Summary of points raised

 The Plan should identify that each venue has its own unique qualities which could be channelled for fitfor-purpose events.

Raised within 1 submission - 1 organisation (Matthew Flinders College)

87. The Events Centre should be a responsible party in some actions within the Action Plan.

Raised across 2 submissions - 2 organisations (The Events Centre, Chamber of Commerce)

Other comments and feedback

Council needs action and long term commitment.

Raised across 3 submissions – 3 residents

89. The final Plan will resemble little of the draft Plan

Raised within 1 submission – 1 resident

90. Recommendations of the Plan are a "waste of money". Council will be unable to cover the cost to build new venues, let alone the cost to run and maintain new venues.

Raised within 1 submission - 1 resident

91. Frustrating not being able to look up hire fees online.

Raised within 1 submission - 1 resident

Need to promote the venues to the people/businesses that might hire them and then they will
promote the event.

Raised within 1 submission - 1 resident

 Council should consider whether cost is a major barrier and whether lower charges could result in much greater usage and therefore be cost effective.

Council should consider reviewing its fees and charges.

No local theatre group or small business can afford to rent council's venues - they use the local halls.

Note: One submitter raised that they have not looked at their local hall's hire charges for a number of years.

Raised across 6 submissions - 4 residents/2 organisations (Creative Alliance, Beerwah Hall hirer)

94. The current draft Plan is a "dangerous document" that appears to be designed to not only justify under the guise of "industry best practice' the continued sell off of community performance assets, but also a reduction of council's ongoing financial support for already privatised assets.

Raised within 1 submission - 1 resident

 It is in our interest to work with the council to enhance and develop council's venue structure to a viable position to be workable for the touring market circuit.

Raised within 1 submission - 1 organisation (Jally Entertainment)

	Raised within 1 submission – 1 resident

	Raised within 1 submission – 1 resident
105.	Beerwah is difficult for small events as you cannot hire part of the hall. Also smaller rooms are not accessible except through the hall.
	Raised within 1 submission - 1 resident

	Raised within 1 submission – 1 resident
