program of initiatives that:

- empower our community to live healthy and active lifestyles,
- focus on ensuring community places and spaces are vibrant, inclusive, accessible, adaptable and meet the needs of people of all ages, abilities and backgrounds,
- strengthen connection, inclusion and opportunity for all people in our community,
- build capacity in our communities to be connected, resilient and to respond to local issues,
- nurture creative and innovative approaches to building a strong community.

The Community Strategy Action Plan also provides a clear approach to measuring and reporting on our progress towards outcomes regularly.

## Measuring impacts and outcomes

The Sunshine Coast will lead the way we collect and report on outcomes that contribute to building a strong community. Against each of the five outcomes we have articulated outcome measures that we will track to ensure we are delivering on our goal. These outcome measures are:

- The Sunshine Coast Local Government Area is one of the healthiest regional communities in Queensland
- More than 80% of our residents agree that council's community infrastructure meets the needs of their community
- Improving social and economic opportunities over time relative to other South East Queensland Local Government Areas
- More than 85% residents agree they can get help from friends, family, neighbours or community organisations when they need it
- More than 20% growth in social enterprises operating in the Sunshine Coast Local Government Area.

These outcome measures will be evaluated every five years, at the completion of the Action Plan. By ensuring strong outcome measurement, the Sunshine Coast as a region will be well placed to address challenges as they arise and advocate for services as required.

## Ongoing review

Challenges and opportunities in our community will inevitably shift and change over time. For this reason, the Community Strategy must be dynamic and versatile, reflecting our community's insights over time. The Community Strategy Action Plan will be evaluated every five years remaining relevant in its achievement of the Community Strategy's articulated goal of a strong community.
